

### WILL CLOSE EARLIER AS RESULT OF RULE

Saturday Nights Department Stores Will Quit Business at 8:30 Instead of 9 O'clock.

MINIMUM WAGE OF \$8.25 PER WEEK WILL BE PAID

Inexperienced Women Workers Will Get Not Less Than \$6, According to Commission's Ruling.

That the department stores of Salem will close at 8:30 instead of 9 o'clock, will be one of the results of the order of the Industrial Welfare Commission regarding women employees, effective tomorrow. Local stores, which employ many women workers were prepared today to comply with its provisions. The edict forbidding labor by women, after 8:30 at night, except in certain work, which must be done at night, will cause no great inconvenience, it was said. A minimum wage of \$8.25 per week and a maximum wage of 54 hours per week is fixed. Inexperienced workers get not less than \$6 per week, and apprenticeship extends not more than a year, according to the rule.

#### Full Text of Order.

The full text of the order is: No person, firm or corporation shall employ any experienced, adult woman in any industry in the state of Oregon, paid by time rate of payment, at a weekly wage rate of less than eight dollars and twenty-five cents (\$8.25) a week, any lesser amount being hereby declared inadequate to supply the necessary cost of living to such women workers and to maintain them in health.

Nor shall any such person, firm or corporation employ women in any industry in the state of Oregon for more than fifty-four (54) hours a week.

Nor shall any such person, firm or corporation pay inexperienced, adult women workers employed by time rate of payment, at a rate of wages less than six dollars (\$6.00) a week. And the maximum length of time such workers may be considered inexperienced in any industry shall not exceed one year.

No person, firm or corporation owning or conducting any mercantile, manufacturing or laundry establishment in the state of Oregon shall employ women workers in such establishment later than the hour of eight-thirty (8:30) o'clock p. m. of any day. It was denied on high authority that President Wilson is considering intervention at last.

"The warring factions," said an official in close touch with administration plans and policies, "will be left to fight it out without interference."

Another report was that the rebels had floated a \$25,000,000 loan, and that

Vera Cruz, Feb. 6.—John Lind was quoted here today to the effect that President Wilson lifted the embargo on arms shipments from the United States into Mexico to let the federalists and rebels "fight it out" and demonstrate which really was the stronger. Lind did not make the statement for publication but was said to have explained matters in conversation with a personal friend.

### WEIST'S PROPOSITION REJECTED BY BOARD

Case for Wages Alleged to Be Due for Teaching in Englewood School Will Be Tried Tomorrow.

#### SECOND TRIAL OF CASE INVOLVING WAGE CLAIM

Jury in First Case Disagreed and So Deposed Teacher Will Have Another Chance in Court.

A conference was held yesterday by the school board with its attorney, George G. Bingham, for the purpose of discussing what disposition should be made of the action commenced in the circuit court by W. A. Weist against the members of the board to collect \$650 alleged to be due on a contract entered into whereby the plaintiff was to receive \$1100 for filling the office of professor of the Englewood school during the year 1913.

A settlement was proposed by the plaintiff to the effect that if the school board would pay him \$250 a stipulation would be signed dismissing the complaint. The board refused to recognize the offer, and Judge Kelly will conduct the second trial of the action, either this afternoon or tomorrow.

The plaintiff was engaged by the school board to conduct the Englewood school during the past year. Upon complaint of various parties among which were members of the "Municipal League of Salem," Mr. Weist was dismissed on the grounds that he had helped unlawful relations with one of his pupils. The deposed teacher then took his case to court and sought damages for personal slander. He was given nominal damages and afterward commenced suit to recover the \$650 alleged to be due on the contract following the board's refusal to permit him to fulfill the agreement. The jury in the first case disagreed and now, since the board refuses to settle for over half the sum demanded by the plaintiff, a new trial is being held.

### BISHOP BELL GIVES GREAT LECTURES HERE

Have you heard Bishop Bell in any of his lectures at the First Methodist church? If you have not, you have missed something that would have pleased, instructed and delighted you. The writer confesses that he seldom goes to hear a lecture, and for the simple reason that most lectures are demagogical and hypocritical. Most of them are intelligent men who prostitute their talents for hire. They will lecture on either side of a proposition, just as lawyers take cases and undertake to win when they know they are wrong, and for no other reason than the coin there is in the job. Their insincerity and generally evident hypocrisy long ago broke newspaper men from going to hear them. It was for this reason the reporters fought shy of hearing Bishop Bell, and therefore missed several of his splendid lectures.

People often wonder why more attention is not given lectures by the newspapers, and the reason is given above. To it may be added that the papers dislike, naturally, to be worked and made to play the other fellow's game and assist the lecturer in bamboozling the public.

Thoroughly Informed Man. Bishop Bell is not in that class. On

the contrary he is a thoroughly informed man, and his lectures show deep research, logical reasoning, correct premises and irresistible conclusions. He has a splendid delivery, a perfect command of language and just a trace of the New England pronunciation, that being polished by contact with Westerners gives a peculiar charm to his speech.

His subject last night was "Democracy and Government as Related to Our Economic Conditions." To give a resume or synopsis of his lecture is impossible for the simple reason that every sentence said something definite, was a necessary part of

the whole without which there would be something wanting that would mar the symmetry of thought and expression.

#### Duties of Citizenship.

It was a clear and understandable showing of the duties of citizenship, on which stress was laid on our duty to the government, which meant to each other, since the people are the government. He showed that discontent would always exist, and that uniformity can never be attained. Opportunity exists for all, but all do not see, or seeing do not grasp it. One man or a few men in a community see and take advantage of these opportunities and so

get rich while others, their neighbors, remain poor. All we can hope is to maintain a high average in content and in uniformity. The danger to the country lies in the two extremes of great wealth and dire poverty. The real leaders of the people are so far ahead that the average man cannot always understand the positions they take and the unfortunately ignorant are so far behind the average that they cannot understand them. It is our duty to hold the extreme of wealth down, and to advance and improve the condition of the poor and those below the average, so as to raise that average, because that is the element on which the gov-

ernment rests, which is in fact, the government.

#### Last Lecture Tonight.

But it is useless, as we have said, to even try to analyze the good Bishop's lecture. He lectures tonight, the last of the series, at the First Methodist church, and by request will repeat his lecture of Wednesday evening on Socialism and Capitalism. We advise all our readers to take advantage of the opportunity and hear the most interesting and instructive lecture ever delivered in a Salem church.

You will get something to think about and you will thank us for giving you the "straight hunch."
