## THE INDEPENDENT JUDICIARY.

"Mr. Taft, Mr. Barnes and others are terribly wrought up over the attack of demagogues like Theodore Roosevelt, Woodrow Wilson, William Jennings Bryan and others upon the independence of the judiciary," says the Fargo Courier, and then adds:

"As a matter of sincerity and truth, these so-called demagogues are fighting for the independence of the judiciary by seeking to relieve it of legislative functions that it has usurped in the name of the people and as their first friend and guardian."

"No other judiciary in the civilized world undertakes to act as first friend and guardian of the rights of the people and the sole and final interpreters of the popular will."

"The latest constitutions of the world in Australia, Argentina, Japan and elsewhere follow the English precedent that our forefathers faithfully undertook to follow in the formation of our constitution, of placing the sole power of constitutional interpretation in the legislature."

"The great charters of English liberty are written out and were each adopted by the English people as measuring common rights, and parliament has never dared to transgress the great principles set forth therein without suffering violent rebuke from the people."

"The same thing would happen here if the interpretation of the will of the people was determined to be a political function of the legislature and not a judicial function of the judiciary."

"This is true, because the experience of the whole civilized world is witness to its truth."

"The issue is whether the people are going to work out their own will through the legislative branch of government as guided by written constitutions setting forth the great principles of common right that have been indelibly written on the hearts and minds of Englishmen since the days of Magna Charta, or shall their attempt to carry out their will be smothered by years of litigation in the courts of law, as to what their will really is."

"The supreme court of the United States once decided that a citizen could sue a sovereign state; the people recalled this decision."

"The present situation has become intolerable to a free people who know what they want when they want it."

"It is time they recalled the legislative function entirely from the courts."

## THE BLUSTER FOR BATTLESHIPS.

In no other respect has the majority of the democratic caucus in the lower house of congress served the country better than by calling a halt upon the insane notion that this nation must produce battleships as a hen must lay eggs—so many so often. This battleship craze, so far as it really has any place in public opinion anywhere, is prompted and promoted by battleship builders. Take away contractor's profits and the profits of financiers in connection with the annual output of battleships and there would soon be little demand for them, either in this country or any other.

## THE AMERICAN ELECTORAL COLLEGE.

When Archbishop Platon of the Russian church in North America was reported from Russia as explaining politics in the United States, an American newspaper correspondent at St. Petersburg got him nearer right as matter of actual practice than he had probably spoken with reference to constitutional theory.

"In America," said the Russian prelate, as reported, "the nation does not elect the president; that is done for it by the vast business interests which have important affairs at stake."

## A MOTHER TURNS CHILD OVER TO A NEGRESS

[UNITED PRESS LEASED WIRE.]  
Washington, Aug. 14.—Deeply touched by the pathetic story of little Joe Wilford Johnson, a 10-year-old white boy found living in unspeakable squalor at the home here of Nora Johnson, a negress, where he is alleged to have been placed by his mother, a society woman, all Washington today is eagerly awaiting further developments.

"Nora is my 'brown faced mudder,'" lisped the lad today, "but I got a white faced mudder, too. I dess she don't care much for me, 'cause she hardly ever comes."

Major Sylvester, head of Washington's police force, openly asserted today that the mother had deserted the boy, placing him where he would be certain to succumb to death by enforced imprisonment. Joe was found in a dark room where he had been held for at least a month. His body bore many bruises and wounds, indicating that he had been brutally beaten.

The negress, Nora Johnson, is held on a charge of maltreating the boy. Judge Delancy of the juvenile court is thoroughly aroused over the case. He said:

"This negress was merely paid as a nurse. Joe was given her as part of a studied plan to place him where he would die. It is the most heartless example of unnatural motherhood that has ever come to my attention. Slow but sure murder was the fate this woman planned for her boy."

To prevent the child from being kidnapped a heavy guard was placed over him today. The police searched the home of the Johnson woman today and found letters which confirm their belief that Joe's mother is a prominent society woman. Several valuable clues were secured and Major Sylvester announced he would place the city's entire detective force on the case, if necessary, to run them down.

## WILL TRY TO PASS IT OVER THE VETO

[UNITED PRESS LEASED WIRE.]  
Washington, Aug. 14.—After reading President Taft's steel veto message, Majority Leader Underwood demanded a vote on the passage of the bill over the veto. Congressman Mann, minority leader, objected, but Speaker Clark overruled the objection. Mann appealed from the action of the chair and a roll call was ordered.

Speaker Clark's ruling was sustained by a vote of 241 to 9, and Underwood then renewed his motion to pass the measure over the president's veto. An hour's debate on this motion was demanded and agreed to.

## ONE-ROUND HOGAN EASILY KNOCKED OUT

[UNITED PRESS LEASED WIRE.]  
San Francisco, Aug. 14.—Word was brought here today from the training camp of 'One-Round' Hogan, who is scheduled to meet Willie Ritchie in a four-round bout here Friday night, that the match may have to be called off.

Hogan, it is said, has contracted a heavy cold and his temperature is now reported to be 103 1/2. His physician advises that it would be dangerous for Hogan to attempt to fight on Friday. It is rumored that Frankie Burns may be substituted for Hogan provided he beats Danny O'Brien in Oakland tonight.

## JAPS REFUSED TO TAKE THE PLACE OF STRIKERS

[UNITED PRESS LEASED WIRE.]  
Fresno, Cal., Aug. 14.—Thirty Japanese imported from Los Angeles by the California Fruit Cannery association at Selma for the purpose of replacing the 90 employees now on strike there, quit today when they learned that a strike was on. The plant is now closed.

The Industrial Workers of the World are in charge of the strike at Selma, where the cannery employees demand an increase in wages.

## Trouble in Nicaragua

[UNITED PRESS LEASED WIRE.]  
San Juan Del Sur, N.C., Aug. 14.—Because he started a revolution when ousted from the ministry, President Diaz today refused to appoint General Mena minister of war.

It is learned here today that many were killed, including women and children, during the recent battle at Managua. Further fighting is reported imminent.

## Indian Killed on Truck

Near Rochelle, Ill., an Indian went to sleep on a railroad track and was killed by the fast express. He paid for his carelessness with his life. ## Utterly Wretched

Nervous Prostration Long Endured Before Remedy was Found.  
Miss Minerva Reminger, Upper Bern, Pa., writes: "For several years I had nervous prostration, and was utterly wretched. I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla, when I began to gain at once. Am now cured."  
Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

## RICH ORE STRUCK IN THE NEW CAMP

(High Grade News.)  
A new leasing company has been formed to work what is known as block 5 of the Sunshine High Grade Mining Company's ground, which ground was commonly called the Schuauers and Laughlin lease. The new leasing company is called "The Lucky Dutchman No. 2," after Fred L. Schrott, the original "Lucky Dutchman," and who is manager of the new company. The other gentlemen interested are W. H. Shell, formerly superintendent of the famous Strong Mine at Cripple Creek, Colorado, Mr. J. H. Miller, proprietor of the High Grade hotel at New Pine Creek and H. Hercherberger, formerly with the Moffat mining companies of Colorado. That they have great faith in the lease is evidenced by the fact that while the lease is dated August first they started four men working several days previous to that date and installed rails, ore car, etc. Many tons of slide rock have been moved and sinking will be pushed as rapidly as men and money can do it. They estimate that they have from 15 to 20 tons of float on the surface that will return a handsome profit from shipping. Grab samples have assayed from \$50 to \$240 per ton, while a considerable portion of it will run into the thousands, the gold being so liberally sprinkled over the rock that a glass is not required to ascertain its richness.

Manager Schrott is so well pleased that he is devoting all of his time to developing the ground having engaged other help to continue development on the original Lucky Dutchman lease on the Yellow Jacket property and which lease is every way proving more and more of a bonanza and sending away the skeptical with proof that this camp is on the map to stay and with practical work rich ore can be found and developed.

The work on the new lease will be watched with great interest by the mining fraternity not only here but elsewhere.

## HOP MARKET STEADIES AND PRICES ADVANCE

The decline in hop prices, which has been steady since the beginning of spring, has been checked. The market has, within the past few days, turned firm.

Whether the reversed movement is temporary or permanent cannot now be determined, but it certainly looks as if the Oregon hopgrower will get a better price for his hops than seemed probable a short time ago.

As in all other hop market changes, the movement had its start in Europe. Until a week ago prices in the European centers were sagging, but now they are swinging the other way. Cables received yesterday reported all the foreign markets stronger on the 1911 crop. In England the weather is unfavorable for the growing crop.

Estimates Not Reduced. Estimates have not been reduced, but they will be unless there is a change in the weather. In Germany crop prospects continue favorable, but in the face of this the spot market is tending upward.

The one strong factor in the market, which was bound to assert itself sooner or later, is the ridiculously small supply of old hops left in the world. Here, in Oregon, there are practically no 1911 or older hops left, and the total world's visible supply is smaller than ever before known. The dimensions of the short interest is also a factor that is beginning to be felt. It can also be shown that even the maximum yields estimated will not leave a burdensome surplus on the market after the brewers' requirements are filled. The market from now on is going to be an interesting affair, and it should be a profitable one for the grower, the merchant and the speculator alike.

## PRESIDENT VETOS THE STEEL BILL

[UNITED PRESS LEASED WIRE.]  
Washington, Aug. 14.—The veto message, vetoing the steel tariff bill this morning, said that despite statements by democrats that the bill was designed to revise the tariff on iron and steel products, only one-third of the revision applied to these products. It asserted that 59 allied industries would be directly affected by the measure.

The message also declared that the bill "makes a clear-cut issue between a protective policy and that of tariff revision only. Therefore, without further information, I am obliged to treat this measure as a revenue bill, one in which consideration of preserving the industry by maintaining the tariff necessary had little weight. There is nothing to show me that the duties provided will equal the difference in the cost of production here and abroad and that the wages of workmen will not be reduced by a measure avowedly discarding the principles of fair protection."

The president admits that some items in the schedules should be reduced. He outlines a plan of the tariff board, and declares its report justified belief in its work, adding: "The proposed bill has not been framed on a basis of any study of the steel industry. Avoicedly its rates are fixed with no consideration of anything but revenue. The principle of protection is disregarded entirely."

## Pensions Overdue

Washington, Aug. 14.—Because congress has failed to make the necessary appropriation, 180,000 war veterans are today without their quarterly pension allowances, which were due August 4. The \$15,000,000 due the veterans cannot be distributed until congress passes a new pension bill or continues the appropriation under the old bill.

### IMPORTANCE OF BEATEN IN WEST SALEM

Salem Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching begins and is usually accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 75 years. You will make no mistake in following this Salem citizen's advice.

John Conger, 845 N. Seventeenth St., Salem, Oregon, says: "Doan's Kidney Pills have been used in my family with great benefit. I also know of other people who have taken this remedy for kidney trouble with the best possible results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.
