ABSOLUTE CURE FOR CONSUMPTION DISCOVERED

Greatest Medical Discovery

Berlin Physician Discovers Certain Cure for Consumption that Performs This Miracle in a Few Weeks

Great Christmas Gift.
 Discovery--A serum, one injection of which kills every tubercle germ in the victim's body and immunizes against the disease.

Discoverer--Dr. Friedrich Franz Friedman, of Berlin, physician and author.

Beneficiaries--Every sufferer in the world from the "white plague."

Cures to date--More than 1000 patients. Every patient treated cured except those in the last stages of the disease. Many victims whose members had rotted away made whole within a few weeks.

Cost of treatment--Very small. Cultures for more than a dozen treatments can be prepared for less than \$1.

Supply of serum--Enough already on hand to treat every tuberculous patient in the world. The serum, obtained from the turtle, multiplies so rapidly that one small vial sent from Berlin will supply enough for all America.

Credibility of discovery--Leading German physicians accept cure as positive. Trained American newspaperman interviews patients and goes on record that he cannot help but believe that discovery is the greatest Christmas gift to the world since Christ came to earth.

A Cure and Preventive.

Berlin, Dec. 2.--Complete and absolute cure for every victim of tuberculosis unless he is in the very last stages of the "white plague" is the Christmas gift to the world announced here today by Dr. Friedrich Franz Friedman, a young German physician, who claims to have 1000 cures ready to display to the scientists of the world.

By only the simple injection of a serum gained from the turtle, Dr. Friedman says, he has immediately killed every tubercle in every subject so far treated, and maintains that every single case in which the injection was made has resulted in a cure save only those whose vitality was so far gone as to leave physical recovery an impossibility.

Two weeks ago Dr. Friedman astounded German savants by declaring in a public conference that he had been successfully treating tuberculosis for two years. Many of those present admit that Friedman has conquered the scourge and several German hospitals are already turning over their cases to him.

Realizing the immensity of the news to the world at large, the Nupenter Frize Association representative in Berlin, W. G. Shepherd, at once investigated.

Enough for the World.

"My treatment is very simple," Dr. Friedman told Mr. Shepherd. "One injection of the serum usually drives all signs of tuberculosis from the system. I have lived in a world of astonishment for more than a year. I have seen men, women and children who were doomed to death made perfectly whole again in the space of a few weeks. But the greatest wonder to me is that the serum immunizes against tuberculosis like vaccination against smallpox."

"Do you vaccinate as in smallpox?" the physician was asked.

"No, I only give an injection with a syringe of the same serum that I use for patients. A slight local swelling follows, but no running sore. I have

Strike at Eugene.

Eugene, Or., Dec. 2.--Following a cut in their wages from \$2.50 to \$2 for a ten-hour day, several employes in the construction department of the Portland, Eugene & Eastern railway are today out on strike. The strike was called by J. F. Morgan, financial secretary of the L. W. W. The men want \$2.50 for a nine-hour day. The strike may reach formidable proportions.

produced enough of the culture to supply the world for all time, for the germs multiply very rapidly. I have treated more than 1000 cases and have not lost one except in instances where the vitality was so low that nothing could save the patient. Of course, the cure does not restore lost lungs or tissues. It only kills tubercle germs wherever it encounters them."

Answering queries as to when he would send his serum to the United States and as to its cost, Dr. Friedman said that representatives of several American interests are en route to Berlin and that the question of American rights will not be settled until they arrive. He said the treatment would be inexpensive and that doses would cost less than \$1 a dozen to manufacturer.

Cure Is Immediate.

The speed of the cure, according to Dr. Friedman, is remarkable. "It takes only a few weeks at most," he said, "to cure the average case of pulmonary tuberculosis. The serum seems to kill all the tubercle germs within the body in a very short space of time. Hemorrhages cease, wounds in the lungs heal, fever disappears. The patients immediately regain their appetites and nature begins building up again what the germs have destroyed. I give no diet or other treatment. The only thing I do is to inject the serum with a small syringe into the buttock or the arm."

Reporting his interview with Dr. Friedman, Mr. Shepherd, who is a trained newspaperman, well able to detect frauds and quacks, goes flatly on record as believing that Dr. Friedman's discovery is the greatest boon in medicine the world has known.

Cures Are Miraculous.

"I saw and conversed with many patients," says Shepherd. "I saw a boy, entirely cured, whose leg had rotted away almost to the hip. I saw men who had hemorrhages, nights sweats fever and had been in hospitals, who had been cured within a few weeks and had returned to work after only one injection. I saw a girl who was born tuberculous and whose hand had rotted away during 18 years, who was cured by one treatment in four weeks. I saw clean-healed scars on hands, on arms and necks and bodies of children where once had been terrible and supposedly incurable tuberculosis sores. These patients and many more told me of their marvelous stories. Any one who has seen what I have seen here must be convinced that Dr. Friedman has given the world the happiest Christmas--except one--that the world has ever known."

WILL MEET TO DISCUSS HOG CHOLERA EPIDEMIC

It is probable that in a few days L. J. Chapin, farm management expert in Salem, will issue a call for a meeting for the discussion of hog cholera, to be held in Salem.

Hog cholera has become prevalent in counties adjoining Marion, and the question is considered momentous by hog raisers in the valley. State Veterinarian J. P. Morel has informed Mr. Chapin that he will address a meeting of stockmen interested at any time such a meeting is called here, and if the stockmen meet Mr. Morel will be the chief speaker for the occasion. Methods for the prevention of the disease will be the chief topic for discussion.

Skipped from the Pen.

With only a month of his minimum sentence unserved, Robert Sullivan, trusty barber at the state prison, early this morning escaped from the prison, and the officials have no clue to his whereabouts.

Sullivan was sent to the pen about a year ago from Clatsop county. His offense was attempted rape. Superintendent Lawson said this morning that he hopes to have the man back in the prison within a few days.

Congress Again in Session

Gavels Fall at Noon--Many Big Ones Will be Missing from Both Houses When This Session Is Ended

Washington, Dec. 2.--When Speaker Champ Clark, of the house of representatives, and Senator Bacon, president pro tem of the senate, sounded their gavels at noon today, it marked the beginning of the second session of the 62d congress. Immediately after convening, the senate adjourned, out of respect to the memory of the late Vice-President Sherman and Senators Heyburn, of Idaho, and Rayner, of Maryland, who died during the recess. The passage of the annual supply bills probably will be the most important task to come before this congress. Then the senate must dispose of the Archibald impeachment case.

Many Big Ones Out.

With the end of the 62d congress, many prominent members, mostly Republicans, will be retired, having been defeated in the last election. The retiring members of the house are "Uncle" Joe Cannon, Illinois; William A. Rostenberg, Illinois; N. B. Thistlewood, Illinois; Nicholas Longworth, Ohio; John Dalzell, Pennsylvania; E. D. Crumpacker, Indiana; William B. McKinley, Illinois; E. J. Hill, Connecticut; C. A. Sulloway, New Hampshire; G. W. Prince, Illinois; H. O. Young, Michigan; J. Q. Tilson, Connecticut; P. D. Currier, New Hampshire; W. B. Wilson, Pennsylvania; Congressman John Lamb, of Virginia, was the only prominent Democrat defeated.

Changes in the Senate.

Among the retiring senators are: Henry E. Burnham, New Hampshire; W. Murray Crane, Massachusetts; Simon Guggenheim, Colorado; Jonathan Bourne, Oregon; Norris Brown, Nebraska; J. M. Dixon, Montana; H. A. Richardson, Delaware; Robert J. Gamble, South Dakota; Shelby M. Cullom, Illinois; F. O. Briggs, New Jersey; J. W. Bailey, Texas; M. J. Foster, Louisiana; T. H. Paynter, Kentucky; and C. W. Watson, West Virginia.

Senator Ellhu Root, of New York, announced in the senate the death of Vice-President Sherman and Senators Heyburn and Rayner. After adopting resolutions of sympathy, the senate adjourned at 12:42 p. m.

The session of the house was perfunctory. Committees were appointed to notify the president that the house and senate were ready for business, and after this the house adjourned at 1:10 p. m., out of respect to the memory of deceased members.

President Notified.

The galleries of both houses were jammed. The desks in the house were loaded with flowers, bouquets being barred from the senate floor.

Sixty-six senators were present when Senator Bacon called the senate to order. Senator Jones, of Washington, it was announced by Senator Works, of California, was unable to be present for unavoidable reasons.

Senators Cullom, of Illinois, and Martin, of Virginia, were named to act with the house committee to notify the president that congress was ready to receive his message. A motion presented by Senator Lodge, of Massachusetts, that the senate meet each day at 11 a. m., was adopted.

SALEM IS DRY, BUT ONLY FOR THE DAY

Those regular customers were again disappointed this morning when they ambled up to the front doors of the Salem drinking emporiums and attempted to enter for their "wee nip." Every opening was locked and bolted on account of the election being held today and nary a drop was in evidence.

Says He Kidnaped Her.

Portland, Or., Dec. 2.--The kidnaping of his ex-wife to avoid the payment of \$50 a month alimony is the charge which is today placed against Ben D. Holman by H. P. Taylor, father of the missing woman. The divorce was granted the woman three weeks ago after Holman had been twice arrested on the charge of beating and choking her.

New Club Growing Rapidly

The new Commercial Club is rapidly getting into shape. Already a long list of names, the leading men of the city, has been secured, and there is a healthy and steady addition to the number every day. It is desired though that there should be at least 500 members, and it begins to look as though this number would be secured without any great effort. It is desired, however, to get the club on its feet, and in working order just as quickly as it can be done, and to accomplish this those already joined are urged to carry on the good work, by each calling their friends' attention to it.

A live commercial club, with the whole city behind it, is of the utmost importance, and every now organizing wishes to have every hustling wide-awake citizen as a member.

If you have not already signed, do so at once. Put your shoulder to the wheel and help make Salem what she is destined to be, the best and biggest inland city in the Northwest.

The Women Get Busy and Vote

From every indication up to 2 o'clock this afternoon, the women will have so far cast a larger number of votes in the different wards than the men. In several instances, the women's vote was nearly twice as large as that of the men. It is evident, however, that the ladies remained at home this morning and completed the household duties before casting their votes, as but a few ballots were called for before 10 o'clock. It is also noticeable that customary calling time and visiting, the ladies are swarming the polling places this afternoon and poor men is having a hard time to cast his vote. No preference is being shown the ladies, however, by the judges, and every voter must accept his or her turn.

In Ward No. 7, Mrs. Amney Davidson cast the first vote. Mr. Davidson dropped her ballot in the box about four minutes after 8 o'clock when the polls opened. For the first time in the history of this ward also, two lady clerks are ruling over the register books. Minnie DeLong Wells officiates as first clerk, while Mrs. Amney Davidson is acting as second clerk. Oliver Joy, a meek male judge, paid some fine compliments to the lady officials this afternoon, saying they were very efficient in their work and as a whole made better clerks than the men.

In ward 2 Mrs. Ross Moore has the distinction of being the first woman voter. Mrs. Moore cast her vote a few minutes after the polls opened also. The women in this ward are voting equally as strong as the men, possibly outnumbering the male vote up to 2 o'clock this afternoon.

A. E. Smith claims the honor of casting the first woman's vote in Ward 3. About one-third of the votes cast in the ward were women, and the officials of the polls declare they expect a larger number this afternoon.

In No. 7 Mrs. Emma Welch honored the Woman's Suffrage cause with the first vote in that ward. Mrs. Welch

Conferred Red Hat on Cardinals

Rome, Dec. 2.--A public consistory of the sacred college, Pope Pius X, today conferred the Red Hat on the last five of the 18 cardinals created a year ago and who as yet had not received this final insignia of their rank as princes of the church.

Besides conferring the red hat on five cardinals, the pope elevated Archbishop Carlo Del Horno, of Veszprém, Hungary, to be a cardinal.

The five included three Spanish cardinals and two Austrians what the time of their elevation to the sacred college, November 27, 1911, instead of coming to Rome to receive the red berretto and to the red hat at the hands of the pope, had the former conferred by the king of Spain and the emperor of Austria, respectively and then awaited the summons of Pope Pius before coming for the latter. The five were:

Giuseppe Maria de Cos y Macho, archbishop of Valladolid.

Antonio Vico, apostolic nunzio to the court of Madrid.

Francisco Bauer, archbishop of Olmutz.

Francisco Nagl, archbishop of Vienna.

Enrie Alvarez Y Santos, archbishop of Seville.

Until the last moment it had also been expected that the pope would announce the consistory the elevation to the sacred college of Monsignor Mendez Bello, primate of Lisbon, what at last fall's consistory was created a cardinal "in pectore." To have announced his elevation at this time, however, would have necessitated his recall from Lisbon, and Pope Pius is believed to have preferred that he should remain at his post until the present conflict between the church and state in Portugal becomes more settled.

A Scene of Splendor.

The ceremony was carried out in the consistorial hall of the Vatican with all the pomp and pageantry that has marked the papal functions for centuries past.

The three sisters and niece of the pope, dressed in the simple black of their peasant costumes, were given a special tribune, at the orders of his holiness, next to that of the Roman nobility.

Proceeding the public consistory the five new cardinals met in the Sistine chapel, and in the presence of Pope Pius and other dignitaries of the church took the oath as princes of the holy Roman Catholic church.

Immediately afterward the papal cortège was formed and the procession began in the consistorial hall for the public ceremony of conferring the red hat.

Pope Pius was borne into the consistorial hall, shoulder high on the "sedia gestatoria." His entrance was greeted with a burst of music from the famous Sistine choir and his holiness bestowed the pontifical blessing upon those whom he passed.

Following the seating of the pope in the throne chair, the old members of the sacred college, all in the full emblem of their rank, seated themselves. With the opening of the ceremony, each of the old cardinals approached the pontifical throne, kissing the ring of St. Peter which his holiness wore and being in turn saluted by the pope. Following this, the five new cardinals entered from the Sistine chapel, approached the throne, kissed first the foot of his holiness, then his hand and in return received the pontifical salute.

Then actual imposing of the red hat occurred, the same hat being used for all five. As each of the new cardinals knelt at the feet of his holiness the latter placed the hat for a brief mo-

Conferred Red Hat on Cardinals

Pope Pius X Today Conferred the Red Hat on the Last Five of 18 Cardinals Created a Year Ago

ment upon their heads, and repeated in Latin the formula of investiture.

Sixty-One Cardinals Now.

With the imposing of the hat for the last time a final embrace of his holiness by all the cardinals, both old and new, took place, the pope remounted the gestatorial chair, the papal cortège reformed and the pope, still bestowing the apostolic blessing, was escorted from the throne room bringing the public ceremony to a close.

Immediately afterward, however, another secret consistory of the sacred college was held, at which Pope Pius performed the ceremony of "opening the mouths" of the five new cardinals, thus giving them full power to participate in all of the councils of the sacred college.

The final elevation of these five cardinals brings the membership of the college to 61, not including Monsignor Mendes Bello, of Lisbon. Since the creation of 18 new cardinals by Pope Pius a year ago, three members of the sacred college--Cardinal Fisher of Cologne, Cardinal Sannassera of Austria and Cardinal Coelle of France--have died, leaving the present formation of the sacred college with 34 Italian cardinals and 27 foreigners.

MARSHFIELD COMPLAINS OF WATER SERVICE

The first formal complaint to be filed under the public utilities provision was filed today in the office of the state railroad commission by the city of Marshfield against the Coos Bay Water Co.

The plaintiff charges that the water furnished the city is un sanitary and that the system is inadequate to serve the city, either for domestic purposes or fire protection. A hearing is asked for in the immediate future.

Ship on the Rocks.

San Francisco, Dec. 2.--The Chilean ship County of Llanth-gow, carrying a crew of 25 men, is on the rocks off Otter Point on the west coast of Vancouver Island, according to a dispatch received here this afternoon by the marine exchange. The big boat ran aground during the night and it is said little hope is entertained of saving either the crew or the ship.

Places a Mortgage on Plant

Salem Water Co. Gives Trust Deed for It's Entire Property for Consideration of \$330,000--People Guessing

Carrying with it an appearance of a transfer of property, a "trust deed" conveying to the Continental and Commercial Trust and Savings Bank of Chicago, a mortgage in effect which covers practically the entire valuation of the plant of the Salem Water company has been filed with the county recorder.

That there is something of vast importance appertaining to this transaction is the belief of many conversant with the local water situation as it stands today. It is stipulated in the deed that in consideration of the mortgage accepted by the eastern trust company, the Salem Water company is to resolve a loan aggregating \$330,000. It is further stipulated in the articles that the water company is to issue bonds in the sum of a like amount, to be delivered to the purchaser at \$1000 each and interest involved will be at 5 per cent. In consideration of the original mortgage, the water company is to include in its obligations to the trust company an old mortgage unpaid amounting to \$45,000,000, which was given in the year 1892. According to the documents now on file, the entire obligations now borne by the Salem Water company totals \$375,000.

Includes All the Property.

Mentioned in the trust deed as security is every piece of property, both personal and real, possessed by the water company, together with all machinery, buildings, lands and franchises.

Speculations are running rife as to

(Continued on page 4.)

You Don't Buy Clothes for a Dummy.
You Buy Them for Yourself....

And there is a difference. For clothes can be fixed up to look very fine on dummies in the window--and yet be mighty poor clothes. It is the INHIBIT of clothes that are the important part--just as it is what is inside a watch or inside a man that makes the watch or the man good for anything. In those new clothes for men that splendidly fit our stars you will find the quality, as well as the outside RIGHT.

The clothes are of good fabric. They are distinctive and handsome in style and appearance--and they are made at any price. And each suit and coat was put together with the honest, skillful and thorough work of master tailors. This means an investment of long and satisfactory wear. Men who want to get the most out of their clothes are very generally finding that this will be true, if they invest in us.

Bishop's Ready-Tailored Suit
\$12.50 to \$25.00

How about your overcoat or raincoat?

OVERCOATS, \$10.00 to \$25.00
RAINCOATS, \$4.50 to \$25.00

See our display of winter underwear in window. It's the real goods. Stop in and feel them.
