WHAT DYSEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, where possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately such a rule eliminates most foods which are pleasant to the taste so well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body.

WOMAN SUFFRAGE COMMITTEE

Before the house rules committee Wednesday, hearings will be begun on the question of organizing a special "woman suffrage" committee of the house. The hearings will probably last three days, with the "antis" given their innings. The "administration" currency bill will be taken up by the senate late this week or early next week. The senate will vote Dec. 6 on the "Hetch Hetchy" bill and then probably take up the currency bill. Prospects are for passage of the currency measure with sixty or ninety days. The Alaskan railroad bill will come up next Monday in the senate, but will probably be passed over to continue currency discussion. Adjournment of congress, Dec. 19 until Jan. 5, for the holidays is planned.

of Georgia, negotiations of a new Niagara Falls treaty, and abandonment of several navy yards.

"Big politics" will also be played during the new session, as the test of congressional elections will be made next November. Leaders of all parties today predicted that congress will not adjourn before next July, or even until September.

THIS MAN IS NEVER DISCOURAGED BY DEFEAT

Little Rock, Ark., Dec. 1.—That hope springs eternal in the human breast is demonstrated in the case of W. B. ("Blackstone") McCoy, of Randolph county, Ark., who has been running for office for 40 years and has never been elected.

An unbroken record of defeats dating back so far that only the oldest citizens remember when he began running for office does not seem to have diminished his ardor for serving the people in some official capacity. Defeated in the primary, he would run in the general election, always buoyed up by the hope that some unexpected turn would land him with the voters.

Eighteen consecutive times he ran for county judge. Four years ago, with a number of candidates in the field, the vote was badly split and "Blackstone" lacked only a few votes of winning the nomination. Thinking he had been counted out, he ran as an independent and was defeated by the usual majority.

NEARLY \$50,000,000 OF INCREASE IN STATE VALUATION

The state board has just completed the equalization of taxes. The report shows that the total equalized valuation is \$954,282,374, as against \$905,282,379 this year. The total value of all public utilities is \$182,117,594, and was equalized at \$119,917,202. The Southern Pacific will pay on a valuation of \$25,041,789, and the Oregon Electric on \$3,525,010. The state must raise \$4,700,000, which is greater than any other year by about a million dollars. The Panama canal and irrigation projects caused a heavy increase. The tax rate will be about five mills, as this will raise \$4,771,000.

SUFFRAGISTS MEET IN ANNUAL CONVENTION

Washington, Dec. 1.—Suffragists from all corners of the United States got down to the real business of their 45th annual convention today with an executive committee meeting this afternoon. Mrs. Mina E. Allender, president of the state society of the District of Columbia and Miss Alice Paul, chairman of the executive committee, welcomed the delegates, and Mrs. Solon Jacobs, president of the Alabama Suffrage association, responded. Officers and departments were scheduled to report at 4 o'clock this afternoon.

SUPREME COURT MEETS

Washington, Dec. 1.—After a two week's recess to prepare a "batch" of opinions the U. S. Supreme court reconvened today. Many important decisions were expected today, possibly including the long-awaited "intermountain rate" and the "Kentucky rate" cases. Ten important cases are especially assigned for argument before the court beginning today. These were advanced ahead of the regular docket call. Among them are the California fruit shippers' "icing" case, to determine whether railroads have a monopoly of refrigerating fruit cars, and the Kansas "Gasco" case, to determine whether Kansas Public Utilities commission can regulate rates of public service corporations whose franchises ante-date the passage of the public utilities law. Another important case to be presented to the court this week, is an appeal of Yoshiro Nakayama, a Japanese arrested in Colorado for alleged "white slavery." The case tests the right of the government to deport alien "white slavers" after they have resided in this country three years.

SAVAGE NAVAJOS AGAIN BACK ON RESERVATION

Farmington, N. M., Dec. 1.—After two weeks of war dancing and medicine making on Beautiful Mountain, the hostile Navajos, who have been terrorizing the Shippock agency, southwest of here, were scattering peacefully to their teepees today, and all danger of trouble seemed over.

CITY NEWS

The office of the Standard Liquor Co., Inc., will be open as usual for the purpose of paying and collection of bills, regardless of the outcome of the pending election. A. G. Magers, Pres. Mrs. S. S. Mosher, of this city, has lost the index finger of her left hand, the operation being performed at the Willamette Sanitarium. Mrs. Mosher is the mother of Mosher, the tailor. G. Q. Smith, et al., of Stayton, last Saturday filed an amended complaint against County Judge Bushey, in which they ask for an order restraining the defendant from declaring the local option election held in Stayton on November 4.

SPENCER TO HANG DECEMBER 19 FOR MURDER OF WOMAN

Wharton, Ill., Dec. 1.—Henry Spencer, convicted here recently of the murder of Mrs. Mildred Allison Rexroat, is under sentence to hang December 19. When Spencer was asked by Judge Slosser if he had anything to say, the murderer answered: "You bet I have. I have a whole lot to say, and I'm going to say it." Spencer then rambled on incoherently for nearly an hour. He recited the story of his early life in Chicago, his associations with criminals, and finally his meeting with Mrs. Rexroat. The defense's motion for a retrial was overruled.

MOTION PICTURE ACTOR HELD

Los Angeles, Cal., Dec. 1.—James Youngdeer, Indian motion picture actor and producer, is held today for trial on a charge of contributing to the delinquency of Marie Wilkerson, aged 17. The girl alleges that Youngdeer lured her to his private office and there assaulted her. Youngdeer furnished \$1500 bail.

SPECIAL POLICEMAN IS ACCUSED OF LAWBREAKING

Chief of Police Shedeck today was called to the fourth and sixth ward, where it was said the corrupt practices act was being violated. Upon investigation, however, the chief could not find anything out of the ordinary. The calls were made by phone and the persons responsible for the excitement at police headquarters refused to identify either themselves or those alleged to have been violating the election laws. Complaint was also made to Chief Shedeck by W. H. Dalrymple, candidate for alderman in the sixth ward, that the special policeman in that ward was "knocking" him. Dalrymple told the chief that the special officer, J. N. Smith, was talking about him and that, as a candidate for councilman, he wished to protest. The chief of police visited the sixth ward polling place but no arrests were made.

SYMPATHIZERS

Several hours' complete tie-up of teaming, as a result of the drivers' strike here today, employers began manning their wagons with non-union men. The police were active in protecting strike-breakers and scattering street crowds. In several parts of town they lured a way for non-union drivers through the throngs of strike sympathizers. Eight men and four women were arrested, charged with inciting riots. Despite their efforts, two non-unionists were dragged from their wagons by crowds of women. Throgs, too, followed each wagon, urging the non-unionists to quit.

LOTS OF WORTHLESS BAYS ARE BEING SOLD TO GULLIBLE PUBLIC

With the coming of the Panama canal opening, Salem people are pestered by people who are selling lots in coast towns which will, it is claimed, have immense population as a result of the opening of the canal. The gains have progressed so far that it is about time to call a halt and stop the flow out of the Willamette valley of good money which should be invested here. Several little worthless bays are used by promoters to back up extravagant claims. Up in Seattle they gave Hillman a suit of stripes in the federal penitentiary for swindling people through the mails with promises of great shipping harbors and steel plants. There is a similar game going on in Oregon today. The corporation department and the federal government should take a hand and protect widows and orphans.

Coming Monday and Tuesday, December 8 and 9. THE LAST DAYS OF POMPEII. LARSEN IS HELD FOR LOOTING POSTOFFICE HERE. For the second time the Salem post-office has been robbed of mail, Theodore Larsen being the one charged at this time. Larsen was arrested last Saturday afternoon about 6 o'clock at the Gile & Co. packing house, where he has been employed, and federal authorities took him to Portland to answer to a complaint charging him with robbing the United States mails. Many complaints of missing letters, money orders and other matters have been received by Postmaster Hucklestein of late, and last Saturday a man was placed to watch the lock boxes. It was discovered that Larsen possessed keys to several of the boxes, and he calmly relieved the mail receptacles of their contents and left.
