# It Is Zero Weather in Chicago

[UNITED PRESS LEAD WIRE.]

Chicago, Feb. 6.—Warmer weather tonight, except in Montana, Wyoming and Dakota, where lower temperatures are predicted.

This prediction by the weather bureau here today caused general rejoicing among the people of the Middle West, who have shivered for several days in the worst "freezes" of the winter. The weather in Chicago today was still intensely cold, with the mercury hovering around the zero mark. Suffering is intense among the city poor, and there were many accidents and small fires.

Yesterday was the coldest day of the winter in Chicago, the thermometer registering two degrees below zero.

## SAYS BECKWITH'S PANTS ARE A "SHINING LIGHT."

County Commissioner Beckwith, better known as "Daddy Beckwith" to the court house boys, is suffering from humiliation, occasioned by the remarks dropped this morning by his brother commissioner, one Mr. Goulet, from the north end of the county. Mr. Goulet declares that Mr. Beckwith, upon leaving for Salem this morning, was accused of wearing a pair of pants the seats of which illuminated the landscape with greater brilliancy than did his newly shined shoes. "That's a dink-busted fib," said Commissioner Beckwith, when approached on the subject this morning. "I'll leave it to any fair-minded individual if I ain't about the best dresser among the three of commissioners, including Judge Galloway, and I might even contest with Judge Peter D'Arcy insofar as clothes are

concerned. The green-eyed monster has Commissioner Goulet by the neck, and although Judge Bushey don't talk much, I take notice he squints rather envious-like at me when I appear in court with my "Flower-de-Lizze" creation on."

## WOULD PREVENT MINORS ENTERING SALOONS

Representative Westerlund of Jackson county today introduced a bill to compel owners and keepers of saloons and bar rooms to display signs in front of such saloons and bar rooms reading that minors are not allowed inside and to prohibit minors from entering, or loitering, or remaining in such places.

"The bill is a much needed one in the way of reform," said Mr. Westerlund. "I do not look for any opposition, for if the saloon keepers look at it right it really protects them inasmuch as it makes it unlawful for any minor to enter or remain in a saloon. The minor is subject, the same as the saloonkeeper, to a fine of from \$10 to \$20 for each offense, and the falsifying of will deter minors from the falsifying of their ages to saloonkeepers."

## WILL VOTE ON LIEUTENANT-GOVERNOR IN 1914

By dint of strong argument vigorously put, Senator Calkins won an important victory this morning, when he caused the minority report of the resolution committee, signed by himself, to be submitted for the majority report on the house joint resolution to submit to the people in 1914 another opportunity to create the office of lieutenant-governor.

The majority report was signed by Moser, Dimick and Butler. After the minority report had been substituted, with 18 senators voting aye, the resolution was adopted by the same vote, and the measure will go to the ballot in 1914.

The main argument of those supporting the majority report was that the people were given an opportunity to create the office in the 1912 election.

## No Argument, Says Calkins.

Senator Calkins would not accept this as an argument against the resolution:

"We have the case of the woman suffrage amendment," he said. "Time and again it was defeated. Again it came up and passed. The biggest argument in favor of the bill is that it provides a presiding officer for the state senate, and does away with political deals and political trading that some times creeps in when the body is organized. It also provides an order for succession of governorship in case of the death or the removal of the executive. The only compensation attached to the bill is that \$10 a day is provided for the lieutenant-governor while he is serving as president of the senatorial body. There is no burden upon the people, and I believe that there are benefits in the creation of the office."

## WOMEN SIGN PETITION FOR LIQUOR LICENSE

For the first time in the history of Marion county, a remonstrance containing the names of women was filed with the county clerk this morning by citizens of Seclard precinct, which remonstrates against the granting of a license for a saloon in their vicinity.

The application for the license will be filed this afternoon, and it contains the names of 22 women. The location of the proposed saloon will be in West Woodburn. The remonstrating petition is signed by 38 women. Just what the county court will do in the matter remains to be seen, as it is unable to arrive at any definite conclusion, in view of the fact that the original application for the license has not yet been received.

That there will be a lively scrap over the matter is pretty certain.

Don't expect your ship to come in when the tide is out.

## TWO BILLS PASSED BY THE SENATE

Senator Calkins' bill providing an increase in the money set apart as traveling expenses each year for the state school superintendent from \$900 to \$1200 passed the senate this morning.

Heretofore it has been necessary for the superintendent to pay from \$200 to \$300 out of his own pocket for traveling expenses. It is necessary by the provisions of the law for him to visit all of the public schools of the state and all of the chartered schools as often as practicable. The increase provided, if the bill passes the house, and escapes the governor's veto, will enable the official better to keep a hand on the educational pulse of the state.

A bill to legalize a practice in the medical profession that is already followed passed the senate today. The bill was introduced by Senator Butler, and makes it legal for professional nurses to administer anesthetics to patients on the operating tables. The bill is sanctioned by physicians, who claim that it is absolutely necessary for this work to be done by nurses, because operations are some times performed in remote places where not more than one physician is present. The doctors say that professionally trained nurses are fully capable of administering anesthetics.

## COMMANDER BOOTH TO LECTURE HERE

Commander Eva Booth, head of the Salvation Army in the United States, will deliver an illustrated lecture here, March 13, on her father, the late General Booth, founder of the Salvation Army. She will be heard either in the Grand opera house or armory, notice of the place being given later.

Ref is steadily going up. It is now not the lightest since the memorable occasion when the cow jumped over the moon.

## BURGULARS GATHER HARVEST.

(Continued from page 1.)

of Joe Reese, in North Salem, was robbed by the same parties who entered Mr. Baker's home. In the former case, the house was entered by means of a skeleton key and the furnishings about the place were disturbed considerably. Amateurism also shows plainly here, as the burglars even took the trouble to pocket a few pennies laying about on the dresser, and there were other articles of far more value in plain sight. In both of these cases, money more than valuables, seemed to be the main object in breaking into the house.

The home of Chas. S. Birdsall, 252 Wilson street, South Salem was entered by some unknown person, who carried away about all the valuables in the way of rings and jewels possessed by the family. The home was entered with a pass key and the robber was

not noticed in spite of the fact that it was broad daylight. None of the Birdsall family were at home.

That the disturbance between members of the police force and the city administrations in both Portland and Salem are said to be incentive for the crooks to get busy, is the opinion of many posted in criminals' ways. It is believed that an account of there being new men unfamiliar with police work installed in the two cities, and because of the strife existing between the police departments and the councils, the criminal set, which is usually keen to take advantage of any opening boldly go to work and actually ignore the police while under the impression the departments are too busy getting their own affairs straightened out to pay much attention to them.

Under the present conditions, Salem's police department is doing about all that can be possibly done in the way of patrolling the city, but it is generally conceded that unless there are more patrolmen and some experi-

enced criminal men added to the force, it will be an impossibility to prevent the commission of crime or to detect the guilty ones. Chief of Police She-deck is bending every effort to systematize his patrol, but is greatly handicapped owing to the number of men he has in charge. Salem covers five and a quarter square miles and contains about 18,000 people.

There are but six policemen now serving in the department, or one officer to every 3000 people, and he has a square mile of territory to look after. Between the hours of 1 and 6 o'clock in the morning there are but three officers on duty, each officer having 6,000 people under his protection if their duties were divided up equally. The only suburb blessed with an officer of the law at night, is the Southern Pacific depot territory, while three other officers are patrolling the business district from 8 o'clock in the evening until 1 in the morning.
