

CENTRAL PACIFIC MUST RUSH ITS WORK

Disolution Suit Will Make it Necessary to Have Natron-Klamath Line Ready for Operations.

WILL ALSO BE NEEDED IF SOUTHERN PACIFIC WINS

Financial Position Will Be so Strengthened Completions Would Be in Order if There is Victory.

Early completion of the Natron-Klamath cutoff may be a result of the Government's suit to dissolve the Southern Pacific-Central Pacific merger.

If the Government wins the suit, and the Central Pacific is made an independent property, the Central Pacific doubtless will be forced to complete the cutoff so that it may have connection with its existing line between Eugene and Oak Ridge. This will give the Central Pacific a complete and undisturbed road from Odgen to Eugene—

with Portland only 125 miles away. If the Southern Pacific wins the suit, the two roads remain consolidated, the Southern Pacific's financial position will be strengthened sufficiently to allow it to complete the work. The Natron-Klamath project will fare better at the hands of the Central Pacific than of the Southern. To the Central its completion will be a necessity; to the Southern a mere convenience.

Oregon Benefits Cited.

By completing this line the Central will be able to compete with the Southern on all business between Eugene, Sacramento and San Francisco. The Oregon territory between Eugene and the state line will have the benefit of two separate roads actively competing with one another for traffic. Under this condition the Central Pacific would have a decided operating advantage, as soon as the Natron-Klamath line would be completed, as it owns the only piece of track between the Oregon

California state line and Tehama, Cal., 200 miles south.

It is certain, however, that the Railroad Commissions of the two states would force the roads to enter into an operating agreement. The Commissions doubtless would see to it that through service between Portland and San Francisco would not be disturbed. On the other hand, the Southern Pacific would have a decided advantage from a traffic standpoint. It has the organization and the prestige of having done business "at the old stand" for a long period of years.

Task Would Await Central.

The Central Pacific, if it destined to start operations independently, will have to build up its own organization and create its own business. But the position of the Central Pacific is more secure than seems apparent. All the trackage through Odgen, through Nevada to Roseville, Cal., and northward through Tehama, Red Bluff, Dunsmuir and Weed to the state line belong to the Central. The branch line between Weed and Klamath Falls belongs to the same road. The Natron-Klamath work is being done by the Central Pacific, not by the Southern Pacific. The Southern appears in the situation because it controls the stock of the Central.

But in the event that the Central Pacific become independent, there is possibility that its position will be strengthened even further. A line already has been built from a point a few miles west of Hazen, Nev., northwesterly to a point beyond Susanville, Cal. This line is projected into Klamath Falls. Surveys have been made. This would afford a more direct route between Odgen and Eugene and eliminate a distance of nearly 150 miles.

Although the Central Pacific's invasion of Eugene would leave it without direct connection with Portland it is certain that this unfavorable situation soon would be overcome.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25-Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

QUEENS WAGE EARNERS

ALMOST ANY OF THEM COULD MAKE COMFORTABLE LIVING IF FORCED OUT.

London, Feb. 13.—Almost any of the Queens of Europe, if they should be deprived of their thrones and fortunes, could earn a comfortable livelihood by means of their own personal talents.

Queen Mary of England is a clever seamstress, and she also sings and paints quite creditably. Queen Victoria Augusta of Germany is skilled in the use of the camera and produces a special kind of art-photos. Queen Wilhelmina of Holland paints miniatures and porcelain. Queen Maud of Norway is a playwright, using the pseudonym of "Graham Irving." She is also a competent book-binder, dressmaker and painter.

Queen Elizabeth of Belgium possesses a doctor's diploma of the University of Leipzig. Besides she plays the piano and violin exceedingly well. Or, her skill as a motorist would easily qualify her for a job as a taxicab "chauffeuse." "Carmen Sylvia" (Queen Elizabeth of Roumania) is a world famous poetess and novelist. Queen Helena of Italy could readily earn \$500 a week on the vaudeville stage as an expert swimmer and riflewoman, without disclosing her identity. She is also an archaeologist.

ODD DEATH CERTIFICATES

ONE FADED, ANOTHER STABBED ON SUNDAY AND THIRD DIED SUDDENLY IN BASEMENT.

Columbus, O., Feb. 13.—You can die in Ohio without having the doctor attach a fancy name to your death certificate. Dr. A. C. Holland, of the State Bureau of Vital Statistics, is authority for this statement.

"He lived several years beyond his natural life and then just petered out," read a death certificate from Washington county. Another said, "He just faded away."

"Death came by visitation of God in a natural way," was a Jefferson county contribution. A Pike county man died from "A post-mortem hemorrhage." Cleveland sent in a certificate which read: "Stabbed on Sunday." Another one went into details. It read: "Died suddenly in the basement. History and appearance, heart disease. Contributory cause, possibly sewer gas."

As the state spends thousands of dollars apiece classifying causes of deaths, Dr. Holland today was busy returning certificates for a more specific explanation.

URGES BADGES FOR DIVORCE PERSONS

Denver Attorney Thinks Decrees Should Be Advertised As Widely As It Is Possible.

WOULD ADVERTISE IT IN NEWSPAPERS WHEN GRANTED

Embarrassment Would Be Saved Friend Who Refer to Deposed Spouse in Complimentary Way.

[UNITED PRESS LEASED WIRE.]

Denver, Feb. 13.—Divorced persons ought to wear a badge showing their separation from the state of matrimony. This ought to be displayed just as crepe is displayed by grief stricken persons who have lost a relative by death.

Warwick M. Downing, attorney, is opposed to suppressing divorce cases and he made this suggestion today in discussing the matter. Divorces not only should not be suppressed, he thinks, but they ought to be advertised as widely as possible.

"Of course," said he, "I suppress divorce cases when my clients ask me to do so but I am opposed to it. When a couple is courting, they are not ashamed that anybody should know it. They show it everywhere. Then when they are engaged the announcement is made in just as big letters as the newspapers will permit. When the marriage ceremony is performed, if they don't get their pictures in the papers and the names of those present, they are disappointed. Now isn't the divorce just as important? Isn't it, as a matter of fact, more important? If a woman does not care enough about a man to live with him, or vice versa, don't you think they should be willing that the world know it? They were tickled to death to let the world know that they were engaged and then married. Why not tell the world about the divorce?"

"It strikes me that as soon as a divorce is started it would be the proper thing to advertise it, if the newspapers wouldn't voluntarily give it publicity. And then, by all means, after a divorce is actually granted, get as much publicity as possible. Think of the embarrassment it would save. Friends wouldn't be making the mistake of referring to the deposed spouse with compliments, thinking they were pleasing the one addressed. They would know the separation had taken place and would take care not to refer to it. In fact, it wouldn't be a bad idea to

For pastry there is nothing to compare with

Cottolene

Cottolene "creams up" beautifully, always, and every cook knows what an advantage that is. It is always plastic and blends readily with the flour or sugar. This makes Cottolene especially pleasant to use in cakes, pastry, sauces, biscuits and the like.

Have you tried Cottolene yet? If not, do at least test it for yourself. You will then understand some of its many advantages. At the same time, do not forget that food experts advocate this wholesome shortening as reliable, economical and digestible.

show additional evidence of divorce. When dear ones die, we wear crepe as an insignia of our grief. Why not adopt a badge for divorced persons. When women or men go home from a divorce court, let them wear a badge that will indicate the recent divorce. Then let it be announced in all the papers and let the badge serve as a protection against friends who haven't read the papers."

SAN FRANCISCO OPPOSES DIVORCE OF TWO RAILROADS

[UNITED PRESS LEASED WIRE.]

San Francisco, Feb. 13.—Members of San Francisco's Chamber of Commerce were lining up here today to prevent the divorce of the Southern Pacific and Central Pacific railroads, despite the filing at Salt Lake City yesterday of the government's suit. The chamber directors indicated that efforts will be made to enlist Oregon business men in opposition to the government's suit. A statement issued today read:

"The chamber of commerce will continue to do everything in its power to conserve the business interests of Cal-

ifornia and to maintain in California the only railroad system which properly can be called a California system—a system which has its headquarters and executive offices here—and we have reason to believe that this will be heartily supported by the commercial interests, not only in California, but in Oregon as well."

PRESSES SEARCH FOR HER NIECE WHO DISAPPEARED

[UNITED PRESS LEASED WIRE.]

Portland, Or., Feb. 13.—Hastening without stop and without sleep all the way from Phoenix, Ariz., Mrs. H. L. Moser is in Portland today to actively press the search for pretty Frances Lounts, her niece, who disappeared from the home of her grandmother shortly before dawn a week ago.

Notified by wire that her niece had disappeared, presumably to find refuge in a monastery, but with practically no money or knowledge in worldly matters, Mrs. Moser started northward by the first train.

Mrs. Moser resides in Portland, but was in Phoenix on a visit. Since Miss

Lounts disappeared nothing has been heard of her. W. N. Lounts, her father, is a wealthy business man of Phoenix.

SAYS GAME IS TOO TOUGH FOR HIM AND SHOTS SELF

[UNITED PRESS LEASED WIRE.]

San Pedro, Cal., Feb. 13.—"Forty-four years of labor and nothing to show for it but a maimed body and eyesight nearly gone; nothing in sight here, so I'll try the other side."

Penning on a scrap of paper by Patrick Fitzgerald, a note closing with this pitiful surrender was found today by his unconscious body. Fitzgerald was taken to the county hospital at Los Angeles, a bullet hole in his head. His pockets were empty.

"What's the use?" the note read. "The game's too tough for me."
