## BOSS IS ACCUSED OF BRIBERY AND CONSPIRACY

### MURPHY IS WANTED TO GIVE SIDE

old Says Ten New Yorkers have Furnished Him With Guilt Evidence.

### MURPHY COMMITTED IN SULZER MATTER

It was stated That Crooked Frame Was Necessary to Get Governor of State.

[UNITED PRESS LEASED WIRE.]

New York, Aug. 25.—When the committee of the state assembly met here today, Lynn J. Arnold, one of the ten prominent New Yorkers who had furnished him with evidence which they thought would convict Charles F. Murphy, Tammany Hall, State Senator and Assemblyman, of bribery and conspiracy against Governor William Sulzer, of New York. He demanded the committee summon Murphy, Levy and others to testify. The committee refused to hear Arnold, who said that James C. Garrison, a New Yorker, had told him Governor Sulzer's impeachment was a conspiracy to bribe and coerce, but Garrison was not able to give any evidence before the Prawley investigation and the assembly. Chairman Prawley said that to hear Arnold would be an untimely proceeding.

### Gallery Applauds

Committee Chairman Gibbs Schappell, against the bottling up of the case and keeping him jumping between Albany and New York, the gallery applauded until Goldberg threatened to arrest all spectators. In the meantime Arnold wanted to deliver to the committee he reported seeing Disastroy Whitman, of New York City.

Several weeks charges have been made involving the integrity and intentions of Murphy and his associates. The committee ought to summon Murphy, McCall, Norman Mack, Fitzpatrick, Lieutenant-Governor Flynn, Patrick McCabe, John P. Victor, Downing, Robert C. Senator Frawley, James P. E. Smith, Assemblyman Thomas Carmody and others.

### Indictment Predicted

New York, Aug. 25.—Certain instances of alleged henchmen of Charles F. Murphy, Tammany Hall chieftain, and coercion in connection with the impeachment proceedings of Governor William Sulzer, of New York, is predicted this afternoon in a statement attributed to James Garrison, Sulzer's closest friend, but who has been written by Sulzer's attorneys. It said: "The whole truth of the loathsome conspiracy to destroy Governor Sulzer rapidly in the way of being the grand jury will get most of it within a week."

### Sulzer Will Testify

Senator Sulzer will offer to go before the grand jury. District Attorney of New York City is familiar with the facts in the case. It has been stated to him that Murphy used the law to stop the machinery of justice which Sulzer had set against state plunderers; that the grand jury will get most of it within a week.

### Charge That Governor Sulzer

had a woman in Philadelphia, and that he had been bribed for the purpose of blackening the name of the woman. The statement also named others of whom Sulzer had been a patron.

### Lamb Raised by Ram Successfully

Male Member of Family Gives Sufficient Milk to Keep Little Fellow Growing Rapidly.

J. F. Savage, who owns a farm about one mile from Aumsville, also owns a buck sheep that has a record of successfully raising a lamb which had been left motherless.

This male of the sheep family actually gives milk, upon which the lamb is thriving and growing nicely. The mother of the lamblet died when it was but a few weeks old, and the old buck took it upon himself to bring the youngster up. Mr. Savage, knowing that the lamb was not being fed from a bottle, often noticed it running around after the buck, but naturally supposed the little fellow "budded" in on another lamb's eating place. Coming suddenly upon the buck one day recently, Mr. Savage was surprised to see Master Lamb on his knees under the buck, and apparently getting what he wanted. Upon examination, Mr. Savage discovered that the buck was actually giving milk, and a good supply of it.

If any doubt this, says Mr. Savage, all they have to do is to visit his place and he will catch the buck and prove it.

El Centro, Cal., Aug. 25.—Forty federal soldiers from the Mexican garrison at Mexicali engaged a party of rebels near Sharp's Heading, Lower California, shortly after noon today. Reports from the scene of the action stated that several on both sides have been wounded and three rebels killed. The Mexican detachment left the town at daylight upon receipt of word that the rebels had burned a railroad bridge near Packard, Lower California.

More than 100 Chinese gardeners employed on the Mexican side of the line fled to American soil today, bringing their valuables. They reported that Mexican rebels and the federal garrison at Mexicali, Lower California, will be at each other's throats within 48 hours, with the attendant danger that the struggle will extend across the American line, according to popular belief here.

Hundreds of rebels are reported to be in the Mexicali back country ready for the attack. Mexican merchants today began moving their perishable goods across the international border into Calexico. Heavy deposits have been made in the American bank here.

### DEPARTMENT OF JUSTICE IS ROASTED

Bristow Declares It Is Trying to Get Way Round Legal Dissolution of Trusts.

[UNITED PRESS LEASED WIRE.]

Washington, Aug. 25.—Speaking on the floor of the senate here today, Senator Bristow discussed the Kenyon amendment providing for the free listing of trust productions. "The courts," said Senator Bristow, "no sooner declared the tobacco and oil trusts and the Union and Southern Pacific railroads combinations in restraint of trade than the department of justice seems to become active in finding a way to get around the legal dissolutions."

"I still have faith," broke in Senator Bristow, "that the law ultimately will be enforced for public benefit."

"But the dissolutions," answered Senator Bristow, "have been mere paper dissolutions, and the department of justice has connived in the evasion of the law's purpose."

### Roosevelt Back From Reservation

Refuses to Talk of Mexican Situation, But Says Hopi Indians Are Most Interesting.

[UNITED PRESS LEASED WIRE.]

Chicago, Aug. 25.—Looking the picture of health and more tanned than ever, Colonel Theodore Roosevelt arrived here today from his western trip. A traveling salesman was the first to recognize the former president.

"Hi, there, Teddy!" he yelled. Colonel Roosevelt waved his sombrero at the man and then bounded from the train into the arms of friends. "Back to civilization at last," he said, "but this soft shirt may not look like it. I spent a most interesting vacation."

Colonel Roosevelt begged interviewers to not ask him to discuss the Mexican situation or any other heavy questions. To change the subject, the colonel continued to talk of his vacation. "The Hopi Indians," he said, "are the most interesting people I ever saw. The wonderful opportunity to study this people will soon be passed, as they are becoming extinct."

"How does a snake dance?" asked a reporter of Colonel Roosevelt, "compare with a Republican convention?"

"I told you," was the colonel's come back, "that I would not discuss heavy questions."

### Congratulates Women

Colonel Roosevelt went to the Progressive club for luncheon. There he was introduced to Mrs. Grace Trout, one of the leaders among the women in winning women the ballot in Illinois.

"I want to congratulate you, Mrs. Trout," said Colonel Roosevelt. "You as the mother of four children are as entitled to vote as any man I know."

"You are looking mighty well," somebody said to Roosevelt. "It must be due to virtuous living."

"Virtue is a good thing," answered Colonel Roosevelt, "but it is not well to be over-virtuous. I believe in teaching a boy to be a good fighter. Virtue will come afterward."

Speaking before members of the club, Colonel Roosevelt said he regretted his inability to attend the Progressive celebration here Saturday.

"I am due to sail for South America on October 4," he said. "I have got to get my affairs fixed up."

### Will Be No Amalgamation

Colonel Roosevelt made it plain that so far as he is concerned there will be no amalgamation of the Progressive and Republican parties.

"The only way," he said, "for the Republicans to get together with the Progressives is for the Republicans to accept the entire Progressive platform."

The colonel left for the east at 12:30 o'clock.

### WILSON'S MESSAGE TO CONGRESS ON MEXICAN SITUATION IS READY

He Announces It Will Be Read Tomorrow Unless Huerta Backs Down.

### NO ULTIMATUM COMING

Foreign Nations Are Bringing Pressure to Bear on Huerta to Accept American Plan.

[UNITED PRESS LEASED WIRE.]

Washington, Aug. 25.—President Woodrow Wilson announced here today that he would read his message on the Mexican situation before a joint session of congress at 1 o'clock tomorrow afternoon, unless unforeseen developments in Mexico prevented. A sudden change in the stand assumed by Provisional President Huerta is the only thing that will delay delivery of the message.

As outlined by President Wilson the situation in Mexico today stands as follows: The president's 3500-word message is completed.

The president has asked the senate and house foreign committees to confer with him regarding the message. The message includes the mediation proposal and its rejection by Provisional President Huerta.

### Foreign Nations Busy

Foreign nations—the president does not know which—are bringing pressure to bear on Huerta in behalf of the American proposition.

No ultimatums have or will be sent to Huerta.

John Lind, the government's special emissary to Mexico, will remain in Mexico until the last hope of success is past.

The United States will not send a reply to Huerta's note, inasmuch as his rejection is deemed as final. If there are negotiations, Huerta must take the initiative.

The president stated that Huerta's message was politely expressed and calculated to strengthen America's friendship for Mexico, but the administration thinks Mexico's affairs are being mismanaged.

It has not been decided whether the message will contain new recommendations or a change in policy. This topic will be discussed at tonight's conference.

Forward is said to have threatened to "kill" her, but changed his mind at the last moment and killed himself instead.

Mrs. Pemberton, who formerly lived in Oregon, came to Moelips several months ago with her two children.

### Women Killed by New Treatment

Charges That White Slaves Are Seized and Used in Experiments Are Found to Be True.

[UNITED PRESS LEASED WIRE.]

Berlin, Aug. 25.—That women of the underworld in Frankfurt have been seized and forcibly used as "experimental guinea pigs" in the city hospital for treatment with Prof. Ehrlich's "salvarsan," that fifteen deaths have occurred and a number of women have been made blind or lamed as a result of the treatment, are some of the charges made by Herr Wassman, editor of Alcohol paper.

As a result of an open letter written by Wassman to Professor Ehrlich, asking whether he had knowledge of these facts and approved of humans being treated with the remedy against their will, the prosecuting attorney brought action against Wassman for libel. This action has now been withdrawn, which is taken as an indication that there is some ground for the charges.

### THRESHING COMPANY CANNOT SELL STOCK

Corporation Commissioner Decides There Is No Good Reason Why More of It Should Be Issued.

The Sectional Threshing Cylinder Co., of Washington, was turned down by Corporation Commissioner Watson today. The company wanted to sell stock, and also start a branch factory in this state. S. Vincent, examiner for the department, recommended this course. The company says it wants to sell stock in order to increase the capacity of its plant. It had also arbitrarily raised its stock from \$1 to \$5, and for this Commissioner Watson can find no reason. He very sapiently says:

"If with your present plant you can, as you assert, make 10 to 12 cylinders a day, at a profit of \$120 each, or \$32,000 a month, \$432,000 a year, I can see no reason for your selling more stock, but would suggest that instead you cancel all unsold or unissued stock in the interest of the stockholders generally."

The company has a small plant at Spokane and of the last 30 cylinders made, has 16 still on hand, which leads Mr. Watson to think that the company does not need a larger plant, and as he says, with a plant now in operation that can turn out from \$1200 to \$1440 a day there is no reason why more stock should be sold, if the products of the present plant can be sold, and if they can, then there is no need of selling more stock, as the showing of the company makes evident.

The older we get the more it hurts us to be scolded.

Taking the stand in her own behalf, Mrs. Lane testified that she had been a life-long friend of both Juror Bliss and Mrs. Anthony Caminetti, mother of F. Drew Caminetti. She declared that after mentioning the case to Bliss she apologized, but stated that what she had said was so unimportant that it did not seem to make any impression on Bliss.

"Mrs. Caminetti, however," added

## MILLMAN OF BALLARD DYNAMITER

Warrant Issued Charging Campbell Wealthy Man With Dastardly Crime

### MAN ALLEGED TO BE TOOL ARRESTED

Consideration of \$200 Said to Have Been Paid for Firing of Charge.

[UNITED PRESS LEASED WIRE.]

Seattle, Wash., Aug. 25.—A warrant was issued today charging Napoleon Campbell, wealthy owner of the Campbell mills in Ballard, with conspiracy in firing off dynamite in the yard of his own plant last spring for the purpose of discrediting the striking shingle weavers.

The case against Campbell has been under investigation for several months and Saturday night was brought to a head when J. M. Semple, a well-known professional strike-breaker was arrested by deputy sheriffs as he was about to leave for Vancouver, B. C.

Semple is charged with having fired the dynamite for a consideration of \$100 paid to him by Campbell.

### Says Evidence Complete

Deputy Prosecuting Attorney Kennedy is in possession of six affidavits from people employed during the strike by Campbell, which he says completes the chain of evidence against the big shingle man.

Campbell is confronted with evidence, according to Kennedy, to the effect that he approached a certain man with an offer to give him \$100, \$50 cash and \$50 after the job was done, for discharging the dynamite. This man is said to have turned it down. The other man also turned down the offer, it is alleged, when Semple undertook the job. Semple, however, positively denies complicity.
