The Markets

Wheat remains quiet with prices unchanged. There is a lull in Oriental demand, caused by the refusal of the steamship companies to give more liberal rates. Poultry is slightly higher owing to lack of supplies and eggs are slowly crawling downward. The orange supply is running low and prices are slightly advanced. Hops are unchanged, and but few sales are reported.

HOUSE COMMITTEE ON NAVAL AFFAIRS CUTS POUND

WASHINGTON, Feb. 19.—The navy department's estimates were drastically slashed yesterday afternoon by the house committee on naval affairs. As it comes from the committee it seemed likely the navy appropriation bill would provide for two battleships and eight destroyers, but the allowances for ammunition and other supplies and naval improvements promised to be heavily cut. A tentative draft included \$500,000 for a fuel oil station at San Francisco, \$275,000 for Mare Island navy yard, \$170,000 for Pearl Harbor, Honolulu, but nothing for the Puget Sound yard. It authorized the leasing of drydocks at Hunters Point, San Francisco, for naval purposes for six years at \$50,000 a year. Ample provision was made for celebration of the opening of the Panama canal.

WILL TELL ABOUT LOOTING.

WASHINGTON, Feb. 19.—Representative Greene of Iowa, who introduced yesterday a resolution for an investigation of the holding companies in control of the Chicago, Rock Island and Pacific railway, announced today that he intends soon to discuss in the house the alleged "milking" and "watering" of that system. He said he would show that \$75,000,000 worth of stock issued ten years ago has swollen to \$192,000,000.

SCHOONER IS SINKING.

NEW YORK, Feb. 19.—The five masted ketch of Bath, Me., was reported in a sinking condition yesterday off Cape Hatteras.

WEALTH AWAITS MANY MARION COUNTY MEN

California Promoter Cannot Understand Why Farmers Around Lake Labish Do Not Drain Tracts.

SUGGESTS DEVELOPMENT OF REGION WITHOUT DELAY

Funds Necessary for Development Small in Comparison With Benefits to Be Derived Therefrom.

According to J. O. Hayes, the Californian who has successfully drained Lake Labish proper, farmers in Marion county hardly realize the actual worth of the land lying around loose in an uncultivated state. Mr. Hayes' portion of the lake is small compared with acreage of the remainder despite the fact that the California promoter holds at least 2000 acres. Thousands upon thousands of acres of this beaver dam land is located north and northeast of this city and it is practically worthless at the present time for the reason the owners will not undertake to carry out a proposition similar to that in which Mr. Hayes is successful engaged. Enormous Farming Tract.

"Lake Labish comprises one of the most valuable and largest farming territories in the country," said Mr. Hayes yesterday. "The land is capable of growing anything under the sun and it is a great wonder the farming community north of Salem has not realized the fact long before this. Of course, it costs a little money to prepare this beaver dam land for actual use, but when comparing the cost of preparation with the great benefits, both financially and otherwise, to be derived, it is a foregone conclusion that to clear, drain and put the acres to work means wealth for any person who is willing to tackle the proposition."

"I would suggest that the owners of the remainder portion of the lake dig a ditch similar to mine from the present drainage ditch west to the Willamette river, and every foot of this land is capable of growing farm produce in unlimited quantities and of the very finest quality. It would require considerable funds to promote such a proposition, I will admit, but taking into consideration the worth of the land after it has been properly cared for, the money expended in improvement would be a mere trifle in comparison."

Is Booster. Although Mr. Hayes is a Californian and has large holdings in the southern state, he is not overlooking the possibilities at hand right here in Marion county. He declares that land worth \$1000 an acre is not picked up in every state and that he intends to prepare 2000 of the Lake Labish land and raise things which will make the Oregon farmer sit up and take notice. "After I have cleared my 2000 acres it will be necessary for me to put it to immediate use in order to keep it clear of foreign growth," he continued. "I am safe in saying that this beaver dam soil will need work or it will be covered with foreign growth in a very short space of time. It will require great effort to keep the land clear of growing substances long enough to complete the work of clearing, as the soil is of such nature as to render it a veritable natural fertilizer, which will force the growth of all seeds and shrubs."

ALASKA BILL IS PASSED

HOUSE APPROVES MEASURE WHICH MEANS AN EXPENDITURE OF \$35,000,000.

WASHINGTON, Feb. 19.—The administration Alaska railroad bill, authorizing the president to construct a \$35,000,000 railroad from Alaska's coast to its great coal fields, was passed by the house late yesterday by a vote of 230 to 7.

A similar measure has passed the senate and the bills will be taken up at once in conference between the two houses, and the measure will be sent to the president, who has signified his intention of signing it. At the eleventh hour, after a sharp parliamentary skirmish, the house eliminated from the bill as reported by the territories committee, a provision authorizing a bond issue of \$35,000,000 to finance the railroad and to be paid off by the proceeds of government land sales in Alaska. The senate bill provides a \$40,000,000 bond issue. Representative Fitzgerald, of New York, led a fight which resulted in striking out the bond provision. Under the amended measure the project would be financed out of the funds by the treasury, the president being limited to \$35,000,000 and \$1,000,000 being appropriated for immediate expense. Congress would appropriate each year the amount estimated to be necessary for the construction of the road. The bill provides for the construction

of a road "not to exceed 1000 miles, to be so located as to connect one or more of the open Pacific ocean harbors on the southern coast of Alaska with navigable waters of inner Alaska, and with a coal field or fields including coal sufficient in quality and quantity for naval use, so as to best aid in the distribution of agricultural and other resources of Alaska."

DRAMATIC NEWS

"M'INTYRE AND HEATH"

McIntyre and Heath will be the attraction at the Grand Saturday February 21 in John Cort's splendid revival of the big musical novelty, "The Ham Tree," which is one of the greatest laughing successes the American stage has ever known. These comedians have no equal in the delineation of quaint negro characters, and they are funnier than ever in their career. The book of "The Ham Tree" is by Geo. V. Hobart, the lyric by William Jerome, and the catchy music by Jean Schwartz. Mr. Cort has spent money lavishly on the production, and has surrounded his stars with a company of much excellence. A special feature is the chorus of fascinating girls who do some wonderfully attractive dancing.

"MUTT AND JEFF"

Suppose things did go wrong at the office today, that's no reason why you should take the "kid's heads off" every time they move. Remember, you were a "kid" once yourself and I'll venture to say you were twice as bad as your's are. Phone down to the Grand and get seats for "Mutt and Jeff in Panama." Laugh the darned trouble over with the kids and you'll all be happy. Be young while you can, old age and the gronch will come soon enough.

APPEAL TO BRYAN

Alleged Spy Still Held.

EL PASO, Feb. 19.—Though United States Consul Edwards, at Juarez, succeeded yesterday in seeing Gustav Baueh, the American charged by the rebels with having been a spy in the federal's service, he had failed today to secure his release. He was hopeful, however, that his trial would result in his acquittal.

The greatest anxiety was felt for W. S. Benton, the Englishman who started for the Mexican side of the border, was reported to have been arrested in Juarez, and then disappeared. General Villa insisted, however, that the story of the arrest was a mistake and that nothing was known of the missing man in Juarez.

His Mission to Stab Huerta.

MEXICO CITY, Feb. 19.—David Guzman, the young man on whose person a dagger and letters from leading rebels were said to have been found following his arrest last night for insisting too strenuously on an interview with Huerta, was under examination today. It was understood the authorities were confident his mission was to stab the president.

HOLD UP SIX SALOONS.

SALE FRANCISCO, Feb. 19.—That Francis Fisher and James Wilson, arrested here Sunday night, were responsible for six saloon hold-ups within a week was the confession alleged by the police to have been made by Fisher here today. The six hold-ups, however, netted the two men less than \$25. The occasion is always as great as the man.

RUB BACKACHE AWAY WITH OLD TIME OIL

It is magical, yet absolutely harmless and doesn't burn or discolor the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly and surely. It never disappoints.

TOTAL OF 300,000 ACRES OF OREGON LAND FOR SETTLERS

(UNITED PRESS LEASED WIRE.)

WASHINGTON, Feb. 19.—Secretary Lano on recommendation of the Geological Survey, has designated nearly 300,000 acres of public land in Oregon for entry under the enlarged homestead act.

The lands are all situated in the eastern, non-arid portion of the state, and have been classified as non-irrigable in character by the director of the Geological Survey. The areas are widely scattered in more than 50 different townships. Inquiries may be addressed to the officials of the local land office at The Dalles, La Grande, Lakeview, Burns and Vale, in whose districts the lands are situated.

BRIDGE SWEPT AWAY.

(UNITED PRESS LEASED WIRE.)

SANTA BARBARA, Cal., Feb. 19.—Within a few moments of the arrival of Lord Decies and his wife, formerly Miss Vivian Gould, in their private car today, the Southern Pacific railroad bridge was swept out by a freshet and Santa Barbara was marooned again, so far as railroads are concerned, for the second time within a month. Lord and Lady Decies are touring the west.

CHRISTOFFERSON TO START FLIGHT OVER SEA TO FRISCO

(UNITED PRESS LEASED WIRE.)

SAN DIEGO, Cal., Feb. 19.—Eliated by his success in flying his own biplane from the San Francisco exposition grounds here, Aviator Silas Christofferson announced at noon yesterday that within the next six weeks he will endeavor to fly over the ocean from San Francisco to San Diego in a flying boat, carrying a passenger and a mechanic.

HEARS PLASTER SHIPPERS.

(UNITED PRESS LEASED WIRE.)

WASHINGTON, Feb. 19.—Plaster shippers were heard by the Interstate Commerce Commission today on the question of the increase of five per cent in freight rates for the Eastern railroads.
