## PORTLAND WINS FIRST GAME HERE

The opening of the McElroy bowling alleys, North Commercial St. brought out a big crowd, and there was much interest in the contest between a Portland and Salem team, the latter being defeated 1865 to 1757. President Hall, of the Portland Bowling association, made a few appropriate remarks and rolled the first ball. In the Portland-Salem game, the score was as follows:

Portland.				
	1st	2nd	3rd	T'l Ave
Blaney	189	189	189	567
Myers	179	138	191	508
Raymond	144	141	142	427
Ball	133	155	169	457
Barney	146	135	281	562
Salem.				
	1st	2nd	3rd	T'l Ave
Kross	126	154	280	560
Pratt	140	144	133	417
Laffer	127	136	162	425
Wyman	194	137	106	437
Craven	138	138	138	414

A special match between Ernest Bechtel and "Pop" Meek of baseball fame was won by the former. The score: 1 2 3 4 5 T'l Ave  
Bechtel, 199 189 210 193 189 971 194  
Meek 189 198 170 176 211 944 189

### AMATEUR RULE UNDER FIRE

[UNITED PRESS LEASED WIRE.] New York, Feb. 6.—The most important question to come up at the thirty-third annual meeting of the United States National Lawn Tennis Association which convened here today, was expected to be that relating to "foot-faulting."

The plan was to change the rules to require the player serving the ball to replace his foot in the same spot after the serve. Robert D. Wren, president of the association, declared that such a rule, contrary to general opinion would not weaken the "cannon ball" style of service which gives McLaughlin such a handicap. Wren declared that McLaughlin would be less hampered by such a rule than would Wilding, Brookes, Gore, Roper-Barrett, and other English players. It was believed today that the change would be adopted.

### BANKER'S SON GETS SORE AND GOES TO WORK

[UNITED PRESS LEASED WIRE.] Sacramento, Cal., Feb. 6.—Resenting the "joshes" of his fellow club members that "he never did a day's work in his life," B. P. Anderson, son of a prominent San Francisco banker and well known as a college football player, donned overalls yesterday and worked all day at a ten story building under construction.

While Anderson was pushing a wheelbarrow heavily laden with concrete, the other members of the university club stood around and gave him the laugh. "I may get a few blisters," Anderson shouted to them, "but I'll show you fellows that I can work."

### NUMBERING FOOTBALL PLAYERS

[UNITED PRESS LEASED WIRE.] New York, Feb. 6.—A determined effort to adopt a rule requiring all football players to wear numerals was scheduled for tonight when the Intercollegiate Football Rules Committee meets here to discuss proposed changes in the playing rules. E. K. Hall, chairman of the committee, was to preside. It was predicted today that few changes in the rules will be made.

## JABS AND JOLTS

The baseball bug doth give my heart a pain.  
The golfing bug doth make my spirits fall.  
But both of them are puny bugs and vain  
Besides the yachting bug—the worst of all.

C. Weeghman to American League. If you had called me cruel names or kicked me on the shin I would have borne it all with scorn and worn a careless grin. If you had robbed me of my cash or poked me on the eye, I would have borne it cheerfully nor even heaved a sigh. But when you offered me the Browns it almost knocked me flat, in all my life I never felt an insult such as that.

Gunboat Smith is a regular pugilist, but he is an exception. When you meet the average white hope you wonder how it is that an insect can be so large.

The report that Russell Ford and Ed Sweeney have jumped from the Yanks leads one to ask: "Why should they jump from Frank Chance, one of the few white men in organized baseball?"

We refuse to believe the report that Ed Sweeney talked four hours with Charley Weeghman. No human being could stick around that long with a baseball magnate without being talked to death.

After taking a look at Knockout Brown the chief of police of Gary, Ind. said he was a prizefighter. The chief of police of Gary, Ind., is a great little flatterer.

Charley White has a perfect right to claim the championship of the world at 133 pounds at 6 o'clock, but who is the champion of the world at 133 pounds at 6:15?

George Chip is said to have invented the delayed punch, but it remained for Willie Ritchie to invent the delayed fight.

Jack Johnson says he has abandoned the wrestling game and returned to fighting. This shows there is a certain amount of good in every man.

Victor Saier has refused to sign a Federal league contract. Among those mourning are Joseph Tinker and Frederick Mollwitz. Mr. Tinker has lost all hope, but it wouldn't pain Mr. Mollwitz a whole lot if Mr. Saier were to fracture a limb.

### FRARY SIGNS CONTRACT

[UNITED PRESS LEASED WIRE.] Portland, Ore., Feb. 6.—The signed contract of Ralph Frary to umpire in the Northwestern league this season was received yesterday by President Fielder Jones. Frary umpired in the Union association the last two years.

### BAT LEVINSKY VS. TOM McMAHON

[UNITED PRESS LEASED WIRE.] New York, Feb. 6.—Tom McMahon, of Spring Valley, Pa., was to be battling Levinsky's opponent here tonight in a ten round bout at the Star A. C. The Battler today was picked to win.

### NO TANGO AT WELLESLEY

[UNITED PRESS LEASED WIRE.] Wellesley, Mass., Feb. 6.—It will be a tango-less senior "prom" which Wellesley girls will give tonight in the Mary Hemenway Gymnasium scene of countless Terpsichorean events of other years. As a result of the faculty ban on the wiggly tango, the girls are sad. Gloom about the classrooms today could be cut with a knife. The senior "prom" generally is attended by scores of Harvard students, and as Harvard men have gone in for the tango at all of their dances, the girls feared the annual "prom" this year would be dubbed a frost.

## GUGGENHEIMS AND MORGAN DENOUNCED

Corruption and Bribery of Judges and Attacks by Paid Assassins Part of Their Program.

### DRAMA OF GREED AND CARNAGE, SAYS BORLAND

Lawlessness not Confined to Wall Street But Extends From Alaska to London Counting Houses.

[UNITED PRESS LEASED WIRE.] Washington, Feb. 6.—Scathing denunciation of the Guggenheims of Colorado and J. Pierpont Morgan was voiced by Representative Borland of Missouri during the debate on the Alaska railroad bill in the house late yesterday. "The story running through the courts' sober records," he said, "includes everything from the corruption and bribery of judges to the wanton attacks by an armed band of assassins upon workmen engaged in rival enterprises. It is a drama of greed and of carnage unparalleled since the days of Warren Hastings."

Widespread Crooked Work. "The scenes were enacted not only upon the snowed plains of the Arctic circle but also in the banks of Wall street and the counting houses of London. This high handed and lawless attempt to grab the resources of Alaska caused the locking up of that great territory by executive enactment."

Borland said the situation today presented the alternative of returning the territory to an Alaskan syndicate or giving America the benefit of its natural resources by building the proposed railroad.

### KAUFMAN IDENTIFIED AS ROBBER OF TRAIN

[UNITED PRESS LEASED WIRE.] San Francisco, Feb. 6.—Jean Labanta, alias Clyde Kaufman, the confessed train robber and forger, was brought to San Francisco yesterday by several mail clerks who were on the train held up by Labanta in the last four months. Labanta was ordered incarcerated in the Alameda county jail pending action by the federal grand jury which was expected to take up his case today.

### NATIONALS ELECT DIRECTORS

Washington, Feb. 6.—Election of a board of directors and other business was scheduled today for the session of the stockholders of the Washington American baseball club.

## SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys Then Back Hurts and Bladder Bothers You.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged, and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

### TWO NOMINATED

[UNITED PRESS LEASED WIRE.] Washington, Feb. 6.—The nominations of Charles Lobinger of Omaha to be judge of the federal court in China, and Colonel George Barnett to be a major general and commandant of the United States marine corps were sent to the senate yesterday.

## SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Color, Luster and Thickness to Hair When Faded, Streaked or Gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and schaggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural color, thickness and luster of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. Local agent, J. C. Perry.

## WOMAN POLITICIAN FOR POLITICIAN MACHINE

[UNITED PRESS LEASED WIRE.] Denver, Feb. 6.—"I am a machine politician. By machine, I mean not a corrupt body but an organization pure in principle and certain in purpose."

So spoke today Mrs. Gertrude M. Lee, the first woman in the United States to become chairman of a state central committee of one of the principal political parties. Mrs. Lee who was vice chairman of the Colorado Democratic central committee took over the chief executive office of her party in this state when Chairman George M. Bradley resigned.

Mrs. Lee is preparing a strenuous program for herself during her term of office. "A machine—in other words a forceful and harmonious organization—is the only factor which can assure the success of a party," she said today. "I believe in the party above the man. The candidate should be pledged to certain principles and after that the individual equation should be eliminated."

"My aim will be to organize our party and to see that Democrats are returned to office in the next election. We cannot afford to let a Republican succeed Senator Thomas when his term of office expires."

"I intend to visit every county in the state and learn the true political conditions. I do not propose to take anybody's word for it by mail or long distance that 'everything is going fine.' We cannot afford to do that. We must be sure. I shall try to reorganize local committees everywhere in the state and have the movement started right."

"One of the greatest of my aims will be to bring the majority of the women of Colorado under the Democratic standard. I am a Democrat for principle's sake—not for political reasons. The Progressive party claim to be the true representative of women's rights but I hope to make the Democratic party the leading exponent of the equality of women and men in politics."

Mrs. Lee has been prominent in Colorado politics for many years. During the last legislature she served as a member of the lower house. Her friends say she has a genius for organization and they predict the greatest success the Democracy has ever won in this state under her leadership.

### SEEKS TO SOLVE PROBLEM

[UNITED PRESS LEASED WIRE.] Washington, Feb. 6.—The office of the Farm Management Bureau has now undertaken to investigate and solve the problem of making the farm home better. Already it has learned that certain features are overlooked in providing economical arrangements for the household, when they might just as easily be provided for. One of the Department's special-

## FARM HOME IS VERY IMPORTANT FEATURE

Kitchen Is Most Important Room, According to Department of Agriculture Experts.

### AVERAGE AMERICAN FARM HOME IS BEHIND TIMES

Housewife Not Provided With Modern Conveniences She Should Have to Work With Comfort.

[UNITED PRESS LEASED WIRE.] Washington, Feb. 6.—The farm house is pretty nearly the most important point about the farm, so far as the condition of the agriculturist is concerned, and of the farm house, the kitchen is the most important room. Department of Agriculture experts so held in an article prepared for the United Press today. The importance to the farmer of having an "economical farm house" has been emphasized by the Department's farm architect. He holds that mental and physical fitness of the laborers both within the house and in the fields is vitally affected by the building that affords the family shelter.

"The average American farm home," says the Department, "has failed to share in the improvements that every day being made in agricultural conditions and is a rebuke to our boasted civilization. Relatively the housewife of a century ago, with her fireplace-cooking and log-cabin, was better provided for than is the housewife today. The most important building on the farm is the home. The health, comfort and happiness are dependent upon its construction and equipment, and unless these matters are looked after, the sanitary dairy-barn, or the economically constructed buildings for stock are of little value. Happiness and contentment in the family are as essential to efficient service as are improved tools and outbuildings."

### SHOULD AID ARCHITECT

"Although the housewife spends, in many cases, a lifetime in her 'workshop'—the kitchen—and the family rooms, she is not as a rule, capable of planning a house in the highest degree serviceable and comfortable, without assistance. Her help, however, is essential to the farm architect, as the result of his plans most vitally concerned her. One of the most important details regarding the average American income farmhouse is that it must be inexpensive. The average net annual income of the farmer today, after deducting five per cent interest on his investment, is less than \$400. This does not mean that the house may not be attractive. They may, if intelligently planned, with the help of vines, shrubs and trees, become the prettiest spots in the landscape and more beautiful and inexpensive than the crowded city houses. The tenant house is growing in importance. The number of rented farms increased by more than 324,000 during the last decade. Today little more than half the farms in this country are operated by owners."

"The possible economy in household labor and the conservation of strength of the housewife are two important factors to be considered in the construction of the farmhouse. Pleasant and comfortable houses tend to hold families together; but cheerless, unattractive and unsanitary homes are what drive girls and boys to the cities. Investigations of prisons, insane asylums, and corrective institutions seem to prove that the sins which account for the existence of these institutions are often bred in inadequate and unpleasant farm homes. Therefore this social aspect of the problem is considerable. Seeks to Solve Problem.

"The office of the Farm Management Bureau has now undertaken to investigate and solve the problem of making the farm home better. Already it has learned that certain features are overlooked in providing economical arrangements for the household, when they might just as easily be provided for. One of the Department's special-

Good quality huck towels, 18x36. Special ..... 7c ea

### Muslin Underwear

Four big tables full of combinations and gowns in a variety of styles and qualities. Special..... One-half price

## "CENTRAL" WILL NOT RING FOR CHURCHES

[UNITED PRESS LEASED WIRE.] Seattle, Wash., Feb. 6.—Every telephone subscriber in Seattle next Sunday morning will not be invited by a young woman, with a silvery voice and perfectly proper motives, to attend church.

Central will not at a certain hour, call up every member and inform the subscriber that the day is "go-to-church day," and that the ministerial federation requests his or her presence at the nearest church.

It was a fine plan, but it had not received the sanction of the telephone company. Dr. Ralph Atkinson, chairman of the "go-to-church" committee of the ministerial federation, blames premature publicity for failure of the plan.

Telephone company officials say they are heartily in favor of "go-to-church day," but that the plan of having the telephone operators call all subscribers is impracticable. The reasons given are that it would establish an embarrassing precedent; that it would be impossible to call up everyone; that the time it would take would seriously interfere with the service at the different exchanges, and that many subscribers who work at night and sleep late would not relish an early awakening.

## AFTER SICKNESS OR OPERATION

It is a pathetic mistake to accept drugs or alcoholic mixtures when nature craves nourishment to repair the wasted body and restore the vigor of health.

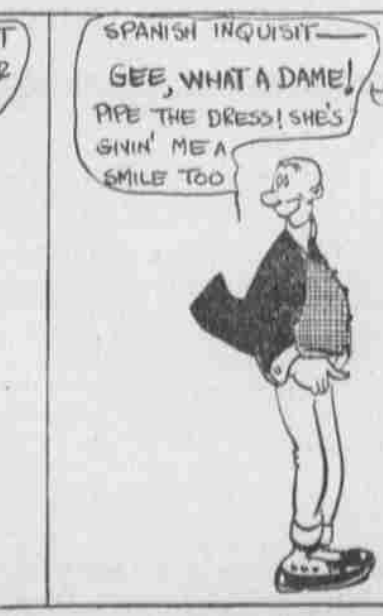

For forty years the best physicians have relied on the wholesome predigested nourishment in SCOTT'S EMULSION which is totally free from alcohol or opiates.

Scott's Emulsion sharpens the appetite—renews blood—nourishes nerves—strengthens bones and restores the courage of health to make life bright.

Scott's Emulsion gets in action the very forces that promote health. Its purity, richness and strength has stood the test of forty years.
