A NATION OF ADULTERATORS.

Is there any limit to the human greed? Is there anything the average American will not do to get in the millionaire class? With due regard to our fellow Americans we are forced from the evidence daily before us to answer: No.

Go through the whole list of things we eat, drink or wear, and there are adulterants in all. We do not mean to say that all products are adulterated, for some things are kept "pure and above price" for those who can afford to pay extra prices for the goods and a bonus for the honesty.

There is sand and sawdust in our sugar, there is also chalk and perhaps clay. There is chalk, clay and lime in our salt. There is chicory, and heaven knows what else in our coffee.

And so it goes down and through the long list of everything we use. It is so with our clothing, too. There are paper-soled shoes and cotton in our all-wool suits, if not cotton, the workover rags, imported from Europe, and known as "shoddy."

It is high time that the pure food laws be strictly enforced so that every purchaser can know just what he is buying. He can then buy the adulterated article if he wants it, but he is not forced to buy it, as at present.

HOGS, BACON, AND PRICES.

THE Chicago packers are not fearing a panic having made enough during the year to tide them over for a few months anyway. A recent statement of the year's business shows that the companies made profit on their capital stock during the year 1913 as follows:

Swift, total dividends, \$9,250,000, per cent of earnings, 12.33; Armour, total dividends, \$6,028,196, per cent of earnings, 30.14; Morris, total dividends, \$1,916,966, per cent of earnings, 63.56; Cudahy, total dividends, \$1,329,780, per cent of earnings, 11.00

It will be seen from this that the packers are not suffering from hard times or in danger of the poor house. Time was when pigs sold for 3 cents on foot and bacon at 7 cents, a difference of four cents. Then hogs went up to 6 cents and bacon went it some better by going to 15.

One reason is that twenty years ago the corporations had not learned how much the people would stand, or what unholy profits they could get away with without a row. It is different now. The corporations have learned that they can go the limit and are proceeding to go it.

It will be noticed that there is a wide difference in the percentage of profits made on the capital stock. This is because the Armours and the Morris' have less water in the stock, and not that their earnings were more or their profits greater.

The difference between the price of the hog now, and the price of the bacon, is six times, on the average, what the price of the hog was twenty years ago. The profits are four to five times what they were then.

Senator Booth says that if everybody he has met feels like those he has met say they feel toward his candidacy, he will have an easy race for the United States senatorship. This is probably true, but Mr. Booth should know that in politics there are more down right prevaricators to the square mile than anywhere else in the world.

Aviator Hamilton died at his home in New York City Thursday, thus setting a new mark, and being the first of the profession to die a natural death.

SOME OF SLAYER FARRIS' LOOT FOUND IN HOUSE

(UNITED PRESS LEASED WIRE.) San Francisco, Jan. 24.—The room occupied here by Ralph Farris, the El Monte bandit, now under sentence of death in San Quentin, was located today by Detective Streit.

Two solid gold rings with the settings torn out were found. One belonged to Mrs. Arthur Colena, who identified Farris on the street here and caused his arrest. The other belongs to Mrs. Murphy, of Los Angeles, a passenger on the train robbed by Farris, when he shot and killed Passenger Agent H. E. Montague.

HEAD OF ARMY IN NORTHWEST COMING

Colonel Scott Will Hold Some Special Services With Salvation Corps in Capital City.

AFTERNOON MEETING WILL BE IN METHODIST CHURCH

Mayor Steeves Will Preside and There Will Be Some Music and an Interesting Lecture.

This city is to be favored with a visit from Lieut. Col. T. W. Scott from Seattle and Staff Captain Andrew from Portland on Sunday. The Colonel is in charge of all Salvation Army operations in the Pacific Northwest.

A splendid program has been prepared by Captain N. H. Lorenzen in charge of the local work. The captain believes in keeping the visitors busy during their stay in the Capital City.

At 9 a. m. the Colonel will conduct a service at the state prison, after which he will fill the pulpit at the First Congregational church at the regular morning service. Staff Captain Andrew will speak at the Jason Lee M. E. church in North Salem.

For the afternoon, a mass meeting has been arranged for at the First M. E. church. This meeting will be presided over by Mayor R. L. Steeves supported by other leading business men.

The McGilchrist quartette will do some special singing in the afternoon. Miss Colony and Miss Grace Smith will sing a duet and Mrs. Bross J. Pinnel is also on the program for a solo.

After the first part of the program the Colonel will deliver a lecture dealing with the work of the Salvation Army.

In the evening both gentlemen will conduct a real old time Salvation Army meeting in the Salvation Army hall in the basement of the Steeves building.

The Colonel is reported to be a good platform man. He has recently taken charge of the work on the Pacific Coast. This is his first visit to our city. The Colonel comes to the coast from Chicago where he had charge of the army training college.

RIOTER IS SENTENCED TO SERVE NINETY DAYS

(UNITED PRESS LEASED WIRE.) San Francisco, Jan. 24.—John A. Sloan was sent to the county jail yesterday for 90 days by Police Judge Deany. He is one of the five men arrested here Wednesday night on a charge of rioting.

Sloan also had been arrested Tuesday at a meeting of the unemployed on charges of disturbing the peace. His case was put on the reserve calendar at that time after he had promised to stay away from further meetings of the unemployed.

When brought before Judge Deany today Sloan was sentenced on the peace disturbance charge. The charge of rioting was held against him in reserve. Edward Teesdale, another unemployed leader, fared better than Sloan. He was charged with circulating inflammatory pamphlets.

Teesdale grumbled broadly when Judge Deany characterized him as a "malicious post." "That's what the representatives of Big Business say," responded Teesdale. "I'm just going to give you 48 hours to get out of town," said Judge Deany. "Will you go?" "You bet I will," answered Teesdale. "I'll catch the first boat for Oakland."

GOETHALS SAYS HE DOES NOT WANT JOB OFFERED

(UNITED PRESS LEASED WIRE.) Panama, Jan. 24.—Told here yesterday afternoon by a United Press correspondent that Mayor Mitchell of New York had made a statement in which he said he offered Colonel Goethals the police commissionership of that city, and that he probably would accept, the chief engineer of the canal said: "I do not intend to leave Panama unless the authorities wish to get rid of me. The report that I have accepted the New York appointment is incorrect."

Goethals' statement was taken as meaning that he would accept the governorship of the Panama canal zone if tendered.

That originated in a famous doctor's successful prescription, that is made from the purest and best ingredients, that has a record of relief and benefit believed to be unequalled the world over—such is HOOD'S SARSAPARILLA.

THE ROUND-UP.

The Portland Dock Commission has paid William Reid \$306,250 for blocks 1 and 2, in that city, and will pay \$43,750 more as soon as the title is cleared. Ben Selling objected, but the only result was that the commission took a recess for a few minutes, just long enough to draw the check for the amount.

The fire in the Portland Lumber company's plant caused several firemen to become temporarily blind on account of the dense and acrid smoke. One fireman had a leg broken. It will be several days before the smouldering sawdust will be free from fire. The loss is estimated at \$150,000.

The closing of the saloons in Copperfield has caused the railroad managers to ask the commission permission to reduce the train service to two trains a week, instead of three, as has been the rule. They were given permission, of course.

The Silverton Lumber company will start its mill running Monday. It has been shut down for four weeks for repairs.

A Eugene cat, stirred to emulation by the Adullamites, recently made the trip from Eugene to Portland and return on the top of an Oregon Electric car.

The deep snows, bit by a chinook, are making Baker county farmers hustle their stock to the hills, as Powder river and all the smaller streams are at flood stage and still rising.

The bulkiest parcel post shipment that has reached Fossil to date, according to the Journal, was a consignment of three sacks of peanuts. The size of the sacks was not stated.

Eugene Register: The office boy sentimentally remarks that everybody is attending industriously to his own job these days. Afraid of what might happen with a whole army of unemployed in town, you know.

A committee of citizens and city officials from the cities of Warrenton, Hammond and Clatsop has been appointed by the Warrenton Development league to investigate the advisability and feasibility of uniting the three cities.

Hillshoro Argus: Washington county paid the state \$1001.50 for auto licenses and chauffeur permits last year. After all expenses are taken out the state will send Washington county the balance, \$834.46, to be placed in the county road fund. This would rock about a third of a mile—possibly more.

Twenty widows in Washington county drew pensions under the widows' pension act. The total is \$346.50 per month.

There are nearly 100 Michigan people in Eugene. Each summer they hold a picnic, and now plans are on foot for a midwinter banquet, to be held the last of this month.

The Condon Globe asserts that an organized fire department is one of Condon's needs, and admonishes the people of the town not to take past immunity as a guarantee for the future.

The Forest Grove Press serves notice that in the coming state campaign it is not going to be found balancing itself "on the fence of indecision." It is going to say exactly what it thinks, and opens its columns to its readers that they may do the same.

WASHINGTON FEDERATION OF LABOR ELECTS OFFICERS

(UNITED PRESS LEASED WIRE.) Raymond, Wash., Jan. 24.—With the election of officers yesterday the 13th annual State Federation of Labor convention came to a close. R. F. Marsh, of Everett was re-elected president; Charles Perry Taylor, of Tacoma, was re-elected secretary-treasurer, and the following vice-presidents were chosen: First district, Harry Call, Bellingham; second district, W. J. Coats, Spokane; third district, L. F. Clarke, Walla Walla; fourth district, Vern English, Raymond; fifth district, T. F. Burns, Tacoma; sixth district, T. H. Bolton, Seattle; seventh district, Edward Francois, Everett. H. L. Hughes, Spokane, was chosen delegate to the American Federation of Labor. George Burns, Raymond, was elected

who earlier in the day made final arrangements with the mayor for his arrest. The mayor did not suffer the hardships of a stay in jail, for City Attorney La Roche was ready to serve a writ of habeas corpus as soon as the arrest was made. Mayor Albee was arrested to furnish the basis for a suit to determine whether the city of Portland has the right to work its firemen and patrolmen more than eight hours a day. The city claims it has. Labor Commissioner Hoff takes the opposite view.
