Owing to damage done to flow beds in years past by incompetent automobile drivers who insist on going through the capitol grounds, some of the flower beds along the driveways have been done away with, and the strip planted with grass. It is not easy for the driver to negotiate the curves of the capitol grounds, but they all try it.

A complaint was filed in the circuit court this morning by Maggie C. Bartch against Geo. E. Quiggle et al., in which the plaintiff is seeking to recover \$3,000 alleged to be due on a promissory note given by the defendants.

Assistant Attorney-General DeLong today held that the new medical law will not permit a student to take an examination in a few subjects at a certain time and later take the balance. A WORD TO THE STOREKEEPER What kind of advertising are the manufacturers whose goods you handle doing for you.

Are they advertising merely to create a DESIRE for their products. Or are they really trying to create a DEMAND.

General publicity may create desire for an article, but the only kind of advertising that benefits the retailer is the kind that creates demand—the kind that brings customers direct to the store.

The one effective way of linking the retail store with nationally distributed merchandise is to use daily newspaper space.

You, Mr. Retailer, understand the value of newspaper advertising. Next time you talk with a manufacturer who wants to help you sell his goods through advertising tell him what you know about the efficiency of The Capital Journal and other good newspapers.

A letter for a printer named McCausland has been received at The Capital Journal, and is held awaiting his call.
