

There is a World of Smartness and Beauty in our Tailored Suits and Coats for Women

Before and during the STATE FAIR the demand for tailored suits and coats was so great we were obliged to telegraph several firms for both suits and coats. The result is that we now have assembled a large and very choice assortment of the latest models. A \$2000 (two thousand dollar) buy, that we expected August 1st was delayed by an Eastern strike and only arrived October 1st. Owing to the lateness of the arrival, we are not obliged to keep these garments, but as they are wonderful values and the latest models, we prefer to sell them here if we can, CONSEQUENTLY IT WILL BE GREATLY TO YOUR ADVANTAGE to investigate if you intend to buy either a suit or a coat.

Be Sure and see our \$12.50 and \$19.75 Suit Specials.

Our suits range up to \$50 in value.

CITY COUNCIL VOTES TO BUY FIRE PUMPER

American-LaFrance Company's Bid Is Accepted and It Will Cost \$9000, Exact Amount Available.

RECALL PETITIONS OF STOLZ AND HATCH ARE APPROVED

Amendment to Provide for Playgrounds to Be Submitted at Next Election to Be Held Here.

The city council last evening voted to purchase a six-cylinder fire pumper from the American-LaFrance company at a cost of \$9000, the exact amount named in the apportionment. Another bid was submitted by the Knott Fire Engine company, which offered to supply a pumper for \$8750.

When the two bids were opened Minton moved to reject both of them, and Cummings seconded the motion. Cummings declared that the city does not need a pumper, and, if it was needed, it could not be secured for several months.

Minton's motion was lost, all voting against it, except its author and Cummings.

Minton moved that the Knott bid be accepted. Jones wanted it referred to the finance committee. The council voted on the Minton motion, and it was lost, 5 to 8, the vote being as follows:

For—Brown, Constable, Cummings, Jones and Minton.

Against—Hatch, Macy, Siegmund, Skaife, Southwick, Stolz, Turner and Waring.

Southwick's motion to purchase the LaFrance engine then carried by a vote of 7 to 6, the councilmen lining up as follows:

For—Hatch, Macy, Siegmund, Skaife, Southwick, Stolz, Turner.

Against—Brown, Constable, Cummings, Jones, Minton, Waring.

Macy explained his vote by the statement that tests had shown the La France to be superior to any engine which could be used here.

The city recorder was instructed to enter into a contract with the company.

After the vote, Macy said: "We have bought two machines, and we will have to pay for them."

Macy demanded to know why, and Jones said because the Robinson people had not been given a second trial.

Will Return Money.

Upon recommendation of the street committee it was voted to return to the Universal Construction company the sum of \$1000 which has been held to guarantee the fulfillment of the Oak street improvement contract. Property owners interested had agreed to the proposition, it was asserted.

W. D. Pugh was allowed an estimate on Twelfth street, a small amount being deducted because of errors. Councilman Stolz said the estimate was prepared last year and the items were so glaringly out of place that the committee was obliged to eliminate them.

The license committee's report favoring the granting of a permit to sell liquor to George M. Patterson, good until December 1, 1913, was approved.

A resolution to construct certain sidewalks on Fifteenth street was indefinitely postponed, the street committee reporting that the walls were unnecessary.

Built Her Own Sidewalk.

Turner reported that he had investigated the building of a sidewalk in front of the property of Mrs. Mary Fox and had ascertained that she had constructed it herself, despite the fact that the street commissioner had reported building it and an assessment ordinance had been introduced in the council. City Attorney Page said the data turned over to him indicated the council had ordered the sidewalk constructed and the work had been done under the direction of the street commissioner.

Cornelius said he had passed the meter on to the contractor and he had not yet reported. It was decided to re-refer the matter to the street committee for a week.

The city health officer's report showed 562 inspections during the month of September. There were 21 deaths in the city.

Engineer's estimates of 15 per cent were allowed the Geiger company for Union street and August Kehrbarger for 18th street. An estimate of \$1334.85 was allowed Irvin Van Patten for the construction of the North Liberty bridge. This leaves \$150 to insure the construction of a surface pavement on the bridge. This work probably will not be done until spring, no bituminous pavement contractor being available at this time. Southwick endorsed the proposition.

Sewer Bond Progress.

In answer to a query from Cummings City Attorney Page explained that the transcript of sewer bond proceedings, consisting of 120 pages, had been mailed to Story, Thorndyke, Palmer & Dodge, of Boston, October 10, and he expected an answer in four or five days approving the same. He would immediately wire to New York to have the advertisements inserted, upon approval of the proceedings.

Your Stomach Bad?

JUST TRY ONE DOSE of Mayr's Wonderful Stomach Remedy and Be Convinced That You Can Be Restored To Health

You are not asked to take Mayr's Wonderful Stomach Remedy for weeks and months before you receive any benefit. One dose is usually required to convince the most skeptical sufferer of Stomach Ailments that this great remedy should restore anyone so afflicted to good health. Mayr's Wonderful Stomach Remedy has been taken by many thousands of people throughout the land. It has brought health and happiness to sufferers who had despaired of ever being restored and who now proclaim it a Wonderful Remedy and are urging others who may be suffering with Stomach Ailments and Intestinal Ailments to try it. Mind you, Mayr's Wonderful Stomach Remedy is so different than most medicines that are put on the market for the various stomach ailments—it is really in a class by itself, and one dose will do more to convince the most skeptical sufferer than tons of other medicines. Results from one dose will amaze and the benefits are entirely natural, as it acts on the source and foundation of these ailments, removing the poisonous carbon and bile accretions, and allowing the underlying chronic inflammation in the alimentary and intestinal tract, rendering the same antiseptic. Just try one dose of Mayr's Wonderful Stomach Remedy—put it to a test today—you will be overjoyed with your quick recovery and will highly prize it as thousands of others are constantly doing. Send for booklet on Stomach Ailments to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill. J. C. Perry, Druggist.

Hus A. Liston and others was read and referred to the street committee.

A petition of the Salem school board and the Star Land company for the vacation of part of 13th street and A street, in Parrish addition, was referred to the councilmen from the Sixth ward. The school board plans to equip an athletic field and play grounds, and is holding up construction work on a stand until the tract is vacated.

For Playgrounds.

The Salem Playgrounds association asked in a communication that a charter amendment be submitted to the voters, authorizing the establishment of playgrounds. It was stated that the work had been carried on for two years by donation. The matter was referred to the city attorney to prepare the necessary resolution.

The city attorney stated that President Rogers of the Playgrounds association had discussed the matter with him and had stated that the question of the amount of money needed to carry on the work would be left entirely with the council.

May Recall Stolz and Hatch.

Recorder Elgin reported that petitions for the recall of Councilman Gideon Stolz, of the third ward, and Councilman H. W. Hatch, of the sixth ward, had been filed, and he would call an election for November 3, when the city primary vote is cast.

Of 61 names attached to the Stolz petition, 26 were found to have been registered. The total vote cast in the ward at the last city election was 81, and 25 per cent, or 20, were necessary to secure a recall election.

In the case of Hatch, 181 signatures were attached, and more than 100 were registered, leaving a large margin over the number required to call an election.

The recorder said he had doubts as to the legality of some sections of the recall measure, but believed action to test it should be taken by the council or some citizen interested.

More time was given Miller street residents who wish to delay building sidewalks until they finish harvesting their orchard crop.

Cornelius Needs Bookkeeper. Minton cited two errors made by Street Commissioner Cornelius in re-

BEAUTIFY YOUR HAIR

with simple, safe, home-made tonic. Get from any druggist 6 ounces of Bay Rum 2 ounces Lavona de Compose and 1/2 drachm Menthol Crystals. If you like, add 1 drachm of your favorite perfume. Mix thoroughly; apply night and morning with fingers; for dandruff and falling hair. Contains no dye or coloring matter, but one ingredient, according to authorities, actually forces into renewed action the dormant pigment-forming cells and thereby restores premature gray hair to its natural color. This same ingredient is also a powerful stimulant to the growth of new hair.

UNITED STATES NAVY

(Continued from page one.)

"Big Mike" Sullivan, agent for the Portage Bay railroad, secured a copy of the geodetic survey of the new harbor by application to the department. He secured his copy before one was delivered to the head of the department in Seattle. When asked about this, Captain Rude stated that permission had been granted from Washington to hand over the copy.

Captain Rude arrived from the north last night on the Alaska liner Mariposa with other government officials of the coal expedition and Dr. Joseph A. Holmes, director of the bureau of mines.

Refuses to Talk.

Dr. Holmes, who has just completed an extensive tour of the gold and coal fields of Alaska, declined to discuss the coal situation at Matanuska, but stated that he had complete reports on all matters which would be laid before the secretary of the interior.

Dr. Holmes is enthusiastic over the Neenan A coal fields, near Fairbanks. The fuel there is a rather high grade lignite, which he says can be burned right at the fields to generate power for use at Fairbanks. With this system much low grade placer mining ground can be worked, which otherwise could not be touched.

RUNAWAY OF FOUR HORSES IS EXCITING

Durbin Unable to Hold Steeds and One of Them Falls Down and Is Dragged Block by Others.

There was a lively runaway this morning about 11:30, when a four-horse team belonging to Fred Durbin, starting near the top of the hill on Commercial street, near Oak, when the brake gave way, came down toward the city on the run. Durbin was unable to hold them, as the wagon kept crowding against the wheelers, and, one of these being a colt, was a little ticklish about having his hind legs interfered with. As they came across the Mill creek bridge, where the footing was good, they bit the pace, and when they crossed Trade street they were doing a two-minute stunt. Durbin kept them in the middle of the road until they passed Perry, where the off wheeler, that was an old horse, and did not want to run, but only did so to keep out of the way of the wagon, fell. The others were all colts, but evidently thought they were seniors, and had a right to do as they pleased, and that they were really doing something smart.

The paving was wet and slippery, and he was dragged nearly the length of the block, but helped to check the speed. One of the lead lines broke when he fell, and the team swerved to the right until, when near Bush's bank, they were close to the sidewalk, and an auto belonging to Dr. Clay, standing there, caused them to try to stop, but this they could not do in time to prevent striking it, which the leaders did. As they checked up, the whole bunch slipped and went down. There was no damage done, other than scratching the auto a little, and knocking a few hairs off the horses. The old wheeler that

slid for first will probably feel that he ought to have wore a knee-length corset and will realize that sledding is rather rough in Salem when there is no snow.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Is Aching or Bladder Bothers, Drink Lots of Water and Eat Less Meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to lead your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Suit or Overcoat

Whichever it may be we know we have here just what you want. We have the English models, and the most conservative models, all of which appeal strongly to the man who wishes to be well dressed.
