Sheriff "Till" Taylor of Umatilla county is in Salem today, having come to the capital city on business connected with his office. He was an on-looker at the legislature this afternoon.

Meats. Your Sunday dinner meats should be the best of the week. Just phone 1528 and your order will be put up with care. Steunloff Bros., Court and Liberty streets.

Sunday comes but once a week, and your Sunday dinner should be the best. Just phone 131 for your chicken. We use nothing but select stock, The Sunset grocery. Give us your next order for bread. You will like it.

A stepple climber who is painting the court house tower is attracting considerable attention. On a little platform about two feet square, supported by one rope, he makes his way around over the top of the tower, doing many semi-acrobatic stunts.

Joseph Ralston, of the Ralston Electric Company, of Albany, is in the city working in favor of the bill providing that all electric wire men shall take certain examinations before being allowed to follow the profession.

With the members receiving no pay and the clerks and stenographers working gratis the legislature will probably remain in session until March 1.

The Western resolution making this provision to take care of unfinished business was adopted by the house after a debate of one hour yesterday afternoon.

The senate has not yet acted on the resolution to remain over time, but will probably do so late this afternoon or tonight. There is little doubt that the senate will agree to remain.

No Need to Stop Work.
When the doctor orders you to stop work it staggers you. I can't, you say. You know you are weak, run down and falling in health day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent break down and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at J. C. Perry's.

It's a hard job for a small man to make a bluff job, but often that's the only chance he has.

Mrs. S. S. S., Van Buren St., Kingston, N. Y., (full name furnished on application) had such decided benefit from using Foley's Honey & Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey & Tar Compound brought my voice back to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." Remember the name, Foley's Honey & Tar Compound, and refuse substitutes. Contains no opiates. Dr. Stone Drug Store.

To Cure a Cold in One Day. Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S Signature is on each box. 25c.

SCIENTISTS TELL OF APE ANCESTRY

Thirteen Savants Uphold Evolution Theory.

SUPPORT DARWIN'S IDEAS.

In Essays Printed in the Biblical World They Describe All Proofs and Show How Teachings of Scriptures Must Be Reconciled With Scientific Facts—One Sounds Alarm.

Famous scientists went on record recently to uphold the Darwinian theory of man's evolution from the lower animals. A symposium of opinion of leading savants of the United States gathered on behalf of the Christian people of the universe by Dean Shailer Mathews of the University of Chicago was published in his magazine, the Biblical World.

The magazine asked the question, "Do you believe in evolution?" So far it has received replies from thirteen of the leading astronomers, geologists and biologists of America. All answers were affirmative. The conclusion is drawn that Christians must reconcile the teachings of the Bible to the theory of Darwin rather than to refute it.

Sounds Warning to Christians.

An editorial preceding the views expressed by the scientists reads:

"Many earnest Christians are afraid of evolution as something which will destroy their faith in God and Jesus Christ. Indeed, no thoughtful person can fail to perceive the dangers to religious faith implied in certain philosophies which are based upon evolution. But such apprehensions are sometimes expressed unfortunately. The public, for instance, has been widely assured that 'evolution has collapsed.' Such an affirmation involves a question of fact. If evolution has collapsed, scientists, particularly astronomers, geologists and biologists, would be the first to know.

"If it has not collapsed the religious world must discover a way in which evolution can be utilized as one of the revelations of God's will. Accordingly, in order to get at the opinion of the scientific world, the Biblical World asked a number of the leaders of American science to give an answer of not to exceed 100 words to the question, 'Does modern science still believe in evolution?' The unanimity of response makes it apparent that our theological thinking cannot ignore, much less deny, the place evolution is holding in our modern world. For our own part, we believe that, so far from being inconsistent with the gospel, evolution furnishes one of the means by which we may better understand the relations of God with this world."

Opinions of the Scientists.

Some of the opinions expressed by the scientists are by William Patten, professor of biology and zoology, Dartmouth college: "Evolution is the accepted doctrine of the natural sciences to the extent that it has long ceased to be a subject of debate in standard scientific journals or in the organized conferences of men of science. It is no longer a question of whether this, that or the other has been evolved, but where and when and how and why it was evolved. As for biologists, they are now further from agreement as to what constitutes the processes and conditions essential to organic development and further from mutual understanding or from a just appreciation of both the supplementary and antagonistic views held by their colleagues than they were a year ago.

"This is an index of real progress along divergent lines, too rapid for the pioneers to keep in constant touch with each other or with the rear guard. The brief reports of individual success or failure on the frontier which from time to time reach the public ear are, as a rule, unintelligible to the layman. They are sometimes improperly utilized to proclaim a general defeat or a general victory for this or that cause, to ally partisan fear or encourage partisan hope. Allow me, a soldier in the ranks, to report that there is but one army in the field, that the fight moves bravely on toward the 'light' and science and humanity lead."

Firmness of Theory.

By Jacques Loeb, Rockefeller Institute for Medical Research, New York: "Modern science believes more firmly than ever in evolution. Less is today written on the subject than formerly because modern biologists find it more profitable to experiment than to argue. Two essential groups of data have been added since the days of Darwin as the result of experimental work. First, it was shown through a blood reaction which was discovered in connection with work on immunity that a close relationship exists between man and anthropoid apes; second, breeding experiments by Mendelian methods have established the fact of the independent disappearance of hereditary factors for unit characters in the germ."

By Henry Fairfield Osborn, president of the American Museum of Natural History, New York: "Evolution has long since passed out of the domain of speculation, of hypothesis and even of theory. It is a law of living nature as firmly and incontrovertibly established as the law of gravitation in respect to the celestial spheres."

CURES RHEUMATISM

QUICKLY EASES STIFF, SORE, SWOLLEN JOINTS AND MUSCLES—DRIVES RHEUMATIC PAINS AWAY.

It is needless to suffer any longer with rheumatism, and be all crippled up and bent out of shape with its heart-wrenching pains, when you can easily avoid it.

Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood, the poisonous waste matter and uric acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery and can't possibly cure you.

The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped-up, inactive kidneys, so they can filter the poison from the blood, and drive it on and out of the system.

Croxone is the most wonderful medicine ever made for curing chronic rheumatism, kidney troubles, and bladder disorders. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all your misery and suffering will end.

An original package of Croxone costs but a trifle at any first class drug store. All druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to cure the worst backache or overcome urinary disorders.

DIED.

RUBLE.—At 2 o'clock a. m., February 21, 1913, one and one-half miles west of Salem, in Polk county, aged 88 years.

She was the widow of Wm. Rubie, who passed to the Great Beyond in 1905. Mrs. Rubie was among the pioneers of Oregon, having crossed the plains in 1853.

The funeral will be held at her home Saturday at 1 o'clock. Interment will be in the City View cemetery.

NEWTON.—At the home of his son, George Newton, five miles south of Salem, at 12 o'clock, midnight, H. N. Newton, aged 86 years.

Funeral announcements later.

DAVENPORT.—Benj. F. Davenport, on Thursday, February 20, 1913, at 4 p. m.

The burial will be Silverton Sunday, at 1 p. m. Rev. P. S. Knight will officiate. Mr. Davenport was born February 9, 1839, and came to Oregon in 1851, where he had lived continuously on the farm that was his father's donation land claim.

Mother Hit; Boy Is Dead.

Aberdeen, Wash., Feb. 21.—With a letter found on his person from a sister in Seattle telling him his mother was ill and urging him to return home, the body of P. J. Turcotte, 18 years old, is in the morgue here today, having met his death while attempting to board a freight train. He had worked but two days when he received the letter and was apparently attempting to steal a ride to Seattle when killed.

Rhinehart Wants to Coach.

Oregon Agricultural College, Corvallis, Ore., Feb. 20.—Written application has been made, it is said, by "Rat" Rhinehart, famous quarterback of the Multnomah club, for the position as coach of the O. A. C. football team for next year. As yet the policy of the athletic board, which is to be appointed, to take the place of the graduate manager system, abolished by the student body, is not yet announced.

CLAIMS GOVERNOR JUGGLED FIGURES

House Investigating Committee Makes Warm Report—Condemns the Penitentiary Parole System.

The report of the house committee appointed to investigate conditions at the state penitentiary, introduced in the legislature today, hands Governor West some warm shots.

The governor's parole system is attacked on the ground that, under his system of paroling prisoners to certain individuals, he does not require them to remain in the same locality with those paroled, and that the prisoners go where they please, and do as they please, and when the time comes to make a report as to their behavior they send a written report to their guardians, who sends the report to the governor, being entirely unaware of whether the statements they have signed are true or false.

The hardest thrust in the report is made at the governor relative to the profits resulting from the operating of the brick yard at the "pen." The committee says that the statements made in table No. 4, on page 16 of the governor's biennial report are absolutely false, and that instead of \$4535.95 being the amount received for the sale of 1,200,000 bricks on hand January 1, 1911, it should be \$8680.99, or, in other words, that sales of brick at \$9 and \$10 per thousand, instead of being credited to the previous administration have been juggled so as to show a profit under the management of the present governor.

Several other instances are mentioned in which the governor is accused of juggling funds, in order to show that his prison policies are working to advantage.

The report says that it is not the opinion of the committee that funds have been used for private purposes, but simply that they have been unlawfully juggled around so as to make the administration reports appear to advantage.

The house committee consists of Lewelling, Smith and Laughlin.

NEW TODAY.

HOMEOPATHIC PHYSICIAN

I do a general visiting and office practice, treating both acute and chronic diseases. I have many patients for asthma, dropsy, diseases of the heart and kidneys, gall stones, rheumatism, diseases of the skin and nervous disorders.

I have cured dropsy in patients after they had been pronounced hopeless by other able physicians.

I have cured gall stones after eminent surgeons had said that an operation would be necessary to afford relief.

Office practice: Cash.
If you need my help, I am at your service.
