

Struck on the Head by a Limb

A MAN NAMED GILES WAS PERHAPS FATALLY INJURED LAST NIGHT AT LIVESLEY FARM BY FALLING LIMB STRIKING HIM.

A man by the name of Giles is lying in a delirious condition at the Willamette sanatorium as a result of a limb from a tree falling and striking him on the head, just above the eye, at the Lakebrook farm of T. A. Livesley & Co., last evening about 5 o'clock. Dr. Miles was called and hurried to the farm, which is about eight miles north of the city, where he found the man in a semi-conscious condition. Since being brought to the hospital his condition has not improved, and those in attendance upon him believe that his skull is fractured. The extent of his injuries cannot be learned for several days, but his condition is being closely watched by the attending physician.

Inquiry of the owners of the farm failed to bring any information as to who the man is, further than above related.

The man who shot Roosevelt is simply crazy, and so were Guitau and Czolgasz.

Pleased With Trip to the East

Sam O. Burkhardt and Chas. F. Elgin who left Salem September 30 in company with a number of other persons in charge of a number of patients from the asylum who were deported to their native country, have returned from their trip east, which in Mr. Elgin's case extended as far east as Boston. Mr. Burkhardt made a side trip to Montreal. Both of the gentlemen are well pleased with their trip and say that it is worth any one's while to make such a one. These gentlemen saw many of the large cities of the east, including Denver, St. Louis, Chicago, Cleveland, Baltimore, New York, Boston and Montreal. The trip was made over what is known as the Nickel Plate route. They passed through Rawlins, Wyoming, the day the convicts lynched the man who had assaulted a woman who had befriended him, and who had been placed in the penitentiary to protect him from the populace of the community. While passing over the Tennessee pass in Colorado and old man died of heart failure. This is a frequent occurrence at this point, which is over 10,000 feet in altitude.

At Washington D. C., they spent some time looking over the city and are loud in their praises of the beauty and attractiveness of the capital. At New York the elevated railroads and subway roads were a revelation as well as the residences on Fifth avenue and Broadway, where they look like so many store buildings coming out to the sidewalks. At one place in New York four lines of railroad are in operation, one elevated, one on a level with the street, one subway and still another beneath that.

Both enjoyed the trip very much but both are equally glad to be back in good old Salem.

MUSICAL NOTES

(Continued from Page 3.)

as the ear, and creating an atmosphere for the charming program she presents.

William Edward Chamberlain, baritone, will be the assisting artist. A list of patronesses contains the names of many of Salem's best musicians and representative women.

Salem is rapidly becoming a critical musical community and this year has taken an initial movement for the best of concert work. Announcement is made of completed arrangement with David Bispham, whose perfect baritone voice is recognized the country over, and also of Carrie Jacobs Bond, song composer of renown, who will be presented in recital later in the season. These names will bring to music lovers a pleasant anticipation.

Special music was arranged for the celebration of Rally Day in First Congregational Church last Sunday.

At morning and evening services Mrs. Viola Vercler-Holman played violin solos most beautifully. Miss Shelton accompanied with organ. Miss Helen Mack of Los Angeles sang "Abide With Me," by Liddle, for the morning service. Her sweet voice was followed by piano, organ and violin; and Mrs. Lois Peckles-Junk of Berkeley, California, sang "Beyond the Gates of Paradise," by King, in splendid voice.

A little drama on the life of Joseph was given in place of the evening service, by girls and boys of the Bible school.

Miss Priscilla Fleming, Mary Elizabeth Bayne, Amelia Babcock, Grace Farrar, Josephine Broff, Edward Clark, Bruce Richmond, William Mobney, John Mull, Nichol McGlechrist, Albert Bayne, Frederick Farrar, Wilnot and Gordon Moll.

Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood; just as impossible as it is for the grate of a stove to rid itself of cinders. The waste does to us exactly what the cinders do to the stove; make the fires burn low until enough cinders have accumulated and then prevent its burning at all. Your liver is sluggish—you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alterative extract made from bloodroot, golden seal and mandrake root, stone and queen's root, without the use of alcohol. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

Mrs. BENJ. BLAKE, of Port Dover, Ont., Box 36, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female trouble, bloating, constipation and nervousness—at times I would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The Fossil's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.
