WHAT RITCHIE WILL DO NOW IS PROBLEM

Champion Lightweight Is Anxious to Make Trip to Europe, and It Is Possible He Will Go.

EXPERT NAUGHTON TALKS ABOUT FIGHT SITUATION

No Tear-in Fighters Worth While Mentioning Are Left and Clever Fellows Are in Limeright.

By W. W. Naughton.

San Francisco, July 10.—Now that Willie Ritchie has shown himself every inch a champion—that is, by comparison with contemporaneous lightweights which is the only way to judge a rising young fighter—the question is, What will he do next?

There is some talk of Ritchie taking a trip to Europe. If his wishes lie in that direction no one can say him nay, for he has entrenched himself in such a way with fair-minded sports that no chance remains to taunt him with being afraid of the issue with any of his best living.

The story goes that Ritchie long ago set his heart upon a trip through older lands and that he wants to take advantage of his present position and earning power to fulfill his desire. He is sensible enough to know that a ring man's grip of the topmost rung is at all times insecure and he thinks it best to indulge a long-felt hankering while things are coming his way.

This is a better way of putting it than asserting that he is in need of a rest, for Ritchie is only just back from a six months' layoff and can hardly boast jaded muscles and frayed nerves.

Whenever Willie gets ready to resume fistie activities he will find several worthy opponents. Freddie Welsh wants a crack at the title and so does Harlem Tommy Murphy. Leach Cross has the bee buzzing in his bonnet and Ad Wolgast has begun agitation for a return match.

In Wolgast's case the fact that his advances are not taken over seriously is due to himself. Wolgast has had several chances to redeem himself, and he has not trained sufficiently on any one occasion. He could easily make himself a strong drawing card with the public if he would forsake city life for a few months and spend his time on his farm. Then if he came back armed with a physician's certificate setting forth that he had stored up plenty of vitality during his sojourn in the country he would attract attention from the promoters. In the writer's opinion Wolgast is far from being a back number.

Discussions have arisen in England and Australia as to whether the "tear-in" fighters of the present day are better boxers than the clever fellows who made a business of pugilism 15 or 20 years ago. Some of the arguments used in support of the various views expressed are highly interesting, but one very important matter has been overlooked. There are no "tear-in" fighters now—at least none worth talking about. The clever fellows have come into their own again.

Take the smaller men. When Terry McGovern, with bent back, lowered head and rapidly revolving fists, began

demolishing the nations of the earth, the opinions that many persons held in respect to the noble art of self-defense were revolutionized. After the Brooklyn whirlwind had run amuck for a year or two, grave doubts existed as to whether there was any scientific side to boxing, for had not the game developed a youth who, by determined onslaught, could upset all ideas of leading, countering, timing, sidestepping and what not?

And when Terry spread-eagled Peddler Palmer, the pride of British pugdom, in one round, the belief that forthrightness was the one and only antidote for cleverness became firmer grounds than ever.

Terry strutted his brief period and then went under to another "tear-in" fighter in the person of Young Corbett. It is worthy of note, by the way, that each of these "tear-in" specialists fell a victim to a fellow who also operated along "tear-in" lines. Corbett did fairly well until he ran foul of Battling Nelson, who was possibly the most headlong fighter of them all—greater even than Terry McGovern, the founder of the "tear-in" dynasty.

Nelson did more than any of them to show that cleverness could be made to succumb to direct methods. Among other things he won from Joe Gans, who was possibly the most scientific lightweight the world had ever known.

When Nelson's time came it was another "tear-in" fighter who accounted for him. This was Ad Wolgast, and while Wolgast was still untroubled with the spasms of appendicitis, the toughest experience he ever had was with still another "tear-in" fighter, towit, Knockout Brown.

With the passing of Wolgast the "tear-in" ledge seems to have been worked out. Bud Anderson, the Vancouver lightweight, has been disposed of. Tommy Murphy tears in occasionally, but does not confine himself to that style of milling. Tommy told the writer once that he aimed to fight close when opposed to a clever opponent and box cleverly when in front of a rusher.

From the lightweights down, the cler lads are in the ascendant again. Packey McFarland, who can claim to be a lightweight now that the weight limit has been hunched, is nothing if not clever, and unless Jack Britton has changed tactics since he went East he is also a boxer of the brainy, resourceful stamp.

Jimmy Duffy, the Lockport boy, who is fast forging to the front, is another exponent of scientific pugilism, while Ritchie, Rivers, Mandot, Leach Cross and Freddie Welsh are all performers of the "hit, step and get away" school.
