SCORES DEAD AND MILLIONS OF DAMAGE IN GALE

VESSEL SINKS WITH 40 MEN

Steamship E. A. S. Clark Goes Down With Bottom Upward and All on Board Are Lost--Long List of Ships Wrecked and Fate of Hundreds of Men Unknown--Deep Snow Covers Country--Street Car Service Demoralized in Chicago, Detroit and Elsewhere--Suffering from Cold.

[UNITED PRESS LEASED WIRE.] Chicago, Nov. 11.—Enormous damage was done and many lives snuffed out by the blizzard which swept the lake region Sunday and yesterday, and was but just beginning to subside today.

Losses, both of property and lives were greatest on the lakes, where shipping had not closed and sailors were caught by surprise by the earliest storm of such severity within the memory of any of them.

Revised estimates today placed the number of the storm's dead at from 80 to 100. The value of the property destroyed could only be roughly guessed, but amounted to millions.

Lost, missing or damaged vessels, according to the best information obtainable, included: The steamship E. A. S. Clark, sunk bottom upward near Port Huron, with the loss of its crew of 40, and, according to the belief of some of the wreckers, with another vessel with which it had been in collision underneath.

Unidentified ship pounding to pieces on Gull Rock, Manitowish Island, with crew, believed to number 28, doomed, and some lashed in the rigging, probably dead.

Unidentified ship ashore at Isle Royale; crew's fate unknown.

Unidentified ship ashore in Cooper harbor; crew's fate unknown.

Probably Two Score Dead.

Steamship L. C. Waldo, with crew of about 40, missing, and probably lost with all on board.

Lightship 82 sunk off Point Abino, Canada, probably with loss of crew of six or eight.

Reproduction of Columbus' caravel Santa Marie, en route from Chicago to San Francisco, pounding to pieces on bar at entrance to Erie, Pa., harbor.

Steamship Huron, badly damaged, but safe in Whitefish bay.

The steamships James Davidson and Simon Langull, reported lost for a time, reached port safely, though badly battered.

Snow Stalls Trains.

Throughout the storm-affected region telephone and telegraph wires were down everywhere. Snow in drifts from two to 20 feet deep covered the country and through it trains were creeping, hours late, or stuck fast, completely stalled.

In Chicago, Detroit, Cleveland, Buffalo, Columbus and Pittsburgh street car services were suspended or badly disorganized, lighting plants were partly

out of commission and supplies of food and fuel are running short, through the jobbers' inability to reach retailers and the retailers' helplessness to make deliveries to their customers.

The thermometer was but a few degrees above zero and the suffering was intense.

WAGES AND MORALITY.

[UNITED PRESS LEASED WIRE.] Minneapolis, Minn., Nov. 11.—"Wages and Morals," and their relation to each other, was the subject of the principal address here today at the fifth day's session of the International Purity Conference.

Unidentified ship ashore in Cooper harbor; crew's fate unknown.

Probably Two Score Dead.

Steamship L. C. Waldo, with crew of about 40, missing, and probably lost with all on board.

Lightship 82 sunk off Point Abino, Canada, probably with loss of crew of six or eight.

Reproduction of Columbus' caravel Santa Marie, en route from Chicago to San Francisco, pounding to pieces on bar at entrance to Erie, Pa., harbor.

Steamship Huron, badly damaged, but safe in Whitefish bay.

Bud Anderson and Joe Rivers Will be Next Big Card

[UNITED PRESS LEASED WIRE.] Portland, Or., Nov. 11.—Bud Anderson and Joe Rivers will probably fight 20 rounds in Los Angeles Thanksgiving Day before Tom McCarey's Vernon fight club. This much was practically settled with the easy defeat of Leach Cross by Willie Ritchie in New York last night. Had Cross held the championship even, he would have been given the match, the details being practically settled upon. McCarey figured that a defeat would lessen Cross' drawing powers, and opened negotiations with

Dick Donald, Anderson's manager, in order to be protected. Manager Donald telegraphed from Medford today to Anderson telling him that he could have the match, and Bud immediately answered that everything was all right so far as he was concerned. He is now waiting an answer from Donald, who is negotiating with McCarey and Joe Levy, Rivers' manager, over the guarantee and weight. Bud stated today that he did not know what weight Rivers would want, but would take the Mexican on for anything from the lightweight limit of 133 pounds up. Anderson started training today.

WILL LEAVING WENDL PROPERTY TO ABBEY UPHeld BY DECISION

Suit to Set Aside Testament Brought By John B. and Regina Wendl.

WOMAN NAGGER LOSES

Supreme Court Says She Is Not Entitled to Support From Man She Drove Away From Her.

The supreme court this morning handed down 16 opinions. In the case of John B. Wendl and Regina Wendl against St. Rev. Placidus Fuerst, abbot of St. Benedictine abbey, at Mt. Angel, et al., the decision of the lower court was affirmed. This was a suit to set aside a will made by D. Wendl, by which his property, consisting of a mortgage and some other personal property, valued at about \$3000, was left to the abbey. The lower court held that the will was entitled to probate, and in this was sustained.

The suit of A. E. Ivanhoe against F. S. Ivanhoe was reversed. The plaintiff sued to compel the husband to contribute to her support. The lower court held that both parties were to blame for unhappy marital conditions, the wife being a confirmed nagger, and the husband handy with abusive language, but gave judgment for the plaintiff, but in an amount smaller than asked. The supreme court held that she "must do equity before asking equity" and that if she made life so burdensome that her husband could not live with her, she should not ask him to support her. The case was reversed and dismissed.

The other cases are: William Baker vs. C. E. Moran, et

HANSEL MUST HANG NEXT FRIDAY SAYS SUPREME COURT HERE

Application for Stay of Execution in Case of Slayer Is Denied.

ALL HOPE ABANDONED

Governor West Said Some Time Ago He Would Not Interfere in Case of This Slayer.

Monday the application for a stay of execution in the case of Oswald Hansel, sentenced to be hanged next Friday, for the murder of Judge Taylor at Astoria, was argued before the supreme court and this morning a decision was handed down by Chief Justice McBride denying the application. The case was argued by the attorney George Arthur Brown, of Portland, but he had nothing to do with the trial of the case in the lower court.

An appeal has been taken in Hansel's case, but as a stay of execution is denied, he will hang Friday unless the governor interferes, and this is not probable.

The Weather. The Dickey Bird says: Oregon: Probably fair tonight and Wednesday light variable winds.

DICTATOR HUERTA IS NEARING END OF HIS RULE OVER MEXICO

European Diplomats Joining America in Hastening End of Tyrant.

FRANCE FOR STARVING

Reported to Have Agreed to Give Him No More Money and England Is Working With Uncle Sam.

[UNITED PRESS LEASED WIRE.] Washington, Nov. 11.—The Mexican outlook seemed brighter today. Though Secretary of State Bryan last night made public the text of President Huerta's note to the Mexico City diplomatic corps, refusing to retire, the impression nevertheless prevails that he was about to do so.

European diplomats were said to have joined American emissary Lind and Charge d' Affaires O'Shaughnessy in bringing pressure to bear on the dictator and that he was weakening.

England to Act.

England was reported about to withdraw its recognition of Huerta. The Washington administration was rejoiced over a speech by English Premier Asquith, denying that England was trying to thwart America's Mexican policy. Ambassador Page thanked Foreign Minister Edward Grey for the speech, which had an element of sarcasm in it, since everyone considered it Grey's policy that Asquith was repudiating.

President Wilson was understood to have suggested to the powers the wisdom of starving Huerta out by refusing him more loans, and France was reported to have agreed.

Central America to Aid.

Secretary Bryan told the ministers

DELEGATE DRIVEN FROM FEDERATION OF LABOR CONVENTION AS TRAITOR

Tazelaar Exposed by Colonel Mulhall in His Revelation Before Congress--Hired to Work Against Hughes in New Jersey Campaign--International Union of Painters and Decorators Had Elected Him as Delegate Before Exposed--Ordered Out.

[UNITED PRESS LEASED WIRE.] Seattle, Wash., Nov. 11.—Exposed before the recent lobby investigation committee of congress by Colonel Martin M. Mulhall as a traitor to organized labor, Jacob Tazelaar, of Orange, N. J., was denied the right to sit as a delegate and driven from the floor of the convention of the American Federation of Labor today by President Samuel Gompers.

Tazelaar made a spectacular effort to secure recognition by the chair and falling, cried in a loud voice: "All right, I'll take my medicine."

The committee on credentials reported in favor of seating Max Hahn, of Chicago, elected to take Tazelaar's place.

Tazelaar was a member of the painters and decorator's union and prior to the Mulhall investigation was elected a delegate to the present convention.

Told of Employment.

During the investigation Mulhall said that Tazelaar and other union officials in New Jersey had been in his employ during the campaign to elect Congressman Hughes of New Jersey to the senate, in an effort to defeat Hughes.

of the National Employers' Association, says he hired these union officials to work against Hughes, secretly. Hughes was defeated.

After the Mulhall investigation the executive council of the international union of painters and decorators decided that Tazelaar could not represent them at this convention, and chose Hahn in his place.

Tries to Start Something.

When the committee report was read today, Tazelaar leaped to his feet and shouted: "Mr. President."

Gompers hammered with his gavel and without giving him a chance to speak, replied: "The American Federation of Labor cannot go behind the action of the international unions, or investigate the reason for the decision of international unions, therefore, so far as this convention is concerned this is a closed incident."

"Am I not to be given a hearing?" shouted Tazelaar.

Gompers hammered again and said: "The gentleman will please get out of the enclosure. It is reserved for delegates to the convention."

"Do I get no hearing?" shouted Tazelaar again.

Gompers repeated his statement about the reserved section, and Tazelaar left the hall.

Twenty Apply to City Council for Licenses to Sell Liquor in Salem During Next 6 Months

A mild sensation was sprung at the meeting of the city council last night when City Recorder Elgin reported 20 applications for liquor licenses to run a period of six months. There was talk of laying them on the table, but finally a motion by Turner to refer them to the license committee prevailed. The action indicated that the saloonmen figure there is a possibility that the recent election will be declared invalid. The council during the present year granted licenses only to December 1. The election early this month was for the purpose of voting the city dry beginning January 1. However, another election is due early next month and if the dry amendment carries, the saloons must go out of business as soon as the result is known.

Will Dispose of Leaves.

It was voted to have the street department take care of all the leaves that may be shoveled out on the paved streets by property owners. This offer holds good for one week and it is hoped that property owners will get busy at once.

The action of Stolz in arranging to have the Warren Construction company repair breaks made by the city on the pavement at the corners of Capital and Union and elsewhere was approved.

Ridgdon called attention to a bad crossing at Twelfth and D.

The fire and water committee reported plans were ready for a cistern and hydrant on Fairmount hill. The committee was authorized to proceed with the work.

Hydrants were ordered installed at 17th and Chemeketa and 21st and Chemeketa.

The city attorney's favorable report on an ordinance relating to the Boyce heirs' assessment was adopted.

By a vote of 10 to 2, the city council voted down Stolz's resolution to give the city engineer \$50 for expenses on a trip to Sacramento and other cities for the purpose of investigating methods of disposing of garbage and other matters. Cummings and Stolz voted for the resolution, and Hatch and Minton were absent.

To Enforce Sign Ordinance.

It was unanimously voted to enforce the sign ordinance regulating electric signs. Macy brought the matter up and declared that there were a lot of old rattletrap signs. The city attorney and chief of police were instructed to give property owners notice to remove the signs within 10 days.

The chief of police, on motion of Brown, was instructed to cause the removal from the sidewalks of weighing machines which cause people to stumble.

Resolutions to build new cement walks on several streets were passed.

The city attorney was ordered to proceed to have a sidewalk put down on 12th street, in front of the Hickory Bank company's plant.

Engineer Endorses Work.

Engineer B. B. Herrick, who checked over the city engineer's work on South High street, because some of the property owners thought it was not right, last night reported that the excavation and fill at the bridge was somewhat in excess of the amount figured in the city engineer's report, giving the city some advantage. The figures on the bill work also checked out, he said.

In conclusion Engineer Herrick said the assessment had been accurately and fairly made.

Southwick said the special committee named to investigate the South High improvement would be ready to report at the next meeting.

A resolution giving notice of an assessment on Market street from the east line of Church to 18th was ordered.

A petition of Joseph Herrick for an extension of time in which to construct a sidewalk on Winter street was referred to the street committee.

A petition for an arc light at Cheek and Fourteenth was read.

Untrimmed Trees Banned.

A letter written by some unknown young woman complaining about the darkness in the vicinity of Twelfth and State streets was read. She insisted there should be an arc light there, asserting it was a desolate place at night and in the early morning when women workers were compelled to start down town.

Macy said she was off in regard to the need of an arc light, as one was already located at the point named.

Stolz then got after the park board, the president of Willamette university and others who fail to trim or have trimmed trees which droop branches to the ground. He said the president of the university had repeatedly asked for more lights, while permitting the branches of trees to grow to the ground in such a way as to shut off light.

Brown said he believed the board would act promptly in the matter upon attention being called to the situation.

City Recorder Elgin was allowed an extra clerk to mail out election pamphlets.

An ordinance refunding assessments to Hickory street residents was passed.

An ordinance adjusting an assessment of B. L. Byers was passed. Ordinance relating to Twentieth street, Market and North Church street assessments were also read the second time and laid on the table for a week.

SAID TO HAVE TOLD OF AMERICA'S JOY OVER NEWS

[UNITED PRESS LEASED WIRE.] London, Nov. 11.—United States Ambassador Page called on Foreign Minister Sir Edward Grey today and was understood to have expressed to him America's pleasure at Premier Asquith's assurance, in a speech last night, that England meant to leave President Wilson free to carry out his own policies in Mexico.

The ambassador would neither confirm nor deny reports that he had told Sir Edward what this policy would be, but it was believed he had done so.

"Ambassador Page, on Saturday," said the London Daily Mail, "made a communication to Sir Edward Grey concerning the policy President Wilson proposes to follow in Mexico in view of Huerta's refusal to eliminate himself at the American government's request. Sir Edward will reply in due course."

SECRETARY DANIELS IS DELIGHTED TO HEAR OREGON REJOICES

Governor West is just in receipt of the following letter from Secretary of the Navy Josephus Daniels:

"I was delighted to meet Miss Hobbs and receive through her your message of thanks in behalf of the people of Oregon for my decision to send the battleship Oregon, with Captain Clark on the bridge, through the Panama canal at the time of the formal opening. I am sincerely gratified that this action meets with such hearty response on your part, and the part of the people."

OAKLAND WOMAN BEATEN AND CHOKED BY AN UNKNOWN ROBBER

[UNITED PRESS LEASED WIRE.] Oakland, Cal., Nov. 11.—Mrs. William You Helms, a comely young matron, is suffering today as the result of a brutal attack last night by a negro. The assailant came up behind Mrs. You Helms, struck her with his fist, cutting a deep gash in her upper lip, and then choked her into insensibility.

As the unconscious woman fell to the ground the negro grabbed a mule roll she carried, evidently mistaking it for a handbag, and fled.

For some minutes Mrs. You Helms lay on the wet sidewalk. Finally the falling rain restored consciousness, and she appealed to the nearest house for aid.

The police responded quickly, but the negro had disappeared.

YOUNG BRYAN ADMITTED.

Phoenix, Ariz., Nov. 11.—William Jennings Bryan, Jr., son of the secretary of state, passed his bar examination here today, and was admitted to practice before the state and federal courts.
