

You can do it. You can have as many and as good clothes as the man who pays higher prices if you buy Clothcraft or Fitform Clothes. In fit, style and dressiness-the things you can see for yourself-they are sure to please you and your friends.

Of the things you can't see or judge beforehand-you can be just as sure because Clothes from Meyers are guaranteed to be all wool, to hold their shape and to satisfy in wear and service.

That's why the man who wears Clothcraft or Fitform Clothes always gets credit for paying more.

It's a desirable kind of credit to have, and you will find it in every suit we show.

#### Bribe Scandal Climax to Harry K. Thaw's Evil Influence on New York

\*\*\*\*\*\*\*\*

HEN the great state of New York undertook to convict Harry Kendall Thaw of murdering Stanford White and in succeeding years undertook to keep that young man in an insane asylum it had one of the most expensive tasks on record. It is probable no single criminal litigation in New York comes within \$100,000 of costing as much as the long period of trials, retrials and insanity hearings waged over the slayer of White.

The climax of Thaw's evil influence on the state's treasury and its judicial peace of mind has come in the great charge of pardon brokerage as existing in the management of the state prison and insane asylum at Matteawan.
in the face of this charge it was ap-

parent recently that Joseph F. Scott, superintendent of prisons, was in imminent danger of being thrown out of office; also 't was clear that the great

HARRY K. THAW (ABOVE) AND SUPERIN TENDENT JOSEPH P. SCOTT.

state of New York faced another con tingency requiring the use of thousands of dollars more on account of

The first musder trial, which ended in a disagreement, and the second which ended in a refusal to convict because of insanity, cost the state over \$100,000. Then followed the three hearings on Thaw's sanity, each estimated to have cost the state over \$50,-000. The prisoner and his attorneys have contended from the first that he was entitled to at least one insanity hearing every year.

Over a hundred witnesses have been called upon each time Thaw's case has come up, some of them being brought from Paris, Berlin and London to testify. The request by the district attorney to have the evidence in the latter hearings read from the records of preceding ones was fought and defeated Thaw's attorney. Therefore the state faces the necessity of gathering witnesses from distant points and spending prodigious sums bereafter. The litigation is said to cost Thaw twice as much as the state. Legislation has been proposed to limit the fund for the state's part in Thaw's hearings to \$20,000.

The most recent upheaval over Thaw is the greatest sensation since the first murder trial. It has been freely declared, and certain elements of the charge proved, that Thaw has been a "meal ticket" for pardon brokers.

The position of Superintendent Scott and Dr. John R. Russell, head of the State Hospital For the Insane at Matteawan, were assailed by the testimony of John N. Anhut, a young attorney representing Thaw. Anhut declared that he had received \$25,000 as a retaining fee from Thaw and that Dr. Russell had asked him for \$20,000 to certify that the prisoner had become sane. Dr. Russell's alleged proposal to Aphut was virtually an offer to give the prisoner his liberty, as the physician's word describing Thaw as sane would have caused the latter's release. The scandal first was disclosed by the assertion by Dr. Russell that W. F. Clark, secretary of the state inquiry mmission, had used Governor Sulper's name to gain Thaw's release Clark responded with the counter charge that Dr. Russell, Superintendent Scott and others formed a "prison ring" of pardon brokers under Governor Dix.

An intimation has run through all the investigation into the present Thaw scandal that the prison and asylum officials conducted a profitable business obtaining pardons for prisoners.
