

The Safe, Sure, Clean, DIGESTIBLE

# Cottolene

## PANTRY

Pastry can be "pasty" or "tasty"—much depends upon the cooking fat used. *Cottolene* is preferable to butter or lard for shortening because it makes pastry rich without the least suggestion of greasiness. It also makes it light, crisp and digestible.

In addition to giving better results, *Cottolene* is cheaper than butter, more economical than lard. Two-thirds of a pound of *Cottolene* will go as far as a full pound of butter or lard, and *Cottolene* is usually as cheap as or cheaper than lard.

Buy a pail of *Cottolene* today, try this recipe, and let "hubby" render the verdict when he tries the food.

Made only by THE N. K. FAIRBANK COMPANY

When results and economy both point to *Cottolene*, why use any other shortening?

*Cottolene* is the original vegetable shortening and frying medium. It is a product of Nature, made from the purest and choicest cotton oil, and is in every sense as palatable, healthful and digestible as olive oil.

**COTTOLENE DOUGHNUTS**  
Cream three tablespoons *Cottolene*, add scant cup of sugar, 3 yolks of eggs well beaten with one white, stir in one cupful of freshly mashed potatoes and 1/4 cup of milk. Sift 2 1/2 cups flour with 3 teaspoons baking powder, 1/2 teaspoon each of salt and ground mace, also a little nutmeg, and add to first mixture, working in additional flour as necessary to handle lightly. Roll and cut all doughnuts before frying. Fry in hot *Cottolene* 3 inches deep in kettle, testing the temperature with piece of bread.

### THE OPEN FORUM

The Capital Journal invites public discussion in this department—Let both sides of all matters be fully brought out—it is not the purpose of this newspaper to do the thinking for its readers.

#### \$30 a Year for Water.

Editor Journal: The Journal has been pretty busy, editorially and otherwise, discussing in a comparative way, the high cost of water for Salem consumers. You tell us that \$24 per year is too much for an ordinary family. Now there are some other items in this relation which you have not mentioned. A charge of \$2 per month for domestic service is \$24 per year, but that is not all. There is a minimum charge, minimum, remember, of \$4 per season for irrigation. For lawns ranging in size from a postage stamp to a dog biscuit, \$4 per season is charged. For lawns estimated in acreage, you are supposed to pay by the acre, amounting, if correctly proportioned, to \$10 or \$20, or even more, according to size of farm. Whether all these large-sized city farms really pay in proportion to the postage-stamp reuter is a question for the com-

mittee on discrimination. Adding the minimum charge of \$4 per year, the consumer pays \$28 per year, instead of \$24.

Then there is another little thing, a sort of joke on the consumer, as it were, and that is, the water company has an iron-clad rule, enforced by a battalion of bicycle night-riders, who see to it that you don't sprinkle any water on the street in front of your premises to lay the stifling dust. Now this rule may seem to a thickheaded consumer to be rather foolish, he thinking that so long as he pays for the water, that he can do with it as he pleases. But there is a deep reason in this apparent madness. About the time irrigation begins and your \$4 to \$20 per season comes on, the street sprinkling man calls and tells you that he will lay the dust in front of your house for the mere trifle of \$1.50 or \$1.75 per month, "doing it" once or twice per day, according to the extent of his business.

So, once again, you buy more water from the company, but through a middleman. If you are side-streeter or a tenement district consumer, you get no water at all on the street. But as we all are main street property owners in Salem, we all get cracked by the water tank. Add this \$1.50 to the \$28 and you have \$29.50 per year. The dis-

count you courteously referred to equals itself in the consumer losing the use of that money for the 30 days. So, about \$30 per year is nearer right.

The difference between your \$24 and my \$30 is \$6, being a charge of 50 cents per month, which would buy me the Capital Journal. If I could, I would rather spend that 50 cents for the Journal and drink out of a well.

RESIDENT.

#### IT'S ALL GUESSWORK: YOURS WITH THE REST

That the appointment to the Salem postmasterhip lies between James E. Godfrey and August Hucklestein, and that Tom R. Wilson is a third consideration is the latest sizing up of the situation by prominent local Democrats. This development of the situation has been received with something of a shock because it has been generally understood that Wilson has been in the running several lengths ahead of all other candidates. The appointment will probably be received from Washington not later than April 1.

Wilson has been looked upon as the strongest of the candidates because he is the choice of Governor West, and it is said has received the endorsement of the governor for the place. The governor, however, has steadfastly refused to make any statement as to whether any person has received his endorsement, though he has not denied giving an endorsement.

Just before the end of the Taft administration, F. B. Southwick received the appointment through the influence of Congressman Hawley. This appointment was killed, however, upon Wilson's going into the White House.

Wilson, Hucklestein and Godfrey are the only candidates so far as is known. Argument is made against the appointment of Wilson on the grounds that he is not, properly speaking, a Salem man. He came to the capital city several years ago to accept a position as book-keeper at the state penitentiary and has been in that position ever since. Hucklestein and Godfrey are both long residents.

#### Talks to Fruit Union.

J. O. Holt, manager of the Eugene Fruit Growers' association, will give an address before a general meeting of the members of the Salem Fruit Union, at the headquarters of the latter organization at High and Trade streets Saturday afternoon. The subject on which Mr. Holt will speak will be "Results of Co-Operation." There will be other speakers present but Mr. Holt will be given the greater part of the afternoon for his address. The meeting is not limited to growers of any certain fruit, but is to be general for all orchardists who are members of the union.

#### ASSASSIN SCHINAS LIVED IN IOWA

Davenport, Ia., March 20.—Aloke Schinas, slayer of King George of Greece, pushed a fruit cart in this city a year ago, according to several Greeks here. He left for his native country eight months ago.

The Greeks stated that Schinas was of a proud and emotional nature, and, although well educated, could speak no English. The proprietor of a pool hall here offered Schinas a job as a boot-black, but he was too proud to accept.

#### A Cure For Eczema

Eczema in any form, whether acute or chronic, is easily and rapidly overcome by the use of Meritol Eczema remedy. Gives positive relief when all others fail, and we heartily recommend it to any sufferer. Capital Drug Store, exclusive agents.

#### DRUNKENNESS

Is a curable disease, which requires treatment. The ORRINE treatment. It destroys all desire for whiskey, beer or other intoxicants. Can be given in the home. No sanitarium expense. No loss of time from work. Can be given secretly. If after a trial you fail to get any benefit from its use your money will be refunded.

ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only \$1.00 a box. Ask for booklet. J. C. Perry.

#### Stubborn Colds May Lead to Consumption

Did you ever have a cold that would not let go? a cough that persisted, that prevented sleep and made waking hours miserable? a case in point follows:—

718 Cherry St., Phila., Pa.  
"Gentlemen: In July, 1905, I first noticed the condition that showed I had Consumption. I lost weight rapidly; had a hollow cough, hemorrhages and very acute night sweats. My mother recommended Eckman's Alternative. In the fall of 1905, I began to take it. At this time I am perfectly well and robust. My appetite is good and my weight has increased from 110 to 140 pounds. Not a trace of my old trouble remains. I will gladly express the merits of this medicine to anyone."  
(Signed) M. L. GERHARDT.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet setting of recoveries, and write to Eckman Laboratory, Philadelphia, Pa. for more evidence. For sale by all leading druggists.

J. C. Perry.

Children Cry FOR FLETCHER'S CASTORIA

#### THE ROUND-UP

W. E. Hanser has the skin of a panther, measuring 10 feet 8 inches, which he removed from its original owner, after it had fought a pack of dogs for several hours, and he had fired 17 bullets from a .22 into it.

W. C. Thienes, charged with perjury, was acquitted by a jury in the circuit court at Eugene Wednesday.

J. E. Cryther and B. V. Pompella have purchased a carload of full-blooded and some registered Holstein-Friesian cows and a registered bull.

Towns along the railroad from Hood River to Baker report a snowfall of a couple of inches Wednesday.

Louis A. Heberle committed suicide by hanging himself in a shed at the rear of his house at Grants Pass. He attempted to end his life last May by slashing his throat. He had lived in Grants Pass 30 years.

Eastern Oregon had a severe snow-storm Wednesday, followed by a sudden drop in the temperature. It caused no damage other than to sheep men, who suffer some loss, as the lambing season is on.

Charles O'Kelley 19 and Albert Birdson 20 are under arrest at Prineville on a charge of being in a saloon. The real reason of their being held is the disappearance of two girls, for which they are thought to be responsible.

Marshfield Tuesday by a vote of 393 to 51 consented to the sale of the terminal railway franchise to the Southern Pacific.

Gresham will have a 25-cent round-trip fare to Portland during the fair there.

Rev. Frank P. Whitcomb, aged 50, a Baptist minister of Aurora, died in a Portland hospital Tuesday. He had been an invalid for years.

The Neahoxie hotel at Gearhart Beach, formerly the old Gearhart hotel, and an old landmark, burned Wednesday night. Loss about \$25,000.

Mrs. Margaret Hendricks, a pioneer of 1852, died at Springfield Monday, aged 75.

At the U. of O. 113 students expect to receive diplomas next June.

The coroner's jury in the case of Mrs. Hatfield, who died so mysteriously at Forest Grove a few days ago, found that she came to her death from causes unknown.

Sixty colonists arrived in Portland Wednesday from the east, the first in installment of the season's expected rush.

#### Shy of Sailors.

[UNITED PRESS LEASED WIRE]  
San Francisco, March 20.—Because shipping men say, there is a shortage of 5000 seamen on the Pacific coast, vessels here are having great difficulty in filling their crews. The barkentine John Smith was forced to postpone a scheduled sailing here today for this cause.

Andrew Furseth, secretary of the sailors' union, says the whole membership of that body would not supply the shortage in the Alaska trade alone.

#### Sealed Bids Invited.

Notice is hereby given that the common council of the city of Salem, Oregon, invites sealed bids for the making of an improvement of Church street in the city of Salem, Oregon, from the north line of Court street to the approach of the bridge over North Mill creek with cement pavement consisting of 6-inch gravel concrete, El Oso asphaltic concrete pavement No. 1 consisting of 4-inch hydraulic cement base and 2-inch wearing surface, El Oso asphaltic concrete pavement No. 2, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 3, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 4, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 5, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 6, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 7, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 8, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 9, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 10, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 11, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 12, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 13, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 14, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 15, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 16, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 17, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 18, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 19, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 20, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 21, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 22, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 23, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 24, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 25, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 26, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 27, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 28, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 29, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 30, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 31, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 32, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 33, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 34, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 35, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 36, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 37, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 38, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 39, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 40, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 41, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 42, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 43, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 44, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 45, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 46, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 47, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 48, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 49, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 50, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 51, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 52, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 53, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 54, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 55, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 56, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 57, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 58, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 59, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 60, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 61, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 62, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 63, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 64, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 65, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 66, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 67, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 68, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 69, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 70, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 71, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 72, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 73, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 74, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 75, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 76, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 77, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 78, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 79, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 80, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 81, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 82, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 83, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 84, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 85, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 86, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 87, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 88, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 89, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 90, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 91, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 92, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 93, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 94, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 95, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 96, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 97, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 98, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 99, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 100, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 101, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 102, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 103, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 104, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 105, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 106, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 107, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 108, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 109, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 110, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 111, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 112, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 113, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 114, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 115, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 116, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 117, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 118, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 119, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 120, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 121, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 122, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 123, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 124, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 125, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 126, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 127, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 128, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 129, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 130, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 131, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 132, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 133, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 134, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 135, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 136, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 137, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 138, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 139, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 140, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 141, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 142, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 143, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 144, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 145, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 146, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 147, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 148, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 149, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 150, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 151, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 152, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 153, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 154, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 155, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 156, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 157, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 158, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 159, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 160, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 161, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 162, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 163, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 164, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 165, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 166, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 167, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 168, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 169, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 170, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 171, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 172, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 173, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 174, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 175, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 176, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 177, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 178, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 179, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 180, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 181, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 182, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 183, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 184, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 185, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 186, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 187, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 188, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 189, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 190, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 191, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 192, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 193, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 194, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 195, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 196, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 197, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 198, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 199, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 200, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 201, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 202, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 203, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 204, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 205, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 206, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 207, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 208, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 209, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 210, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 211, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 212, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 213, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 214, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 215, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 216, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 217, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 218, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El Oso asphaltic concrete pavement No. 219, consisting of 4-inch hydraulic cement base, and 1 1/2-inch wearing surface, El
