PROGRESSIVES MAKE A CLEAN UP IN KANSAS

[UNITED PRESS LEASED WIRE.] Topeka, Kan., Aug. 9.—That the progressives swept Kansas in every contest put before the voters in the recent primary election was established here today by the complete returns, which show that Governor Stubbs, apparently, has defeated Chas. Curtis, the incumbent, for the senatorial nomination. While an official count may be necessary to determine the exact vote, it is an undisputed fact that Stubbs has carried 83 legislative districts, Curtis 73, with the others doubtful.

BATTLESHIP NEBRASKA IS BADLY INJURED

[UNITED PRESS LEASED WIRE.] Washington, Aug. 9.—It was discovered that the battleship Nebraska, which ran aground near Newport, R. I., was so badly damaged that she was today ordered to dry dock at Boston to undergo repairs. The flagship Connecticut has been ordered to the Philadelphia navy yard to have a starboard crankshaft repaired.

Hardship on the Dogs.

[UNITED PRESS LEASED WIRE.] Portland, Or., Aug. 9.—Police here were ordered today to arrest all persons permitting their dogs to drink at street fountains installed exclusively for humans. The order followed a controversy between a fashionably dressed woman and an officer as to the propriety of the woman's holding her poodle up to the fountain and allowing him to drink.

Will Buy Bill.

[UNITED PRESS LEASED WIRE.] Portland, Or., Aug. 9.—Announcement was made here today by Richard Kinella, scout for the St. Louis Nationals, that that club would buy for \$2500, Bill Spease, outfielder for the Portland Northwestern league team.

SHIPMENT OF SPUDS HELD UP AT TACOMA

[UNITED PRESS LEASED WIRE.] Sacramento, Cal., Aug. 9.—State Horticulturist Cook was today notified by the officials at Tacoma that a large shipment of potatoes from southern California affected by the potato moth had been held up by state quarantine there and returned to the shippers.

To Lecture in Canada.

[UNITED PRESS LEASED WIRE.] Toronto, Can., Aug. 9.—Representing the unionist side of the British political situation, the Right Hon. Walter H. Long, a leader of parliament, is today on his way to Canada to enter a two months' lecture tour, according to word received here today.

The Right Hon. Walter H. Long will defend the unionist side in his speeches. He will make a short stay at New York before proceeding to Montreal.

THE SECOND BATTALION.

(Continued from Page 1.)

ordered a court of inquiry, and it was stated that the command would not be mustered out, pending the findings of this court. General Finzer revoked this order.

One hundred and ten men of the battalion, who were not involved in the alleged mutiny, will be enlisted in a new battalion, to be organized immediately. Other members of the second battalion may re-enlist if they wish. They are not dishonorably discharged. General Finzer gave no reason for his sudden change of front. It was stated today Governor West would conduct an investigation.

If it were as easy to do a thing as it is to talk about it there wouldn't be a job left in a week.

Case Dismissed.

In justice of the peace court this morning the case of Andrew Manos, one of the proprietors of the Oregonian restaurant, for alleged assault and battery, was dismissed by Judge Webster, after hearing the testimony. The complaining witness was formerly an employe at the restaurant, and the difficulty arose over some clothes left there by him at the time he quit the employ of the establishment.

Takes Proper Course.

Miss Goldie Kaurin, a handsome and attractively attired young lady, appeared at the city recorder's office today and swore out a warrant for the arrest of John Johnson, who, she alleges is guilty of rude and insulting conduct. This afternoon as the young lady was passing the corner of Commercial and Court streets, she was approached by Johnson, with whom she is not acquainted, although it is understood they have lived at the same hotel for a few days. Johnson's conduct was of such a nature that the young lady reported the case immediately to the chief of police. Johnson will be arrested as soon as found, which is expected at any moment, as he has been seen about town several times today.

HOW MOISTURE AFFECTS TIRES.

The action of moisture on the rubber in a tire is insignificant, but its effect on the canvas is serious enough to be worthy of attention. Experiments made by the Michelin Tire Company show that if cotton is quickly dried after contact with moisture it suffers but little, even if this happens many times. A piece of cotton fabric which was exposed for a month in the open air to the action of sun and rain did not lose more than 2 per cent of its initial strength, while a piece of calico, after being wet through and through and dried in front of a fire more than twenty times did not lose more than 3 per cent. Moreover, if cotton fabric is immersed in water for thirteen or fourteen months it does not lose much of its strength, although the surface of the water meanwhile becomes coated with fungus growths. If, however, the fabric is left to lie in a moist atmosphere on the floor of a damp cellar for instance, spots and stains will soon make their appearance. These stains denote the presence of destructive growths of minute bacilli which will rapidly reduce the fabric to mould. Similarly, wall paper hung in damp rooms will eventually fall from the walls and crumble to dust.

It follows that what really injures the canvas in pneumatic tires is continued dampness. If water is allowed to get into cuts which extend through the tread to the fabric, some such condition of continued dampness will be brought about, for once the moisture enters a cut it has but little chance to evaporate.

Tires should therefore be stored in cool places which are perfectly dry. After traveling over wet roads envelopes should always be dried. So likewise after being washed. It is important that tires be washed regularly in order that cuts may be revealed, cleaned and repaired. The best way to wash a tire is to sponge it lightly when fully inflated, using the smallest possible amount of water and drying both tire and rim carefully as soon as the operation is complete.

The fellow who is always getting into deep water needs to be a good swimmer.

For Women Who Care

Of course you use an antiseptic your family and in the care of your own person, and you want the best. Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try PASTINE, a concentrated antiseptic powder to be dissolved in water as needed. PASTINE is more economical, more cleansing, more germicidal and more healing than anything you ever used.

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridge-work clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of PASTINE. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone PASTINE is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request. THE PAXTON TOILET CO., BOSTON, MASS.
