# Manufacturers Lose Heavily On Account

## of Delayed Shipments of Christmas Furniture

A big carload of Christmas furniture which should have reached us over a month ago has been so delayed in transit that it is only just now reported in the yards.

There are only five days left in which to do Christmas shopping, and it is entirely out of the question to move these through the ordinary channels of trade.

We have wired the manufacturers that we cannot accept this car at this late date, and they reply: "Take the car. Advertise the goods to be sold for what they will bring. We will stand the loss."

So here they go.

This car contains the highest grade of new electric reading lamps, combination bookcases, ladies' writing desks and piano benches.

This entire lot of furniture must be cleaned up in the five days that are left so if you want to enjoy something unusual in the way of a Christmas present at an immense saving now is your time.
