congress for nearly six months the such hair, 25 per cent, and plushes, velnew tariff bill is a law, and for the first time in nearly a quarter of a century the country has a tariff law originated by the Democratic party. The bill will doubtless be known as the Underwood-Simmons bill, taking the list. There was a compromise on the title from Chairman Underwood of the paragraph relating to furs, but generalways and means committee of the ly the house rates were restored. house and Chairman Simmons of the

ent tariff bill, a precedent, in fact, is was approved by the conference com that the senate cut the average rate mittee, although the house bill had of duty carried by the bill below that made them dutiable at 20 per cent. fixed by the house. Heretofore in the making of a tariff bill the house has the house in the free list was as to slashed the rates, while the senate has free art. then taken up the bill and readjusted the rates on a higher general average.

The house bill carried a general average rate slightly below 30 per cent. This the senate cut a little over 4 per cent. The conference committee has raised the general average duty but slightly. The average ad valorem duty carried by the bill as perfected i about 27 per cent. The average unde the present law is about 35 per cent.

Many Changes Considered.

The conference committee had to deal with 676 paragraphs on which there were disagreements. Some these involved only the change of a word or a question of punctuation, bu a majority of them represented differences in rates and a few were fun damental.

The house conferees also accepted the senate amendment fixing date when the wool duties shall go into ef feet, which was one of the final stum bling blocks.

Raw wool will go on the free list o Dec. 1, and the reduced duties car ried by the present bill will become ei fective on Jan. 1. The house bill proposed to make the wool duties effectly immediately on the bill being signe by the president. The final action wa an important concession to the manu facturers.

The senate won over the house als en controverted paragraphs in th achedule relating to cotton cloths an yarns. By this agreement slightly higher duties are given to certal coarser grades of cotton cloths an yarns by changing the classification.

Fur hats and frames, forms and otl er parts for the manufacture of suc hats received a rate of 45 per cen Connecticut. The house fixed the rate at 40 per cent, the senate made it 45.

The silk schedule also was reopened and the rate on silk partially manufac tured from cocoons or wastes, not fur ther advanced in manufacture than carded or combed silk, and silk noils was reduced from 30 to 20 cents per pound.

The Metal Schedule.

Probably no single industry covered by the tariff bill suffered such reduc tions in duties as did the iron and steel industry. The house cut duties un sparingly, and then the senate follow ed by making still further reductions and increasing the free list.

The house, for example, placed a duty of 8 per cent on pig tron, spiegel sen, scrap iron and scrap steel and like products and made ferro-maganes dutiable at 15 per cent. The senate other saved wood, per 1,000 free free living both of them, and the con Clapboard, per thousand... Il. is Free

ference committee after a considerable deadlock yielded to the senate.

The senate also free listed slabs, looms, loops and other products of iron more advanced than pig iron, which the house had made dutiable at per cent. The conference agreed to this. The senate cut the duty on round iron or steel wire from 20 per cent in the house bill to 15 per cent, and the conference accepted the senate reduc-

Agricultural Schedule.

The conference committee agreed to the senate amendment, which struck out the 10 per cent duty on cattle provided by the house bill and the 10 per cent rate on sheep and transferring both to the free list. The conference committee also put wheat on the free age Duties Were About 30 Per Cent list, where the senate had placed it, by striking out a duty of 10 cents a bushel provided by the house bill.

The house won a victory in the duty on lemons and other citrus fruit when the conference committee restored the classification based on the cubic feet of the containers in which such products are imported, which results in a slight decrease of the duty.

The senate also lost in the struggle over a proposed duty on bananas when the conference committee struck out the senate rate and restored bananas to the free list of the house bill.

Woolen Schedule.

Very few changes were made in the woolen schedule. The senate was susteined by the conference committee in its amendments fixing the dates when wool duties shall go into effect. Compromises were made by the conference committee between senate and house rates, by which wool tops will bear a duty of 10 per cent and yarns a duty of 18 per cent.

The senate sought to reduce the duty on woolen blankets and to free list blankets valued at not more than 40 cents a pound, but the conference committee rejected the amendment, and all blankets will bear duty at 25 per cent ad valorem. The house rates of 50 per cent ad valorem on carpets and rugs were adopted by the conference.

A compromise was reached on the paragraphs relating to angora goat hair, alpaca, by which the hair will After being under consideration in pay a duty of 15 per cent; tops from vet and other fabrics, 45 per cent.

Bundries.
