DEMOCRATS RAPPED BY REPUBLICAN

Senator Nelson Says Mulhall Inquiry Is Being Manipulated for Effect.

DEMAND IS GRANTED BY COMMITTEE

McClave Will Be Permitted to Testify in His Own Behalf Tomorrow.

Washington, July 18.—Flat charges against the Democrats were made during the morning session of the senate hearing today by Senator Knute Nelson, of Minnesota, a Republican member of the Overman committee. They were voiced when Senator Nelson interrupted the progress of McClave's testimony to exhibit a telegram from Wood McClave, of New Jersey, asking permission to testify before the probe.

Nelson demanded that McClave be permitted to testify. There was no objection, and McClave will appear before the probe tomorrow. McClave is the Republican candidate for congress from the sixth district of New Jersey. A special election is to be held next Tuesday to fill the vacancy.

During Mulhall's examination yesterday, Senator Reed jumped the hearing three years out of its chronological order. Mulhall might tell of the N. A. M.'s activities in 1910 in behalf of McClave. Resuming his testimony today before the senate "insidious lobby" probe, Martin M. Mulhall, of Baltimore, described his movements in the fall of 1908, while assisting in the re-election of congressmen favor by the National Association of Manufacturers.

"I was ordered to sleep in my clothes," said Mulhall, "and did so. I simply had to put the republican ticket across, and we did."

Mulhall declared he and other employees of the N. A. M. worked day and night in Indiana in an effort to save former Congressman James Watson, who in 1908 was defeated for governor.

Twenty-three thousand letters, designed to discredit Mulhall, will be introduced by the N. A. M.

JUSTICE IS WITNESS IN TRIAL OF TOBIN

Defendant Is Charged With Embezzlement of Money Belonging to Ed. Croisan.

The case of the State vs. George W. Tobin, is still in the hands of the lawyers and it is not likely that the jury will receive it until late this afternoon owing to the number of witnesses to be examined and the many arguments being indulged in by both the state's representatives and those of Tobin. The defendant is charged with the crime of embezzlement committed by converting to his own use money which allegedly had belonged to Ed. Croisan.

Hon. C. L. McNary, justice of the supreme court, was called as a witness this morning. Judge McNary testified that the defendant and himself had words together concerning the sale of some wood which belonged to Croisan, and also described other phases of the affair in which he acted as counsel for Croisan. A ripple of laughter was caused when Attorney Winslow, who is one of Tobin's counsel, asked Judge McNary if he thought that he could be connected with a wood corporation and still conscientiously serve as a justice of the supreme court. Judge McNary replied that that was a matter for the jury to decide, but in view of the fact that the corporation he was representing, or had been representing, was a charitable one, he did not see any reason why his present office would be affected in the least.

Indian Hunters to Protect Game

Six Hundred Volunteer to Obey State Law, Although Treaty Right Permits Them to Disregard It.

[UNITED PRESS LEASED WIRE.] North Yakima, Wash., July 18.—Six hundred Indian hunters of the Yakima reservation have declared themselves today in favor of the game protection measures adopted by Yakima county and will take out hunting licenses. It is not necessary for them to do so, since their treaty rights allow them to hunt and fish without regard to the white men's law.

At a colliery recently held at White Swan, at which Game Warden Frank Bryant was present, Chief Menasco called attention to the fact that the game security was due to the white men who kill for fun, whereas the Indian kills for use only. The Indians have agreed to refrain from hunting deer and other game in the sections which are closed by the state law.

CHERRIANS WILL GO TO PENDLETON FEST

Booster Organization Will Make Effort to Get as Many as Possible Out to Bound Up.

That the members of the Salem Cherrians club will go to the Pendleton Round Up in a force was decided last night at a meeting held in the old armory. The new booster organization will try and get as many people as possible to go to the annual affair, which is to be held in Pendleton September 11, 12 and 13, and if a sufficient number can be registered a special train, made up of Pullmans, chair cars and diners will be secured.

It is the purpose of the club going to Eastern Oregon to boost Salem, and each member will make it a point to advertise the Capital City. A special committee to arrange the excursion was appointed, which is composed of C. E. Albin, August Hucklestein and Stanley Barton.

The Cherrians' new uniforms will soon be on hand, and Salem will then be represented by a band of men dressed in the most original clothes in the country. The suits will consist of erome serge, cream colored hats, red belts and white shoes. The members have been measured and they are probably now on the road.

The members last night were enthusiastic over the proposition to go to Pendleton, and all local people will be apprised of the fact that they are wanted to make up the big excursion.

ALL COMPANIES INVOLVED

Corporation Commissioner Watson yesterday afternoon announced that all companies with stocks or bonds to sell, even though they are not offered at the present time, come within the purview of the blue sky law. He said that the only investment companies that are exempt are those that have issued and sold all their securities. All companies, he holds, that have stocks or securities not contracted for prior to June 2 must live up to the provisions of the bill.

Mr. Watson also announced that a number of companies were sending in preliminary statements and exemption affidavits, one being virtually a contradiction of the other.

ONE WOMAN DEAD AND ANOTHER BADLY HURT WHEN AUTO OVERTURNS

MEN ESCAPE MUCH INJURY

Little Daughter of Dead Woman Furnishes Pathetic Incident of Tragedy in Seattle.

[UNITED PRESS LEASED WIRE.] Seattle, Wash., July 18.—Mrs. Frances E. Lennon, wife of Arthur J. Lennon, president and manager of Lennon's hosiery and umbrella store here, was killed, and Mrs. Marie Clemmer, wife of James Q. Clemmer, manager of the Clemmer theatre, was severely injured when an automobile, driven by Clemmer, crashed into a telephone pole at Meadow Drive Boulevard and Green Lake Boulevard this morning at 3:30 o'clock. Lennon, who was in the rear seat with his wife, was thrown out and escaped with only slight injury.

The Clemmers and the Lennons live in the same block. They are ardent automobilists, and the warm moonlight night lured them into taking a tour of the boulevards around Lake Washington, after they had viewed the Potlatch entertainment.

Car Skids on Corner. On the return trip Clemmer was speeding along at about 25 miles an hour. He took the corner where the accident occurred at so high a speed that the car skidded from the road into the gutter, where it hit a telephone pole and turned over. Mrs. Lennon was instantly killed.

Mrs. Clemmer sustained a cut on the forehead and bruises under the chin. She was unconscious when taken from under the car. Her husband was not cut, but suffered a severe shock, and was removed with his wife to the Noble hospital, where they were attended by Dr. McKinney.

Lennon sustained severe contusions of the face, but was able to go home unattended.

A pathetic incident of the tragedy was related when Ruth, the 8-year-old Lennon girl, walked into the home of a neighbor, and, choking back her sobs, broke the news that she was motherless.

Mrs. Lennon was a prominent member of Seattle's social set, as are the surviving members of the party.

WOMEN VIGILANTES RIDE WOMAN ON RAIL

Dump Her Into Sea of Mud, After Tearing Off Part of Clothing, and Stone Her Out of Town.

[UNITED PRESS LEASED WIRE.] Waukegan, Ill., July 18.—John Richardson, a crippled store-keeper at Volo, near here, sought warrants today for fifty "women vigilantes" who kidnaped his wife, rode her on a rail in the streets of the town and dumped her into a sea of mud. He says he had mortgaged his store for \$1500 which he gave to his wife, and that she has gone to Chicago.

Will Durrill, Richardson's brother-in-law, also left Volo, and his whereabouts is unknown. Richardson denies that there is anything wrong between his wife and Durrill.

The mob of infuriated women seized Mrs. Richardson, tore off part of her clothing, placed her on a rail, pelted her with mud and stones and ordered her to leave town. Then the "vigilantes" went to Durrill's residence, but he had left for parts unknown.

FIRST CASE OF MAD DOG COMES AT MEDFORD

HEARING IS ORDERED ON ELECTRIC WRECK

[UNITED PRESS LEASED WIRE.] San Francisco, July 18.—As the result of the disastrous wreck on the Venice railway, near Los Angeles last week, in which fourteen lives were lost, and one hundred passengers injured, the state railroad commission this afternoon will order a hearing to be held in Los Angeles July 22.

The order will require the Pacific Electric Railway company to appear before the commission in the southern city for an investigation of the safety of its lines and equipment. The corporation will also be required to show cause why it should not be compelled to establish a block signal system on this line. It is estimated that the cost of such a signal system will be close to \$1,000,000.

JURY STILL OUT

[UNITED PRESS LEASED WIRE.] Portland, Or., July 18.—At 11:30 today the jury which heard evidence in the trial of Edmund E. C. Von Klein, charged with larceny of jewels valued at \$3500 from Miss Ethel Newcomb, was still deliberating. The case was given to the jury at 1:30 yesterday. Predictions of a hung jury are being freely made.

DEADLOCK CONTINUES AND RAIL MANAGERS ARE FIRM IN DEMANDS

Ready to Fight to Maintain Stand for Arbitration of All Troubles.

NO STRIKE RIGHT AWAY

Railroad Organizations Will Wait Until Senate Confirms Mediation Commissioners.

[UNITED PRESS LEASED WIRE.] New York, July 18.—Presidents Lee and Garretson, of the trainmen's and conductors' brotherhoods, ordered this afternoon that all district leaders remain within call in case of a sudden decision to strike. Another conference was held late today between the employees' representatives and the managers' committee.

New York, July 18.—The deadlock between the railroad managers and the committee of one hundred representing 80,000 trainmen and conductors of eastern lines, over the question of submitting "all grievances" to the federal mediation commission, provided for in the Newlands amendment to the Erdman act, continued today, with both sides apparently determined not to recede from their positions.

The railroad managers denied that they had practiced trickery in framing Monday's letter, and declare that the "all" in the agreement to arbitrate was not intended as a "joker." They are ready to fight to maintain the stand they have taken, it is asserted.

Ultimatum of Employees. The trainmen's committee expect that the railroads will capitulate, following the receipt of the ultimatum from their employees that the railroads must withdraw the eight demands which the managers propose to submit to arbitration, or there will be a strike. The railroads, according to the trainmen's committee, could have selected no surer way of driving the men from the service than by insisting on arbitration of their own grievances at this time.

The railroad managers held a session this morning, at which it was expected Seth Low, president of the National Civic Federation, would present mediation suggestions concerning the arbitration. Before the meeting Low pointed out that the present attitude of the railroads was adopted after the White House conference.

The employees' committee maintains that when the railroads agreed to join the conference with President Wilson, the only question pending was the dispute over the trainmen's wage demands. Will Await Senate's Action.

Presidents Lee and Garretson, of the trainmen's and conductors' organizations, respectively, joined in a declaration that the employees would wait until the senate had confirmed President Wilson's appointments of mediation commissioners, and then, if the railroad insisted on submitting their grievances to the federal board, the men would refuse to sign the stipulation for arbitration and would strike.

Cannot Collect for Man Slain

Commission Holds That Father of Victim Cannot Recover Under Industrial Insurance Law.

[UNITED PRESS LEASED WIRE.] Olympia, Wash., July 18.—When a man at work gets shot down while employed at his machine, by a man with whom he has had words, his death is "not the result of a fortuitous event" within the contemplation of the industrial insurance law. So rules the commission today in rejecting the claim of Henry Franke for 75 burial expenses for his son Oscar Franke. As a result Franke has carried his case into the Chehalis county superior court.

Franke was shot last September by Theodore Pootros, both being employed at the plant of the Western Coeage company on Gray's Harbor. The parents made application for payment under the industrial insurance law but as it was shown that they were not dependent upon his earnings, they could make no recovery.

[UNITED PRESS LEASED WIRE.] New York, July 18.—President Lynch, of the National League, yesterday sent the following notice to all club managers: "If, with one or more runners on the bases, the pitcher (either by accident or intent) drops the ball while in the act of delivering the same to batsman or in throwing to first when occupied by a baserunner, the umpire will call a 'balk' and the runner or runners will advance one base. Please inform your players of the above."

CALIFORNIA TROUBLE IS BEING AIRED AGAIN

[UNITED PRESS LEASED WIRE.] Washington, July 18.—The controversy over the postponement of the white slave cases against F. Drew Caminetti in San Francisco, which culminated in the resignation of John L. McNab, as United States district attorney for northern California, was aired in the house today.

Representative Clayton, of Alabama, chairman of the judiciary committee, called up the report of that committee recommending that the Kahn resolution calling upon the attorney-general to submit to the house all correspondence in regard to McNab's charges be tabled. This brought partisan criticism from several Republican members, to which vigorous defense was made by the Democrats.

DR. MARIE EQUI MUST QUIT STATE

Prominent Oregon Woman Charged With Assault, Is Freed.

I. W. W. AGITATORS WILL BE ARRESTED

Orders Issued to Round Up All of Them and Charge Them With Vagrancy.

[UNITED PRESS LEASED WIRE.] Portland, Or., July 18.—Following the riotous disturbances here last night in which deputy sheriffs and police cleared the street of Industrial Workers of the World, their sympathizers and citizens, after nearly a hundred persons were struck with clubs and many knocked down by the officers, Sheriff Tom Word and Chief of Police Clark today issued orders to arrest all of the I. W. W. agitators that could be found in the city and charge them with vagrancy. Four arrests were made before noon today in the vicinity of the plant of the Oregon Packing company, where a strike of girl and women employees has been in progress for some time.

To Let Dr. Equi Depart. Dr. Marie Equi, one of the leaders of the band of women who attempted to speak on the streets last night, who was placed in the county jail, will leave the state before midnight, instead of facing trial on a charge of assault with a deadly weapon. Sheriff Word and Chief of Police Clark agreed to this today when friends of Dr. Equi asked that they be allowed to take the woman either to Seattle or California.

Mayor Albee today issued an appeal to the citizens of Portland to keep off the street at night during the present disturbances.

SEEKS TO ELIMINATE DIAZ AS CANDIDATE

[UNITED PRESS LEASED WIRE.] Washington, July 18.—Elimination of General Felix Diaz as a presidential possibility in the October election in Mexico, is believed by diplomats and politicians here today to be back of provisional President Huerta's move in sending Diaz to Japan as special ambassador to thank Japan for the latter's participation in Mexico's centennial in 1910. Diaz is scheduled to leave for Salina Cruz Saturday by special train.

It is believed here that the move means that Huerta is to be a candidate for the presidency, and if he is, it is admitted that he probably would win. If this should occur, it would add greatly to the embarrassment of the Wilson administration for its failure to recognize Huerta.

Secretary of State Bryan returned from his lecture tour and immediately went into conference with President Wilson.

NEW VOLCANO SIGHTED ON COAST OF ALASKA

[UNITED PRESS LEASED WIRE.] Tacoma, Wash., July 18.—Officers of the Pacific Coast Steamship company's steamer Delhi, in port today, discharging ore and marble from the north, believe they sighted a new volcano on the Alaska coast on the night of July 12 while steaming toward the sound. The Delhi was about 30 miles off Cape Chacon on the southeast coast of Alaska when the great light, to all appearances a volcano in eruption, was seen by those on board.

Chief Engineer Collew first noticed the light. At intervals it would flare up, presenting a brilliant sight and completely illuminating the landscape. It had all the characteristics of other Alaska volcanoes and appeared very much like the ones near Cook's Inlet and Sack of Belak's. The latter broke out in 1910.
