Y. M. C. A. MINSTREL AT GRAND TONIGHT

Big Aggregation of Local Talent and a Program That You Will be a Long Time Forgetting.

What was pronounced as one of the very best shows that has been given at the state hospital for years was the best given by the Y. M. C. A. minstrels last night. For three hours the hospital people were entertained, and the highest appreciation of the work of the merry-makers was shown.

One of the asylum medical staff, in speaking of the performance today, placed special stress in his praise of the work of Dr. Epley and the black-face comedians. The jokes are said to be remarkably clever, and the work of Dr. Epley, as an interlocutor, inimitable.

The song hits of the evening were new and cleverly executed. The troupe numbers among its singers the best talent in the city. The members were encircled time and again by the audience, and the troupe was invited to give another show. This will probably not be done this year, but if another show is gotten up next year the hospital people will probably be accommodated. All in all, the troupe made a decided hit.

See the big aggregation at the Grand opera house tonight.

GRANDSON OF THE GREAT NAPOLEON

Los Angeles, March 12.—On March 9 the Crittenden Memorial society in San Francisco announced that it had positive proof that a son of Napoleon Bonaparte had lived in San Francisco. The son was a jeweler.

That son's son announced today his existence. He is a "lumber buck," working in a lumber yard in San Pedro street, Los Angeles. His name is William Gordon, and he said that his father, John Gordon, was dead. This information constitutes the answer to the uncertainty of the Crittenden society, which did not know what had become of the imperial exile's son.

William Gordon is now 65 years old. He said his father had not been born on the island of St. Helena, as was believed, but at the home of his mother, near Edinburgh, Scotland November 11, 1818. He died in San Francisco in 1885, but William does not remember in what cemetery his body was interred.

John Gordon's mother was a Scotch woman, who was matron of the hospital at St. Helena when Napoleon arrived on the Bellerophon, and he received his mother's family name. In 1845, Gordon said, his father married Amelia Jones, a Welsh woman, in London, England, and with her settled in New London, Conn., where William was born in 1847.

"It is a far cry from St. Helena to San Pedro street; from emperor to lumber buck" said William today, "but having royal blood has never excited me."

Gordon has lived in Los Angeles 25 years.

AS WELL AS COMPLEXION TO IMPROVE EXPRESSION

(From Beauty's Mirror.)
No face is really beautiful that lacks expression. Do you realize that continual use of powders and creams tends to spoil pliancy of skin and elasticity of expression? Why not quit cosmetics and use something better, which won't clog the pores or make the skin either dry or pasty? Ordinary mercerized wax acts quite differently from any cosmetic. It wonderfully improves any complexion, giving it life and expression. By gradually, harmlessly peeling off the thin veil of outer surface skin, it brings to view a pure, soft, spotless complexion, delicately beautiful and youthful. Every drug-gist has this wax; it is seldom more than one ounce is needed. It is spread nightly like cold cream and washed off mornings. In a week or two the transformation is complete.

Wrinkles do not of course enhance the expression. Neither do the pasty things many use to eradicate them. A treatment free from all objection is made by dissolving one ounce powdered saxolite in one-half pint witch hazel; use as a wash lotion. This soon removes even the most obstinate wrinkles.

TELEPHONE COMPANY EXTENDS ITS LINES

Runs 100-Pair Cable Over Into Polk County Where Business Is Increasing Rapidly.

Looking to the early development of West Salem on an extensive scale with the completion of the railroad projects affecting that district, the Pacific Telephone & Telegraph Co., has extended new cables across the river and is preparing to accommodate all the residents who may make their homes on the west side for years to come. This extension of lines is only a part of a big program of local development of the lines.

From the office of the telephone company on Liberty street a 100-pair cable has been extended across the river into West Salem, taking the present cable on the bridge and running up the Independence road to Kingwood.

Wonderful Opportunity Offered. Speaking of this extension yesterday W. H. Dancy, local manager of the company, said:

"The Kingwood section offers a wonderful opportunity for the establishment of the most beautiful residence section in the west. This development is sure to come before long, and it is for this that we are preparing in bettering our service across the river. With the electrification of the railroad on that side there will be a big rural section that will be lighted by electricity, and the scenic elevation and fertile condition of the soil means that hundreds of people are going to be drawn there for home building. The telephone company will be ready for them when they come."

Improvements Are Underground. The company is also making large improvements by the addition of new underground cables on this side of the river. This method of improving the service not only makes a more efficient phone system, but with the removal of poles in the streets lends to the beautification of the city. From now on most of the new cables will be underground.

From the office on Liberty street a 600-pair cable has been run underground to a manhole at State and Liberty streets. Another 600-pair cable has been extended to Chemeketa and Liberty and up Chemeketa to Fourteenth.

The cable on Chemeketa street removes the overhead cables and clears that street of poles. Further, it gives additional facilities on State street and in the main business section of the city. The work is preliminary to more extensive developments, and will be completed about May 15.

Many Rural Lines.

The telephone company is not confining the additions to its facilities to the city lines. Manager Dancy reports a remarkable increase in the number of farmer lines in use. He attributes this to the dividing up of the larger farms into smaller tracts for the accommodation of additional families.

One new rural line has been extended from the Garden road and another north from the fair grounds on the Brooks road. Another line is projected east from the asylum. Mr. Dancy says that the tendency has been with the increase of the rural population to overload the existing line. The new lines eliminate the difficulty in procuring good service frequently caused by overloaded lines.

FIERCE FIGHTING IN MEXICAN TOWN

Federal Army Wins Victory After Fifty Hours' Battle With Big Rebel Force.

El Paso, Texas, March 12.—Desperate fighting in an attack on Parral, Chihuahua, entailing a heavy loss of life in a 50-hour battle, was reported in belated advices reaching here late yesterday. Some 1500 constitutionalists, rebelling against Huerta's national government in Chihuahua were driven back by almost an equal number of federal regulars, and the city, center of American mining and industrial interests, was demolished by bombardment and street fighting, in which even the townspeople engaged.

Battle Continues Two Days.

The ex-insurrecto troops, who rebelled against the Huerta government and left Parral last week after mobilizing and recruiting at Santa Barbara, nearby, returned on March 5 to retake the city. One thousand federals from Chihuahua City had reinforced the 200 regulars at Parral.

On the afternoon of the 5th insurgents attacked and the battle continued until the evening of the 7th. On the morning of the last day the rebels took the fortified hills surrounding the city, driving the federals to cover in the town.

Volunteers Respond to Call.

Colonel Mercado, the garrison commander and Colonel Castro, who had brought the reinforcements from the state capital, called for volunteers to retake the outlying positions. Five hundred men responded, and after charges and almost hand-to-hand fighting, drove the insurgents from the hills.

Then the constitutionalists concentrated their fire on the south section of the town, driving the city officials from their houses and causing great loss of life to the residents. At night the insurgents withdrew. During the fighting mobs of townspeople rioted, burning the market place and attacking the banks. Volleys from the soldier's ranks soon quieted the internal disturbance.
