It is semi-officially announced that the recent trade between the New York and Chicago clubs of the American League, involving Hal Chase, Rolfie Zeider and Borton, will be subjected to an investigation by the league authorities. Manager Chance claims he was assured by Manager Callahan, of the White Sox, that both Zeider and Borton were physically capable of playing big league ball. This statement, according to Chance, was far from being a fact, since Zeider had been spiked by "Ty" Cobb in Detroit two weeks before the trade, and was under the care of the club trainer and physician, as a result of the accident, at the time of the trade. It is said that Borton proved far from being the player he was said to be.

batting, and then Seaton Alexander began to show signs of distress. Their arms were sore, the team was generally fagged out, and there was no time to rest. The Giants had a large sized reservoir of pep and fight stowed away that had never been touched, and when the dust cleared away, the Phillies began to show signs of going down. The Giants are no naturally the favorites for the National League pennant. The Phillies have shown that they are running on just what they have on the field, and nothing more. There is not a reserve kick in their system. If they pull together somewhat and approach the Giants, the same heart-rending beating off may have to be administered again. If they should again take the lead over the Giants they would certainly be marked as a remarkable ball team to keep the pace considering the strain under which they would be working. The Giants have moved deliberately, surely and with telling effect and have a lot left for a driving finish if it is necessary. Manager McGraw does not fear the Phillies in the least. He says if his team is threatened at all it will be by the Cubs. However, Marquard and Mathewson are looking up their list of shoots not to toss to Frank Baker and those planning to walk cross-country to witness the world's series are starting toward New York or Connie Mack's ball park in Philadelphia.

If Harry Payne Whitney carries out his threat to ship Whisk Broom, the sensational son of Broomstick, to Europe, the real class that has been shown during the summer racing season will be lost to the country. And the handicappers may be responsible for driving Whisk Broom away, if he goes. After winning the Brooklyn Handicap, Whisk Broom carried 139 pounds in the revival of the Suburban and won his race, establishing a new record for the mile and a quarter of two minutes flat. For the Excelesior handicap, the big race of the Metropolitan Jockey Club's meeting was assigned 142 pounds. The distance for this race is a mile and a sixteenth. The attempt to revive racing in New York has met with some success, and even better things are expected next year. The opening at Belmont Park, Memorial day, put the association in good financial shape from the start.

The suspension of Ty Cobb, of the Detroit club for his altercation Monday with Empire Hillbrand at Detroit was automatically confirmed yesterday by President Johnson, of the American league. Johnson said he would fix the time of the suspension when he received the official report of the case.

has been sold to the St. Louis National League club. It is said the purchase price was \$3000.

President R. B. Johnson, of the American League, in a statement last night said regarding the removal of Jake Stahl as manager of the Red Sox: "I deeply regret that Mr. McAleer acted so hastily. There was no reason for relieving Stahl of the management of the Boston team, and he was entitled to every consideration the Boston club and the American League could give him."

The Markets

The hop market remains firm at 15 cents for the new crop. Dealers were offering that price Wednesday with little success, as growers are standing pat in spite of reports of a big crop the world over. Catlin & Linn have recently purchased 80,000 pounds, 60,000 of which are for the English market. Wheat is at a standstill, awaiting the completion of harvesting. Country produce generally is light, and demand strong, stiffening prices somewhat. The fruit market is also firm, with supplies light and prices, in some cases showing a slight rise. Poultry receipts were light, but prices show no material change.

ROYAL OAKS LIKE WAY THEY WERE WELCOMED

That Salem people are good entertainers and that their hospitality is much appreciated by visitors, is attested by the following letter received today by the Salem Commercial Club from the chairman of the Royal Oaks committee, Fred E. Reed. "The excursion of the Royal Oaks to the Portland Rose Festival is now a memory, but what a wonderful memory it is. "Our boys have not ceased talking enthusiastically about the trip, nor will they for a long time to come. No small part of this pleasure centers in the thought of the splendid way Salem entertained us that Sunday evening. "For myself personally and in behalf of all the other members of the party, I thank your splendid organization for your kindness to us. "That Sunday marked the beginning

CURBING POWER OF KING

Christiana, Norway, July 17.—Norway's king henceforth will be merely an ornamental decoration—a mere puppet—if a measure which has been submitted to the national Storting (parliament) becomes a law, having granted woman suffrage which has placed women upon absolute equality with men, the Storting, through a special committee, named today, began active steps to put through a measure which will take from the king his power of veto and approval of laws passed by that body. Only the signatures of a responsible minister will be necessary to make enacted bills law. The measure being considered also would abolish all orders and de-
