Thankful He Was Not a Woman. The late Lawson Tait of England, the great woman's doctor, said he never went to bed at night without thanking heaven he was not born a woman. No doctor ever knew better than he that women have to suffer at some times of their lives. It was an American woman long since passed to her reward who introduced a simple combination of roots and herbs called Lydia E. Pinkham's Vegetable Compound, that has proved wonderfully successful in mitigating suffering and curing diseases of women. It has brought unspeakable relief to thousands of women who suffered from female ills.
