

DAMAGE TO CROPS IS NOT GREAT

WHEAT, OATS AND HOPS ALL SUFFER SOME BUT FIRST REPORTS WERE MUCH EXAGGERATED—FRUIT CROP HELPED.

A canvass of the condition of the grain crop throughout the Willamette valley reveals the fact that the damage done to the oat crop by the recent rains has not been so heavy as at first estimated. This grain will not be fit for milling purposes but its value for feeding has not been materially reduced. The oat crop of the Willamette valley is of superior quality for milling purposes and when it is taken out of this class it will reduce the price which it brings in the markets. The prospect now is that all of this grain will be safely harvested without further loss, as the recent warm weather has thoroughly dried out the shocks and threshing has begun again.

The condition of the wheat crop is not so good as the oats. From one-fourth to one-third of the wheat crop was unthreshed at the time the rains began and of this portion very little will be of first-class quality. Some of it was in the stack and some of the shocks were capped, which will be of good merchantable quality, but of that standing in the shock the kernels are soft and many of them have sprouted, which will render the wheat of no value for milling purposes, but only good for feed. This loss will not be serious as there is always a large amount of wheat used for feed.

The present favorable weather is a boon to the farmers and fruit growers, who are taking advantage of it by rushing their harvesting with all possible haste.

Home by the Ocean.

Our old friend, Jones, who has made a small fortune in the nursery business, has bought him a home by the ocean. The Newport News says: "Last week Mr. T. D. Jones, of Salem, the well known nursery man purchased the Tucker property at the corner of Sixth and Huriburt streets, consisting of three lots and a dwelling house, and will make it his future home."

Writer says the trouble with the country is that it is too prosperous. Party right; some people are too prosperous.

THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for the teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden sage and sulphur, combined with other valuable remedies for dry, harsh, faded hair, dandruff, itching scalp and falling hair. After a few applications of this simple, harmless remedy, your hair will gradually be restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out, but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give you money back if you are not satisfied after using. Purchase a bottle today. You will never regret it when you realize the difference it will make in your appearance. Agent, J. C. Perry.

ESTACADA SALOONS ARE ALL CLOSED

All the saloons in Estacada were closed yesterday by the sheriff of Clackamas county, following a decision of Judge Campbell that Estacada being in a dry precinct, had no right to ignore the local option law, though its charter was supposed to be authoritative in the matter. The decision was made in the trial of Meister & Yenko, who had a licensed saloon in Estacada, but were indicted and found guilty of violating the local option law despite this. The city loses about \$3000 annually by the closing of the saloons. It is said local prohibitionists complained to the governor, who called District Attorney Tongue's attention to the matter, with the above result.

SCHOOLS WILL OPEN SEPT. 23

BOUNDARIES OF DISTRICTS ARE CHANGED BY THE ADDITIONAL SCHOOL BUILDINGS—NINETY-SEVEN TEACHERS EMPLOYED.

Professor P. J. Kuntz, superintendent of the Salem schools, announces that the educational year will open in Salem on Monday, September 23, at 9 o'clock. "It is hoped that all pupils will be prepared to enter school at that time," said the superintendent yesterday. "The compulsory education law of the state of Oregon applies to all between the ages of 9 and 15 years, and unless excused by proper authority, they must attend during the entire time the public schools are in session."

Superintendent Kuntz says that the books to be used this year will be the same as last year, and that they can be had from the book store after next Tuesday. The principals will be in their respective buildings from now on so that pupils can procure their book slips and be prepared to get books and materials before the opening of school.

A SONNET.

(Thoughts on the death of Postmaster C. B. Merrick.)
Our guide, our friend, our Merrick we have lost,
And dismal is the void he left behind;
And many a time in future we will find
It was a pleasure by him to be bossed.
Of this just citizen, who is no more;
That he may waken on a brighter shore.
We pray with fervent hope and silent tear.
His memory we always will keep green;
What he has done can never be forgot;
As true a man as ever there was seen
Of splendid reputation, without blot;
Oh, might he still with us enjoy life's scene!
But, since this cannot be, forget him not!

Montavilla, Or. Carrier No. 54.

DON'T BLAME YOUR OVERWORKED STOMACH

When your stomach will not digest food, the worst thing you can do is to take a lot of digestive medicines. True, they give temporary relief, but your stomach is the sufferer. Loss of appetite, indigestion, dyspepsia and headaches can only be permanently relieved by removing the cause. In many cases, various remedies taken to relieve these conditions result in ruining the stomach and preventing it from digesting food in a natural way.

If you want your stomach to do its own work properly, without resorting to artificial digestives or pre-digested foods, use Jayne's Tonic Vermifuge. Take small doses regularly, preferably before meals. In a little time your stomach will again do its own work and you will eat heartily, keep well and enjoy living. Jayne's Tonic Vermifuge is not a digester in itself, but it tones up the stomach and intestines, giving you all the nutriment and strength from the food you eat.

Many forms of supposed indigestion are the result of intestinal parasites for which Jayne's Tonic Vermifuge is unsurpassed. Insist on Jayne's; accept no other. Millions have praised it for more than 80 years. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia.
