**The Markets**

The North Pacific Coast millers are up in arms against the proposed increase in freight rates on flour to Japan and the Orient, and threaten to charter ships to carry their products if the increased rates are put in effect. Reports from the European hop districts show an average in the larger number, but in several a decided shortage is reported. The total crop will be considerably below the average, and prices at least will be no lower. Friday in Portland only one small sale is reported, when James Pinens bought 120 bales of Yakimas at 20 cents. The egg market is well supplied, with "fresh Oregon" the larger part of which are coming from the east.
