

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of **Chas. H. Fletcher** and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Women Will Have to Wait for Shirt Waists

New York, Jan. 16.—Thousands of women may have to wait for their spring shirtwaists, manufacturers say unless nearly 40,000 shirtwaist makers who struck yesterday are quickly brought to terms. The strikers chose a time just before the beginning of the spring rush, when the supply of waists on hand was limited. To meet this emergency, the employers say, they are prepared to send their work to Cleveland, where shirtwaists also are manufactured on a large scale. The strikers reply to this was a threat to call a general strike that would tie up work in Cleveland and other manufacturing centers.

Leaders of the United Garment Workers of America said today that 25 per cent of their members had returned their work because the manufacturers had accepted their terms. Fifty thousand flaming red posters, distributed among the girls in 500 dress and shirt waist factories today were the influence that turned the now accessions into the ranks of the strikers in the garment-making trades, now numbering nearly 200,000. The posters were the official call for a strike among the dress and waist makers who had previously sanctioned such action by an overwhelming vote. All of these employes are girls some of them under 14 years old and their organizations have appointed committees to guard the idle workers against agents of the white slave trade.

The first demand of the dress and waist makers is "no locked doors." They declare that the lesson taught by the Asch building fire, in which 147 girls lost their lives, has not been heeded, and that they are forced to work in unsafe and unsanitary shops. Police reserves were summoned to many sections of the city tonight to break up street fights between working operatives and strikers or sympathizers. More than 30 persons, a majority of them women, were arrested.

TILLAMOOK WENT WET MANY WOMEN VOTING

Tillamook, Or., Jan. 16.—Tillamook will remain wet. The proposed charter amendment, submitted Tuesday, which would make the sale of liquor within the city illegal was defeated, 420 to 246.

Several hundred women voted. The total number of ballots, 687, is larger than the vote cast at the mayoralty election a month ago.

Whether the "prohibs" will make another attempt to prohibit liquor is uncertain. City Attorney Botts contends that the section of the local option law which provides that when a district has voted wet, no election shall be held for a year is not effective.

Special editions of both newspapers were issued yesterday, and a parade of the school children shouting prohibition phrases came to an inglorious end when saloonmen threw coins and fruit among the children to induce them to shout for a "wet" city.

Storm Warnings Are Out

Portland, Or., Jan. 16.—Southeast storm warnings were ordered displayed at all stations yesterday except Marshfield, where the warning was for southwest weather, and weather bureau officials said that the barometer was unusually low while one or two warners said it was the lowest they remembered in several years. The storm was reported approaching the Washington coast, moving eastward with increasing south to west winds, shifting to the southwest.

The 5 o'clock report of the condition of the Columbia river bar yesterday afternoon gave the velocity of the wind as 18 miles from the west. Deep draft vessels passed in and out of the river and no trouble was experienced. Reports received last evening by Dis-

This Home-Made Cough Syrup Will Surprise You

Stops Even Whooping Cough Quickly. A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly, and will usually cure the most stubborn case in 24 hours. This recipe makes a pint—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir 2 minutes. Put 2 1/2 ounces of Pinex (five cents' worth) in a pint bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

You probably know the medical value of pine in treating asthma, bronchitis and other throat troubles, sore lungs, etc. There is nothing better. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

strict Forecaster Bens were that the greatest velocity attained by the wind at North Head was 60 m.p.h., but that was previous to 5 o'clock. Wires to Tatoosh were down. The storm was general and warmer conditions were noticed.

Morgan's Case Now Before the Supreme Court

Bob Morgan, sentenced to be hanged today, at the last moment got a continued lease of life. Yesterday his attorneys perfected an appeal and this court as a stay of proceedings until the supreme court has passed upon his case. It was thought yesterday the governor would grant a reprieve until February 14, at which time Spanos and Seymour are to be hanged for the killing of George Dedaskalos at Medford. Whatever the decision of the supreme court may be, it is not at all probable that Morgan will pay the extreme penalty of the law, his youth being only 18 years old, being in his favor, for the American sentiment, even of the most rabid advocates of capital punishment, is against the hanging of women or children.

Millionaire Corey's Wife Has Night out

[UNITED PRESS LEASED WIRE.]
New York, Jan. 16.—Mrs. William Corey, wife of the steel magnate, and formerly Mabelle Gilman, the actress, went direct from the ballroom at Sherry's to the steamer La Providence today and retired. There was good reason for her non-appearance on deck when the steamer sailed this forenoon, for in company with several hundred members of New York's smartest set, she had danced until breakfast time.

The "party" was the gayest and giddiest given at Sherry's this season. There was little on the program but the "turkey trot" and the "tango."

Mrs. Corey's dancing earned her the applause of the assemblage and cries of "bravo" and "encore" were showered upon her. At 4 o'clock Mrs. Corey said she could not dance much longer as she was going abroad for her health.

Will Examine Rockefeller at His Pleasure

[UNITED PRESS LEASED WIRE.]
Washington, Jan. 16.—Jacob H. Schiff, head of Kuhn, Loeb & Co., the powerful New York banking and brokerage house, was scheduled as the first witness before the committee this morning. How the Morgan firm has operated through the Schiff company, Speyer & Co., and other security-selling concerns, was the specific object of today's questioning.

Telegrams were exchanged today between Chairman Pujo, Undermeyer and Attorneys for William Rockefeller, of the Standard Oil company. In an effort to learn where and when Rockefeller can be examined by the committee chairman and attorneys, Pujo said he hoped to conclude arrangements tomorrow.

Willamette University to Put on Play

The Teutonia club, of Willamette university, and organization which is devoted to the study of German, will put on a play at the Grand opera house in a short time entitled "Minna Von Barnhelm." The play will be rendered in German and is said to be both highly interesting and entertaining to both German-speaking and to those studying the language.

The cast of the play is as follows: Major von Tellheim George Schreiber
Minna von Barnhelm Laura Heist
Graf von Bruchsal Jacob Stocker
Franziska, Minna's Maid Lulu Heist
Just, servant of the major. Louis Hepp
Werner, former lieutenant of Tellheim Harold Jury
Der Wirt William Oldenberg
Jame in Trauer Gertrude Reeves
Feldjager William Schröber
Récitant de la Marliniere, a French soldier Carl Hillingsworth

DIMICK TO FIGHT FOR AN EIGHT HOUR DAY

Senator Dimick has come back to the legislature with the grim determination to push through his eight-hour-a-day bill for the benefit of the workmen in the mills at Oregon City. This measure passed the senate twice two years ago, but was killed in the house each time. A violent tangle centered around the bill throughout the session. Dimick declared that while he expects the bill to be fought even more bitterly in the present session, he will fight for it to the last ditch. In the mills which the bill affects the plants operate at least 22 continuous hours every day and the protection of the workmen is inadequate.

TO CARRY THE NEWS TO WASHINGTON

On February 4 Hugh McLain, of Coos county, will start for Washington, D. C., with the official news of Oregon's vote at the recent presidential election safely stowed away in his inside pocket. He will deliver this in the hands of the president of the senate. Oregon's members in the electoral college each desired to make this trip, which is at public expense, of course, and as only one could go, by mutual consent the choice was made by lot. The names of the electors were placed in a basket, and Geo. G. Brown, of the State Land Board, was delegated to draw one out. The slip bore Mr. Lala's name. The other electors present were William Peterson, John M. Ware and F. C. Whittier.

May Purchase Painting

The famous painting by William Halsall of the battleship Oregon firing the last shot at the battle of Santiago may be purchased by the state and placed in the state capitol building. A photograph of the painting accompanied a letter written to the state senate by Governor West yesterday. The proposal to purchase the painting will be given consideration later.

Keep "On Edge" Don't allow your physical condition to "slump." If you have trouble with the Stomach, Liver or Bowels

HOSTETTER'S STOMACH BITTERS will overcome it and keep you strong and robust. Backed by a 60 years' record. Try it. Avoid substitutes.

Insects Damaging Forests.
Oregon Agricultural College, Corvallis, Or., Jan. 16.—Prof. Victor I. Safro, of the entomology department of the Oregon Agricultural college, and E. D. Edmonstan, of the U. S. Bureau of Entomology, left last night for Ashland where they are to make an inspection of the forests in the vicinity for insect damage to timber.

The importance of such damage to Oregon forests is second only to that caused by fire, and the problem of the control of such insect pests as now attack the trees is claiming the attention of the government, the experiment station of the college and the larger timber interests of the state.

In the northeastern and southern parts of the state some control work has already been begun. It will be but a few years before the forest insect problem will be met and controlled in a manner similar to the control of the forest fire problem. Forest insect control guards will be employed, with much larger territories to cover than have the fire guards. They will make an inspection of each territory

once every few years, and thus locate the centers from which insect damage to timber will spread. Proper steps will be taken by them to prevent these centers from causing epidemics of forest insect injury.

You can't play truant in the school of experience.

LIFE'S STRUGGLE WITH ILLNESS

Mrs. Stewart Tells How She Suffered from 16 to 45 years old—How Finally Cured.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing since I was 52 years old. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

What Shall a Man Drink?

A question much in the public mind nowadays is "What shall a man drink?" Or rather, what may he drink? "Water," you say, "of course." But the purity of our water supply is the problem in every large city. As an old proverb puts it: "God defend me from the still water, and I'll keep myself from thorough." Quite recently the people of New York have been warned against the water by the head of the Health Department, and have been urged to boil it before drinking. Have you ever thought of the enormous cost and labor this would involve, if it were carried into general practice? The fuel, the implements, the lifting, fetching; the serving and replenishing on every floor of every tenement; in every restaurant and office; in public places and drinking fountains. Truly it is a "counsel of perfection," which is practically hopeless.

Why Drink Water When You Can Get SALEM BEER

"It is in the breweries that sanitation has been brought to a nearly perfect condition as it is possible in a food-producing establishment. The water used in the material is distilled. The hops and malt are absolutely clean before being permitted to enter into the manufacturing process. The vats, pipes, etc., are not merely washed, but scalded and thoroughly sterilized. And as if that were not enough, when the beer is placed in bottles it is pasteurized by being run through hot water, which would kill every germ which might have escaped the warfare conducted against it in the process of manufacture. The person who opens a bottle of beer is assured absolutely that what he has before him is a product absolutely free from germs and perfectly clean. It is also true that he may know that he has before him the only manufactured food article which may be said to be absolutely clean."

Salem's Famous Bottled Beer is especially brewed for domestic use. Its alcohol contents are just sufficient to pleasantly stimulate and invigorate.

Notice of the proposed change of grade on Front street, between South line of Shipping and the north line of "D" street.

Notice is hereby given that the common council of the city of Salem, Oregon, proposes to change the grade as now established on Front street between the south curb line of Shipping street and the north curb line of "D" street, in said city.

The grade proposed to be established is as follows, to-wit: Commencing at a point on the center line of Front street on the south curb line of Shipping street, which point is 15 feet north of the south line of Shipping street and is at an elevation of 49.7 feet above the city of Salem base of grades and which elevation is the present established grade of the city of Salem thence on a descending grade of 0.5 per cent in a southerly direction along the center line of Front street a distance of 940 feet, more or less, to a point, said point being at an elevation of 35.0 feet above city of Salem base of grades thence on a level grade in a southerly direction along the center line of Front street a distance of 737 feet to a point, said point being at an elevation of 35.0 feet above the city of Salem base of grades; thence on an ascending grade of 0.5 per cent in a southerly direction along the center line of Front street a distance of 400 feet to a point on the north curb line of "D" street, which point is 14 feet south of the north line of said "D" street and at an elevation of 28.0 feet above

city of Salem base of grades, and which elevation is the present established grade of the city of Salem.

All persons affected by the proposed change in the grade set out above are hereby notified to file their remonstrance against such change of grade, if any they have, on or before 7:30 o'clock p. m. of the 24 day of February, 1913, at which time the common council will proceed to establish the said grade as above set forth, in the absence of any remonstrance thereto.

All persons interested are hereby referred to the map or plat of said portion of Front street on file with the city recorder, showing the said proposed change of grade. This notice is published for the period of ten (10) days the date of the first publication being the 8th day of January, 1913.

CHAS. F. ELGIN, City Recorder.
