BINGHAM
STRIKERS
ARE QUIETNOTHING NEW DEVELOPED IN
LAST 24 HOURS—STRIKERS ARE
FIRM, BUT TROOPS WILL BE
CALLED OUT ONLY AS LAST RE-
SORT.

[UNITED PRESS LEASED WIRE.]

Salt Lake City, Utah, Sept. 21.—Fearing that entrance of militia into Bingham, Utah, where nearly 6000 workmen are on strike for higher wages at the mines of the Utah Copper company, would precipitate trouble, Governor Spry, Adjutant-General Edgewood, Sheriff Sharp and officials of the copper company conferred here today on the situation, and decided that troops would be used only as a last resort. Sheriff Sharp was given the responsibility of preserving the peace. He has today 300 armed deputies on guard in Bingham, and so far there has been no serious clash.

Twenty-five strike-breakers were taken secretly into Bingham today. All the saloons were closed. This morning the sheriff's deputies entered the workings of the mines without molestation from the workers' pickets, who are entrenched on the mountain side, the latter evidently being prepared to keep a promise made to Governor Spry that they would not start shooting.

In addition to the 300 deputies at Bingham, 150 of Sheriff Sharp's men are camped today at Barney, six miles from Bingham, to preserve order there.

One hundred more sheriff's deputies were sent from here to Bingham.

May Break Up Ring.

San Francisco, Sept. 21.—Three Chinese girls rescued here by police detectives by hacking down a steel barricade door of a secret hiding place, are today held at Angel island by the federal authorities.

The arrests were spectacular and important as well, for it is believed that they may prove instrumental in breaking up a Chinese smuggling ring which has been importing young girls into this country and placing them in disreputable resorts.

at noon. The strikers refuse to surrender their arms, and the tension is increasing.

E. C. Gemmell, assistant to General Manager Jackling, of the Utah Copper company, is in charge at Bingham. Jackling himself will go there this afternoon to confer with the company officials and the sheriff's deputies, and to perfect plans for the protection of strike-breakers, to be sent into the camp by hundreds.

The Greek section men of the Denver & Rio Grande railroad refused today to strike in sympathy with the Bingham miners.

A Late Dispatch.

Salt Lake City, Utah, Sept. 21.—Determined to prevent the importation of strike-breakers to crush the strike of 6000 men against the Utah Copper company, the strikers this afternoon barricaded the tracks of the Denver & Rio Grande railroad near Bingham, and, hidden in their fortifications on the mountain side, kept up a steady fire to prevent the removal of the obstruction.

Fearing to enter the zone in which bullets are flying, the deputies of Sheriff Sharp are making no move. The situation is regarded as more critical this afternoon than at any time since the strike began.

MARINES
MARCH TO
GRANADAREAR-ADMIRAL SUTHERLAND AT
THE HEAD OF 1000 AMERICAN
MARINES TAKES POSSESSION OF
THE CITY.

[UNITED PRESS LEASED WIRE.]

Managua, Nic., Sept. 21.—After battling his way through hordes of rebels under General Mena, besieging the city of Granada, who had threatened to sack the town if it should fall into their hands, Rear-Admiral Sutherland, with 1000 marines has reached Granada, and placed his men in control, according to advices received here today. The populace was found on the verge of starvation.

Admiral Sutherland received positive orders to relieve the town at any cost, owing to the pressing appeals of relatives of Americans and others besieged there.

To keep in touch with the American forces at Corinto and here, Admiral Sutherland plans to seize some of the lakes and rivers, and send his dispatches by way of rivers and then overland to San Juan Del Sur. While enroute to Granada American marines were fired upon at Masaya, and three men of Major Butler's command were wounded.

SENTIMENT
UNANIMOUS
AGAINST ITPROPERTY OWNERS ON MARION
STREET OBJECT TO PAVING
THIS YEAR—STREET COMMITTEE
WILL RECOMMEND DELAY-
ING THE WORK.

Claiming that they had already been assessed too heavy, the property owners gathered at the city hall last night to consider the proposed improvement of Marion street, and by unanimous vote voiced their sentiments against the improvement. The attendance was large, and Councilman Lafky was chairman of the meeting. Councilmen Warring and Constance were present to listen to the discussions, but took no part in them. W. T. Slater and S. A. Manning championed the cause of paving, but were willing, and thought it proper, that the improvement should not be undertaken this winter, but should be started the first thing next spring. All others who spoke opposed the pavement, John W. Hunt and F. Welch becoming quite bitter in their denunciation of the actions of Chairman Lafky in trying, as they said, to force the improvement onto them, in spite of the fact that the sentiment along the street was almost unanimously against it. To this Chairman Lafky made reply that it was not his policy to try to force improvements where they were not desired by those affected. He cited his past actions while serving as chairman of the street committee in which the amount of improvements had been much less than formerly, as a proof of the assertion.

Early in the meeting W. A. Moore, representing the Moore estate, introduced a resolution, which he asked to have voted on, which asked the city council to reject all bids submitted for the improvement of this street, and that it rescind its former action, declaring it to be the intention to pave the street. After a good deal of objection by Chairman Lafky to submitting it to a vote, Mr. Moore finally succeeded in securing a rising vote, which showed it carried unanimously.

Mr. Lafky then stated that, as chairman of the street committee, he would report to the council that further action on the matter be indefinitely postponed, and that former action be rescinded.

BECAUSE
THE SPIRIT
MOVED HERSERVANT GIRL IMBIBED TOO
MUCH PUNCH AND ATTACKS
MISTRESS, TEARING HER \$300
GOWN TO SHREDS.

San Francisco, Sept. 21.—After a furious battle with a crazed servant named May Morton, Mrs. Walker C. Graves, wife of a prominent attorney, is confined to her apartment here today with blackened eyes and dozens of bruises and cuts about her neck and face.

The attack came without warning while Mrs. Graves was in a bedroom, having a dress unhooked by a Mrs. Williams of Berkeley. Mrs. Graves had given a card party and reception to 100 women friends, all of whom had gone when the girl, May Morton, rushed into the room and struck her mistress to the floor.

Then, apparently bereft of her senses, the girl tore Mrs. Graves' \$300 gown from her back, ripping it into shreds. The girl clawed and scratched and screamed like a maniac until Mrs. Graves finally sought shelter behind a locked door.

Neighbors hearing the commotion, then came to the rescue. Over indulgence in the punch which was served the guests at the reception is believed to have been the cause of the girl's act.

CHARLES W. CLAGGETT

DIES FROM INJURIES

Charles W. Claggett, the young man who was seriously injured last Sunday at his farm a short distance west of Chemawa, by the sweep of the hop baler striking one of his legs and breaking it, died at the hospital this morning at 8:05. He was brought to the hospital immediately after the accident, where he has lain in an unconscious condition ever since. His ailment took the form of fat embolism, and affliction of the brain, caused by the blood taking up the marrow of a bone broken, and depositing it in the brain. This accounts for the unconsciousness. The physician attending the unfortunate young man says that cases of this kind are very rare, this one being the first to come under his observation in 20 years' practice.

The deceased was 38 years of age, and leaves, besides a wife, three children between the ages of 16 months and nine years. The body is at the Rigdon-Richardson undertaking establishment, and on account of some relatives to be heard from in California and elsewhere, the time for the funeral cannot be set now, but will be announced later.

Must Stand Trial.

James Brown, colored, who murdered his wife in Los Angeles a year and a half ago, must return and stand trial, for Governor West today honored a requisition issued by the governor of California. Brown is now under arrest in Portland. After murdering his wife, he feigned insanity, and was committed to an asylum, from which he escaped. When arrested in Portland he was working as a porter for a railroad company.

To Heat the Wexford.

Not to be outdone in any of its appointments, the management of the Wexford theatre has just installed an automatic heating and ventilating system in this popular theatre. The system is hot water, and will regulate itself every three minutes automatically, so that during the coming winter the heat will be well regulated, and perfect ventilation is assured.

A Fine Ball Park.

San Francisco, Sept. 21.—That a magnificent new Pacific Coast League park will be given San Francisco at Mission, Valencia and Army streets was the announcement here today following the statement issued by Cal Ewing, president of the San Francisco ball club that he had taken an option on the property. The plans include an expenditure of from \$250,000 to \$300,000 in building the appendances which will include a concrete grand stand.

FIRE DEPARTMENT

SAVES PRUNE DRIER

At 6:45 this morning the fire department responded to a call from the farm of James Winstanley just north of the city. The prune drier had caught fire and was in great danger of being destroyed as well as a large amount of dried prunes which were stored there. Within five minutes after the call was sent in the combination chemical was throwing water on the flames, which had gained considerable headway, with the result that the entire building and contents were saved.

The loss was a few hundred dollars, fully covered by insurance, but for a time it looked as if the building and contents would be a total loss, but the run of 3-3 miles was made in five minutes, which put the fire boys on the ground in time to save valuable property.

ROUGHLY HANDLED.

[UNITED PRESS LEASED WIRE.]

Cardiff, Wales, Sept. 21.—Suffragette disturbers who interrupted Chancellor Lloyd George today, while he was opening an institute he had presented to his native village of Llanystumdwy, got such a reception from the chancellor's Welsh admirers as materially dampened their ardor.

When the suffragettes repeatedly broke in on Lloyd George's speech the crowd threw the disturbers bodily into an adjacent field. Reinforced the suffragettes attacked again and partly demolished Lord Hamilton's automobile. This enraged the throng of hearers, who rushed the suffragettes and hustled them about roughly. Several of the women were trampled on in the melee, and some received painful injuries.
