

AS GOOD AS FISHER'S BLEND is the regular argument of all who strive to push the sale of flours made wholly of Western wheat.

As good as FISHER'S BLEND, they say, but COSTS LESS. And right there is where the force of the argument fails, for no amount of argument and salesmanship can produce a flour made wholly of Western wheat as good as FISHER'S BLEND.

The price of FISHER'S BLEND is a little more per sack than the price of other flours for the very plain and simple reason that FISHER'S BLEND isn't one of the other flours nor anything at all like them. If it was it would cost what other flours cost and you would get no more for your money.

The price of FISHER'S BLEND—a few cents more per sack than flours made wholly of Western wheat—is regulated by the cost of the superior and carefully chosen materials that go into its composition. In no other flour on the market is the scientific BLEND of EASTERN HARD WHEAT and WESTERN SOFT WHEAT to be found.

LARGER ORGANIZATION FAVORED IN REPORT

Committee on Formation of Booster Club Recommends Opening New Quarters Here.

The report of the committee that was recently appointed to confer with the board of directors of the Ilihee club and the Board of Trade was rendered last evening at a meeting held in the Board of Trade rooms. It was decided that the best possible thing for the city was the proposition of forming a new commercial club to be laid aside until after the cherry festival.

On motion it was decided to give a copy of the report of the committee, as well as a set of laws governing the present club and also a copy of the reply of the directors of the Ilihee to each of the papers for publication. The reports are as follows:

"This committee was named at a mass meeting held at the Board of Trade rooms to organize a new commercial club. It was appointed to confer with directors of the Board of Trade and officials of the Ilihee club on ways and means for the purpose of effecting a consolidation of all elements into a larger commercial organization, combining all citizens of Salem and suburbs who are interested in public work, building a greater Capital City and solving the problems of keeping our community in the front rank of Pacific coast cities.

Not Room Enough.

"After spending some time and giving this matter our best thought, we have unanimously come to the conclusion that there is not room in a city of this size for two successful commercial organizations. We believe that what will serve this city best is for all to unite in maintaining one large organization, to be known as the Salem Commercial club, that will not antagonize, but will support and strengthen existing organizations, and at the same time be able to handle the publicity work of the community better than ever before.

"We favor merging the Commercial club with the Ilihee club, but not by becoming a mere dependent of it. We favor a larger organization under the name of the Salem Commercial club, with publicity work as its greater purpose and social features secondary. We favor adopting the plan worked out tentatively by the directors of the Board of Trade and Ilihee club to the extent of fitting up new quarters for a commercial club in the Catlin & Linn building, that shall become the public commercial headquarters of this city and open to everyone, and with appointments such as will be creditable to the second city in the state. The united greater Salem Commercial club organization would have these quarters fitted up, which we have found could be done at an expense of about \$1000, and the monthly rent of \$50 also to be paid by the commercial club, which would then have its own home and maintain its own headquarters, with a salaried secretary and dues of members not less than \$1 per month. We believe such an organization could enlist the support of 500 members. Publicity work would have to be supported by a special fund, to which all can contribute according to their ability, as they feel inclined. We would recommend that members of the commercial club desiring to enjoy the social privileges, become eligible by paying monthly dues, but that members of the commercial club be not required to pay any initiation fee.

"W. S. LOW, "D. J. FRY, "M. O. BIREN, "GRAHAM P. TABER, "E. HOOPER"

The committee found that the Board of Trade is amenable to certain rules and regulations made especially for its benefit by the Ilihee club, which are as follows:

On motion of Mr. Roth the publicity department was welcomed to the Ilihee club. His motion follows:

of the board of trustees of the Ilihee club that a hearty welcome be extended to the citizens who desire to form a new commercial club to join with the Ilihee club along lines as laid down by the supplementary articles of incorporation and amendment of the by-laws as adopted at special meeting of the Ilihee club on February 17, 1913."

Laws Governing Case. The laws which govern the publicity department looked into by Low also, are as follows:

"In accordance with a resolution adopted by the club at a special meeting held October 9, 1912, the board of directors submitted the following amendments and proposition to file supplementary articles of incorporation, same to be voted upon at a special meeting called Monday evening, February 17, 1913, at 8 p. m.:

"1st. The mental culture and physical development of the members of this society.

"2d. To encourage and develop the material welfare of the city of Salem, Oregon, and its surroundings, and to circulate useful information concerning the same and generally to promote the growth and prosperity of said city, and of the state at large. In order to more fully carry into effect the above specified objects, said corporation shall bond, sell, buy, own, lease and mortgage personal and real property, borrow money on negotiable paper, receive subscriptions, dues and donations and expend the same in the manner calculated to subserve the foregoing purposes."

"To the by-laws, Art. 12, Sec. 1, amend to read as follows: 'The entrance fee for members to the club shall be \$10, and the monthly dues shall be \$1.50.'

"To the constitution to append a new article, No. VII.

Promotion Department.

"The promotion department of the club shall be under the control and management of a board of six governors, all of whom shall be members of the club.

"Only subscribers to the 'Promotion fund' shall be entitled to vote at the election of the board of governors of the promotion department, or have any voice in its affairs or management.

"The board of governors shall be governed by its own set of by-laws.

"The promotion department shall be in charge of a manager, who shall be employed by the board of governors upon such terms as may seem wise to them, but he shall not be a member of the club, except upon the same terms as any other resident member.

"No money expended by the promotion department shall be taken from the club funds, except by a majority vote of the members present at a regular or special meeting of the club, nor shall any money expended by the club be charged to the promotion department unless such expenditure shall have been authorized by the board of governors of the promotion department by a majority vote."

A Worker Appreciates This.

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley Kidney Pills, and they have done what other medicines failed to do, and now I am doing and feeling fine. I heartily recommend Foley Kidney Pills." Foley Kidney Pills do not contain habit forming drugs and are tonic in acting, quick in results. They will help any case of kidney trouble not beyond the reach of medicine. Dr. Stone's Drug Store

BERNI GIANT SERENADUM WITH SELLS-FLOTO

Even if you do not care to visit the performance of the Sells-Floto circus when it comes here on June 7, it is suggested by the management that you go down to the circus lot and listen to Berni's Giant Serenadium, which will give continuous concerts during the afternoon and evening.

This is the largest musical instrument that was ever made portable so that it could be carried on wheels. It was built at a cost of \$20,000, and rivals in excellence the great organs of Salt Lake or St. Peter. Its repertoire includes all the popular selections, operatic gems and classic renditions. You will find it near the main entrance of the big tent. The concert is free to all those who care to enjoy it.
