Hal Hibard Camp No. 5, Spanish War Veterans, will hold a social this evening at the armory.

The state tax commission will soon commence listing all warranty deed transfers in the state for the purpose of assembling reliable data upon which to apportion the state tax and that against public service corporations. The commission gathers the information annually, but plans to make it more complete this year than last.

It is rumored about the city today that the penitentiary authorities are anxious to get rid of Carrie Kirsch, who is serving a sentence in the penitentiary for manslaughter, for the reason she is causing all manner of trouble. It seems that Mrs. Kirsch is one of the most difficult charges to manage among the five women prisoners in the penitentiary, and that for this reason the authorities would recommend a parole in her case.

Bert Van Cycle, a trusty at the penitentiary, made good his escape last Saturday while at work on the outside of the institution. The prisoner simply walked away without any of the guards or other convicts noticing him, and up to the present time has not been apprehended. Van Cycle was sentenced for the crime of larceny from a dwelling in Jackson county. He was serving an indeterminate sentence of from one to seven years.

T. G. Bligh, manager of the Bligh theatre, now boasts of being the possessor of the largest diamond in the state. The beautiful gem cost the theatre man \$1500 and is about the size of a robin's egg. The "stone" is set in a ring and shows up on the owner's hand like a twenty-dollar piece among a pile of worthless poker chips. Mr. Bligh declares that he has the satisfaction of having one mit, at least, worth considerably more than face value.

Announcement that R. A. Harris, state printing expert, would resign in a short time created no surprise at the capitol, as he had some time ago stated that he intended to embark in business for himself. Harris has been in office since 1910, his appointment being the first made by Governor West. His controversy with State Printer Dunway has been prolonged, and is still being waged, both sides claiming to have the best of it.

Advices received at the state capitol indicate that the O. W. R. & N. Co. is making good progress in building its road westward to Juntura. Eventually the road will connect with a line being constructed eastward from Eugene. It is planned to have trains running as far as Juntura before the close of the present year. The new line will open an immense area to development.
