

Beautiful Coats and Suits at Meyers— Salem's Style Center

Here you will find beautiful models direct from New York, and newest style creations imported from that fashion city of Europe, Paris. Owing to the immense buying power of Salem's big store, coupled with the fact that our Mr. Henry W. Meyers personally bought the new models for fall and winter in Ladies' Suits, Coats, Dresses and other garments, and that we have a permanent buyer in New York who constantly looks after our needs, we are therefore in a position to bring before the people of this locality the season's advanced styles as they are created. Salem women will indeed appreciate this fact when they view the complete stock of fall and winter ready to wear garments. We can say without exaggeration that the coming season's display will far out-class any previous showing ever brought to Salem. At present we are displaying an advance collection of the new suits and coats, and cordially invite an inspection at your convenience. No obligation to buy, just come in and see the new garments.

The New Mary Jane Boot for Women and Misses

We're showing the shoe that will be very popular for fall and winter wear—the "Mary Jane." It is an unusually neat style, built on natural lines and sure to prove comfortable. May be had in patent leather or gun metal leather, button style, and priced at \$4.00 a pair.

The much wanted Cravenette Shoe is also being shown in our shoe section in a pleasing style. Priced at \$4.00 a pair.

Inside intelligence on Sunday's ball game. The Portland Transportation club is coming to Salem with the fastest players available, well knowing that the O. S. P. are seeing red over their defeat by the Senators, and will no doubt prove in Sunday's game that they are second to none.

Preparations are being made by the Western Union Company to install time and signal clocks in Willamette University. The clocks will be so connected with alarms that students will be called at the beginning of each class. It is believed that the new system will not only be beneficial to the pupils, but will eliminate a great amount of bother for the teachers.

A serious conflagration was narrowly averted yesterday afternoon on North Twelfth street, when Professor J. T. Matthews and son were successful in putting out a grass fire which was eating its way toward a residence belonging to E. Tanner. The Tanner family was not at home, and had not Professor Matthews and his son done some fast work, the house would have been burning shortly.

Miss Clara Mosher has returned from a six-weeks vacation trip to the east. Miss Mosher visited various points in Canada along the Canadian Pacific road, through St. Paul and Superior. At Oshkosh, Wisconsin, she met her brother, Senator Gus C. Mosher, where they visited their sister, Mrs. L. H. Van Cott who returned with them to Portland for a few months stay on the coast. Miss Mosher will be in Salem for some time and will deliver another course of lectures in September.

Next Saturday will see the end of all saloons located in or near railroad stations, the law passed at the last session of the legislature, making them illegal, becoming effective September 1. The fight to do away with saloons in railway stations was started by Governor West more than a year ago, when an effort was made to close the bars in the Jefferson-street station, in Portland, through injunction proceedings. It developed that the existing law relating to the subject was not sufficient to close the saloons and a new one was passed. The law affects a large number of saloons throughout the state. So far as is known, the saloons have no intention of fighting the law.

Figures gathered by Labor Commissioner Hoff show that during July there were 372 accidents in the industries of the state and five were fatal. W. H. Dalrymple, who resides near the Englewood school, today reported to the sheriff's office that he had been robbed of a .32 Special Winchester rifle and that his wife's gold watch had been stolen on the night the circus was in the city.

Mr. Dalrymple states that it is evidently the work of some young boys, as many valuable rings and bracelets were lying in plain sight upon his wife's dresser, but were not touched. He declares that bureau and sideboards were rifled and the contents scattered about, but only the gun and the watch were found missing.

Breeze Gibson says there are so many autos in Polk county, that the dust on the roads is getting well mixed with gasoline. Breeze told a reporter confidentially, that this caused much trouble because the hens wallowed in the dust, until they got so much gasoline in their systems by absorption, that when they tried to announce the arrival of a new-born egg, instead of cackling, they hooted. This made them swell up, each imagining she had laid a goose egg, and then they quit laying any old kind of eggs.
