What Shall a Man Drink?

A question much in the public mind nowadays is "What shall a man drink?" Or rather, what

may he drink? "Water," you say, "of course," But the purity of our water supply is the problem

in every large city. As an old proverb puts it: "God defend me from the still water, and I'll

keep myself from the rough." Quite recently the people of New York have been warned against

the water by the head of the Health Department, and have been urged to boil it before drinking.

Have you ever thought of the enormous cost and labor this would involve, if it were carried into

general practice? The fuel, the implements, the lifting, fetching; the serving and replenishing

on every floor of every tenement; in every restaurant and office; in public places and drinking

Why Drink Water When You Can Get SALEM BEER

"It is in the brewerles that sanitation has been brought to as nearly perfect condition as it is pos-

able in a food-producing establishment. The water used in the material is distilled. The hops

and malt are absolutely clean before being permitted to enter into the manufacturing process. The

vats, pipes, etc., are not merely washed, but scalded and thoroughly sterilized. And as if that were

not enough, when the beer is placed in bottles it is pasteurized by being run through hot water,

which would kill every germ which might have escaped the warfare conducted against it in the

process of manufacture. The person who opens a bottle of beer is assured abstrately that what

he has before him is a product absolutely free from germs and perfectly clean. It is also true

that he may know that he has before him the only manufactured food article which may be said

Salem's Famous Bottled Beer is especially brewed for domestic use. Its alcohol contents are just

fountains. Truly it is a "counsel of perfection," which is practically hopeless.
