

BOON REFUSES TO STAND FOR SLIGHT

Boon Will Not Act Until Apology Is Forthcoming for Alleged Double-Crossing.

BOON IN BACK BY MEN HE CONSIDERED FRIENDS

He Had Absolutely No Intimation of Intention of Council to Elect Siegmund.

Boon W. T. Rigdon last night... the other members the worst... he had absolutely no intimation... he had no intimation... he had no intimation...

Boon W. T. Rigdon last night... the other members the worst... he had absolutely no intimation... he had no intimation... he had no intimation...

Boon W. T. Rigdon last night... the other members the worst... he had absolutely no intimation... he had no intimation... he had no intimation...

posed friends, without warning, not even given an opportunity to dodge. "I do not feel that I merited such discourteous and unmerciful treatment, and unless some satisfactory explanation can be given or apology made in order to place me in a proper light before the world, I must decline to further take part in your deliberations. "I have tried for several days to let the matter pass and forget it, but, gentlemen, I cannot do so. I am under a cloud and that cloud must be removed or I must rise above it."

Because there has been some legal question raised, the council decided to be on the safe side last night and proceeded to re-elect Siegmund acting mayor.

Notice of Assessment.

A resolution to require the recorder to publish a notice of assessment of the improvement of North Commercial street, from D to Columbia was adopted.

A motion by Councilman Brown that a warrant be drawn on the city library fund in favor of J. H. Albert for the sum of \$2250 was adopted.

A resolution in regard to intention to pave Mill street was referred to the city attorney in order that he might make it more certain that the requirement of the property owners that the total estimate of the city engineer be adhered to before work is commenced.

A petition of R. D. Catterlin and others asked permission for the construction of a six-inch sewer in Burlington addition. Referred to the sewer committee and the city engineer.

A petition for a crosswalk on Oak street on the west side of Eighteenth, was read and referred to the street committee.

An ordinance granting a franchise to the Oregon Electric railroad over Front and other streets to connect with the main line was laid on the table until the grade was fixed.

Bridge in Good Shape.

Southwick reported progress being made on the new North Liberty street bridge. The engineer said it was in first-class shape, said the councilman.

Following electric signs were reported correctly installed: Globe theatre, George Pettengill and Vlek Bros.

Macy was given authority to have bridge lights connected with "juice," and arrange to have a policeman turn it off and on.

The city engineer submitted an estimate of \$8039 in work done by the Geiger Company on Union street, and recommended that 75 per cent be allowed. Referred to street committee.

The bill of Orvin Van Patten for \$3650 for construction work on the North Liberty bridge was referred to the city engineer and bridge committee.

Stop Watches Bought.

The purchase of five stop watches, at a total cost of \$25, was authorized. The watches will be used by the police officers. Chief Shedeck reported catching six in short order by the use of the watches. The minimum fine is now \$25 and so the watch purchase will soon be squared.

The communication of property owners of the Fairmount district in regard to nothing being done in laying certain pipe was referred to the fire and water committee.

Hatch was authorized to buy sewer pipe at a cost of \$50, with the understanding that property owners on one block of South High put it in at their own expense.

Plans and specifications for the improvement of an alley in block 70 were approved.

The proposition of finding funds to do printing was re-referred to the ways and means committee.

Using Crushed Gravel.

That the Ambrose-Burdick company is preparing to use crushed gravel, instead of basaltic stone, in improving South High street, was the complaint made by property owners. It appeared that the contract was worded to provide for crushed gravel, but the company had promised, through a representative, to use basaltic stone. This promise was made at a meeting of property owners and the company was given the contract largely on the understanding that the stone would be used.

City Attorney Page explained that the company's contract gave it power to use crushed gravel. He said his ac-

GETS-IT for Corns, and Away They Go!

"GETS-IT" the New-Plan Corn Cure, Gets Any Corn Surely, Quickly. You'll say, "It does beat all how quick 'GETS-IT' got rid of that corn. It's almost magic!" "GETS-IT" gets every corn, every time, as sure as the sun rises. It takes about 2 seconds

"Never Could Do This Before. 'GETS-IT' Made Every Corn Vanish Like Magic."

to apply it, the corn shrivels up, and it's gone! Ever try anything like that? You never did. There's no more fussing with plasters that press on the corn, no more salves that take off the surrounding flesh, no more bandages. No more knives, files or razors that make corns grow and cause danger of blood poison. "GETS-IT" is equally harmless to healthy or irritated flesh. It "gets" every corn, wart, callus and bunion you've got.

"GETS-IT" is sold at all druggists at 25 cents a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago.

Attention was called to the misapp by Stolz.

Attorney Carson spoke against holding up the contract.

A remonstrance against the improvement of Court street, from the east line of Front to the west line of Commercial, was filed by W. R. Anderson and A. Bush. It was referred to the engineer to check. It is believed to be sufficient to prevent the improvement.

Special Election.

A special committee consisting of Siegmund, Minton and Jones, reported in favor of a special election September 10, 1913, to amend the charter so as to make it possible to dispose of sewer bonds. Later in the meeting ordinances covering the matter were introduced.

A motion that the city engineer be provided with more help in order that he could keep up with the work was adopted. Macy state that assessments were sometimes 60 days late and Turner said the engineer was so rushed that the contractor was improving one street before the grade was established.

Church Street Kicking.

Brown reported that complaints were being made that Church street paving, recently finished, was disintegrating rapidly. Hatch reported that samples of the paving had been sent to Portland. The work was completed by the Clark-Henry company a few days ago and property owners are dissatisfied. The matter was referred to the street committee and the city engineer.

Matron Ordinance.

Minton raised some objections to the police matron ordinance, asserting that it was conflicting as to the power of the matron to make arrests and the fact that she would be required to be under the orders of the police chief at all times. It was referred to the city engineer.

THIS WOMAN LEAVES TWO HUNDRED DESCENDANTS.

Philadelphia, July 29.—Philadelphia today challenges the country to present a parallel to the case of its oldest woman inhabitant who died recently at the age of 109 years old, Mrs. Freda Vidletzky. Mrs. Vidletzky had never been sick in bed and she died without enduring any suffering. Her great-grandchildren today presented papers to the city authorities which prove beyond any doubt that their grandmother was 109 years of age. So far as is known she was the only person living who had

personal recollection of Napoleon Bonaparte.

According to her great-grandson, Philip Narninsky, 830 Pearce street, at whose home she died, more than 200 direct descendants, including several children, 11 grandchildren and 74 great-grandchildren in this country today are mourning her death. Narninsky says there are three children, 12 grandchildren and at least ten great-grandchildren living in Russia.

Mrs. Vidletzky was born at Shemingo, Russia, in 1804. At 6 years of age her parents went to live at Smolensk, a small town from the outskirts of which she watched the retreating soldiers of Napoleon on their return to France. She says that she was nearly run down by Napoleon himself on horseback, when she ran across the road.

Mrs. Vidletzky came to America after the death of her last husband when she was 99 years old. She made the voyage in the steerage. She was mar-

The Markets

Hop prices are advancing steadily, with some little excitement, but no heavy buying. One contract for 30,000 pounds was made Friday at 16 1/2 cents. This strengthening of the market is caused by cable advices from England and European hop centers showing a partial failure of crops, and weather conditions wet, cold and very unfavorable. Wheat shows no change, both growers and buyers waiting the world's crop developments. Indications are that the world crop will be hardly up to the average, and higher prices are predicted. The fruit and berry market is firm, with good demand and fair supplies. Poultry and eggs show no change.

PORTLAND MARKETS.

Grain, Flour, Feed, Etc. Wheat—Track prices: New Club, 78@80c; new Bluestem, 81@82c; new Fortyfold, 81c; new Red Russian, 76c. Millstuffs—Bran \$24@25 per ton; shorts, \$26@27; middlings, \$31. MINE OPERATORS TO USE STRIKE BREAKERS

Calumet, Mich., July 29.—Business men of Calumet today wired Governor Ferris asking him to come here and personally investigate the strike of copper miners. No disorders were reported today, the strike leaders insisting that the presence of militiamen is unnecessary.

CAPITAL OF BULGARIA CUT OFF BY SERVIANS

Berlin, July 29.—Dispatches received here today from Belgrade say Sofia, capital of Bulgaria, is isolated. Investing Servians, it was said, have cut all railroad communication and are threatening Sofia with a food famine.

MUTINOUS CONVICTS LEAVE.

Ossining, N. Y., July 29.—Under a heavy guard and all in manacles, 60 convicts who have been mutinous in Sing Sing left here today for Auburn prison. The men were given no opportunity to begin any disorder.

Big Surprise for Marion and Polk Counties

HIGHEST PRICES PAID FOR OLD CLOTHES, BAGS AND RUBBER. We have a big stock of pulleys, boxing, saws and all kinds of tools and machinery. Also chicken netting, hog wire, roofing paper and old harness. Big farm wagon and two plows for sale, very cheap. Bargain prices. Everything from a needle to a piece of gold. The house of a half million bargains.

Big stock of new and second-hand tinware and gasoline engines. Our 3-horsepower electric motor can be used in Salem.
