FARMER HAS SOME IDEAS ON SUBJECT

POINTS OUT THAT THE CHILDREN OF THE GOOD ARE OFTEN BAD, AND THOSE BORN OF IMMORAL PARENTS OFTEN GOOD AS WELL AS GREAT.

For some time now we have all been interested in the articles in your splendid paper on this subject. If you will allow a common farmer to have a word, I will have my say, before the subject as well as the poor criminal is exhausted.

girl went to school from a home as pure as it could be and in school learned words which we would not utter in our home for anything and returned innocently asking their meaning. Civilized? Have we begun to be civilized? FARMER JONES.

The Free Lunch won a decided victory in Los Angeles. The city council passed an ordinance forbidding the serving of free lunches in saloons, and Los Angeles rose as one man and sent a petition to the city council, to permit the free lunch to live, to do what good it could.

Taft's position that a presidential elector on the republican ticket must vote for the man chosen by the republican convention is unassailable. Every man is entitled to think and vote as he pleases, but no man has a right to solicit votes as a candidate of one party, for the purpose of thwarting the wishes of the people who elect him.

It looks as though all great men have been freaks, accidents, unexpected.

We have done everything to the criminal except what we would want him to do to us if the thing were reversed. I wonder if the criminal is not the natural offspring of conditions which society itself brings about.

Our boy, dearer to us than life; a manly little fellow, went from us at seven, into the boasted public schools as pure as the sunbeam, and with hopes of coming greatness.

Where on earth can we send him, where he will not be ruined? Our

Why Have "Nerves"?

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages through limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases.
