## ALASKAN COAL FOR THE AMERICAN NAVY

Naval Man Points Out That in Case of War We Would Have to Have It.

[UNITED PRESS LEASED WIRE.] Washington, D. C. May 19.—A strong plea for Alaskan coal for navy use on the Pacific coast was voiced today before the senate committee on territories by John Higgins, a navy paymaster.

The navy, according to Higgins, is using \$250,000 tons of coal annually on the Pacific coast, and it is all shipped from Norfolk and Baltimore.

"In case of war," said Higgins, "the government would be forced to demand the service of all colliers, and this would practically paralyze all private industry."

David Boyd, a member of the navy engineering bureau, said that preliminary tests indicated that Alaskan coal was entirely satisfactory.

### HIRED WOMEN TO COMMIT ARSON

London, May 19.—Hiring of women of the lower class as members of their "arson squads" is charged against militant suffragettes following the ar-

rest here today of Nellie Robinson, described as a servant. She was arrested outside the famous New College chapel at Hamstead and admitted, according to the police, that she was awaiting the arrival of two suffragettes, under whose direction she was going to set fire to the church.

When the woman was brought before a police magistrate she dryly remarked that she "seemed to be in course of training as a professional petroleum incendiary under miscreants worse than herself."

### He Has America's Reply.

[UNITED PRESS LEASED WIRE.] Washington, May 19.—At 4 o'clock this afternoon Secretary Bryan asked Ambassador Chinda to call at the state department to receive the American reply to Japan's note of protest against the California anti-alien land bill.

### Exhibits Duty Free.

[UNITED PRESS LEASED WIRE.] Washington, May 19.—A bill exempting from duty all exhibits at the San Diego exposition was passed by the senate today. It provides that exhibits sold after the exposition has ended will be subject to duty.

When a newspaper starts a circulation contest it shows a sign of weakness. It shows that its circulation has been badly cut into by the opposition paper—that the other paper has been taking away its subscribers. What's the answer? Read The Capital Journal for all the news.

It's a pity those thousands of sacks of spuds that will be thrown away could not have helped to make pork, beef and milk.

At last the Beavers are ahead of the Sacramentoians.

The world owes us all a living, and some break into the penitentiary to collect it.

A man seldom gets a chance to propose any more. The best he can do is to file a protest.

A man who got rich in the poultry business says his hens laid the foundation of his fortune.

How few are the female blacksmiths, yet how numerous the women who are expert wielders of the hammer.

Read The Capital Journal. The paper is sold on its merits—a contest not being necessary to secure circulation.

It's as sad to see a rich man with a poor appetite as it is to see a poor man who can't get to the lunch counter.

Free wool may not make all-wool clothing any cheaper to the consumer, but it will be one evidence of the demolition of the tariff wall that has sheltered so great an amount of robbery and other iniquity.

Governor Johnson may have thought though he did not say, what the late Governor Pennoyer wired on one occasion to President Cleveland in effect: "You attend to your own business, and I will attend to mine."

## GRANDMOTHERS USED SAGE TEA TO DARKEN HER FADED GRAY HAIR

Mixed With Sulphur It Makes Hair Soft, Beautiful—Cures Dandruff.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But this brewing at home is messy and out-of-date. Nowadays skilled chemists do this better than ourselves, by asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy."—you will get a large bottle for about 50

cents. Some druggists make their own, which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says his customers insist on Wyeth's Sage and Sulphur, because, they say, it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. Do this at night and by morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. J. C. Perry.
