SCHOOL FAIRS ARE AROUSING INTEREST

State Fair Management to Stimulate Raising of Livestock, Offers Trophies Valued at \$3000.

Much interest is being taken in the local school fairs to be held in Marion county just before the state fair next September. The following towns have appointed committees to secure prize lists for the local school fair: Woodburn, Aurora, Gervais, Jefferson, Turner, Salem, also Mt. Angel, Silverton and Stayton will no doubt hold fairs.

Teachers from every part of the county are making inquiry regarding the school credit for home work plan. This plan is in successful operation in a number of schools in the county at the present time.

Teachers' reading circles have been organized in all the large centers of the county. These circles are presided over by the principal of the school where the circle meets, and the time is spent in discussing various school problems. Each circle adopts one of the books recommended for study by the superintendent of public instruction. Practically every teacher and principal in the county attends these reading circles.

The following schools have won all of the points required for a standard school in Marion county: Belle Passe school, Miss Fern Parr, teacher; Davis school district No. 95, Miss Ethel McKee, teacher; Marlon school district No. 20, E. A. Palmer, principal, Miss Jennie Williams intermediate and Miss Ethel Law primary; Sublimity No. 7, Miss Rose Vandusey, teacher; St. Louis district No. 59, Sister M. Lucille, teacher.

The following rooms in Woodburn have also reached the standard: C. T. Mudge, teacher eighth grade; Nellie Grobe, teacher seventh grade; Miss Scollard, teacher of the fourth grade.

SENATE FAVORS NEW COUNTIES MEASURE

Upper Body Declares It No Crime to Overdraw One's Bank Account by Check or Draft.

Over the vigorous protest of Senators Neuner and Dimick, who are fearful lest in the next two years the number of counties in the state shall be doubled or tripled, the senate today adopted the majority report of the committee on counties recommending the passage with amendments of the Parson's bill amended a vetoed bill and making provision for formation of new counties.

As originally drafted the bill provided that steps might be taken for the formation of new counties from 500 square miles of territory, containing 2500 people and an assessed valuation of \$3,000,000, provided no border line of the proposed county should be within 10 miles of the county seat of any other county.

As amended, any proposed new county must have 4000 residents and an assessed valuation of \$5,000,000. Final consideration of the bill was made a special order for tomorrow at 2 o'clock.

A lengthy debate took place over an adverse report on the house bill prepared by the committee on labor in industries for an act to protect the health of persons manufacturing, packing or handling Portland cement by making it compulsory to pack the cement in paper-lined casks. The bill was finally defeated, but later it was decided to reconsider it tomorrow.

The senate decided that it is not criminal for a man to overdraw his bank account and hence defeated the Forbes bill. Senator Day even wanted to take an expression of the senate to ascertain how many criminals there might be in the upper house should the bill pass. The Forbes bill made it a crime to draw a check or a draft on a bank when not having on deposit at the bank funds to meet the check or draft drawn.

An Odd Legacy.

Thomas Jefferson, the founder of the Jefferson family of actors, was remembered curiously in the will of Weston, who was himself an esteemed member of Garrick's company. Weston's will contained this item: "I have played under the management of Mr. Jefferson at Richmond and received from him every politeness. I therefore leave him all my stock of prudence, it being the only good quality I think he stands in need of."

Wellington and Waterloo.

Helme, in speaking of Wellington's good luck at Waterloo, says: "This man has the bad fortune to meet with good fortune when the greatest man of the world is unfortunate. We see in him the victory of stupidity over genius—Arthur Wellington triumphant when Napoleon Bonaparte was overwhelmed. Wellington and Napoleon! It is a wonderful phenomenon that the human mind can at the same time think of both these names."

back window of the house the little girl sees a cripple boy being unmercifully beaten by his drunken father. Herself helpless she runs to the phone and asks central to connect her with Gbd in Heaven. Through the hands of providence, the child is connected with her own father. Thinking he is God she asks him to help the crippled boy. He promises, not recognizing his child's voice.

FROZEN BY FISH POWER.

Truthful Tale About Making Ice Cream in Nova Scotia.

Not all the fish prevaricators live in the United States, according to the Mariner's Advocate. An editor recently received the following letter:

"I have read an interesting account of singing fish in your paper. It recalled to me the memory of a rather remarkable fish we have in Nova Scotia. It is known as the 'frost fish,' because it may be frozen like a lump of ice, but if placed in water in that condition it soon thaws out and swims around as vigorously as ever. The natives make use of this property to make ice cream. The fish is caught, frozen and placed in the cream. In thawing out it freezes the cream, and its movements at the same time beat the mixture, making it smooth."

Taking them by and large, from Moosehead lake to Puget sound and from the upper Mississippi to the gulf, we have some very capable and industrious fish liars in this country. But we hand the reel and rod over to Nova Scotia. We have talent in this country, but Nova Scotia is the abode of genius.

IF YOUR LIVER IS INACTIVE AND BOWELS WASTE-CLOGGED

DELICIOUS "SYRUP OF FIGS" REMOVES THE SOUR BILE, FOUL GASES AND WASTE FROM THE SYSTEM WITHOUT GRIPE OR NAUSEA—REGULATES YOUR THIRTY FEET OF BOWELS.

Primitive folks did not need laxatives. They lived outdoors, ate plenty of fruit, and all of their food was of course. We modern people are different. We exercise too little, eat little fruit, and our food is too fine-ttoo rich.

We simply can't have our ten yards of bowels clogged up, liver choked with sour bile and stomach full of foul effete matter and feel well. It means that the food and waste retained in the stomach and thirty feet of bowels ferments—decays. The decay creates poisons, gases and acids and these poisons are sucked into the blood through the very ducts intended to suck in the nutriment. Then we have sick headache, become dull, bilious, tongue coated, nervous, nasal don't digest, and we feel miserable all over. So we must make our choice.
