In order to make a speedy exit from the hall, the glass broke, however, and Robert was cut about the face in several places. Another Big Strike In Nevada

[UNITED PRESS LEAD WIRE.] Reno, Nev., Feb. 4.—Wild with excitement, the new mining camp of Rochester, on Netzel mountain, near here, is today unearthing a vein of gold ore running 200 ounces silver and \$400 gold to the ton. The discovery is the biggest in Nevada in recent years, and all leases are operating three shifts a day.

HOUSE DEFEATED BILLS. (Continued from page 1.)

The fact that the Parsons bill exempted union labor organizations, caused Helzel of Marion to remark that there were no more powerful or arbitrary trusts than certain organizations of union labor.

The Parsons bill, which prohibited the fixing of a minimum price to retailers by manufacturers, wholesalers and others, carried a penalty of a fine of \$5000, or 30 days in jail, to a penitentiary term of from one to five years. The Blanchard bill, which prohibited trade and commerce conspiracies, provided for a fine of from \$500 to \$5000, and not to exceed one year in the penitentiary.

This discussion started when the committee on corporations handed in majority and minority reports. The majority report recommended that the bills be killed. Following the debate, Parsons' motion to substitute the minority for the majority reports was lost by a viva voce vote, with Handley of Tillamook in the speaker's chair.

Parsons, wild with anger, claimed that the proceedings were not correct and demanded a call of the house and a roll call. He shouted:

"I stand here for the poor man of the state and I demand a call of the house and a roll call to put every member on record. I don't propose to be horsewoggled in this manner."

Parsons, who in his excitement did not seem to know what was going on, got the parliamentary proceedings tangled up with his demands. He admitted that he didn't understand the situation. Speaker McArthur, who was on the floor, ruled that Handley was correct, and straightened things out. Each bill was then voted on separately on a motion to indefinitely postpone. The vote on Parsons' bill was 39 ayes, 12 noes and 9 absent. There were 32 ayes, 19 noes and 9 absent on Blanchard's bill.

The house passed the Upton bill which prohibits any person or corporation from withholding from any employe more than five days wages earned next preceding the regular pay day, and wages must be paid every two weeks except as to railroad employes who are not working at divisional headquarters and who must be paid at least every thirty days.

SOME FINE HOPS PURCHASED BY LIVESLEY

One hundred and fifty bales of hops that are conceded by local merchants to be the best in the state of Oregon, at this time, and possibly superior to any on the market heretofore, were purchased today by T. The hop market is in a sluggish condition at present, according to advices given by some, but the purchases made by Mr. Livesley goes on record as being a good one. The price is now ranging from 15 to 18 cents.
