ATHLETIC NEWS

IS OPEN SEASON FOR DEVELOPING BALLSTARS

Big League Teams Need Them, for They Are All Shot to Pieces by Their Ambitious Rivals.

GRUDGES PLAYERS HAV AGAINST O'DAY ARE MANY.

They Will Probably Be Satisfied Now That Former Umpire Has Been Made Manager of Cubs.

BY HAL SHERIDAN.
(Written for the United Press.)
New York, March 5.—The open season for the development of phenoms is now on. With the warm March sun of the south shooting into the systems of managers, vets and rookies and various other things trickling through the system of the war correspondents the annual tales of the wonders from the bushes are on tap. You may believe the stories or not, but every phenom that may be developed will be needed. This stormy winter league, which has kept all baseballdom quivering with expectancy and palpitating with petulance will be reflected in the regular playing season.

Out of the swirling mass the Chicago Cubs have come out wrecked. The Cleveland Naps stand stripped of several main springs in their pitching apparatus due to raids of the Feds. The Cincinnati Reds couldn't have been made much worse, so they will start with the same old question mark attached to their tail. The Phillies are minus a veteran in Knabe. Their American Nurses' association has 22,000 members. The National League of Nurse Education has 12,000 members and the Organization of Public Health Nurses has an equal number. The California State Nurses' association will extend hospitality to the visitors. Dr. Helen Parker Criswell, president of the International Association of Nurses, just returned to San Francisco after a four months' tour of Europe in the interest of the convent, today said:

Will Satisfy Grudges.
All the grudges that the players have had against Hank O'Day as an umpire will certainly be satisfied in the months to come. They got even with O'Day in a measure when he became manager of the Reds, but the job he had at that time was a pipe compared to the dizzy going ahead. In the first place if the Cubs do not get Sweeney from Boston all O'Day has to do as a starter is to plug up two gaping holes in his infield. At best he has one to fill. With Johnny Evers out of it and Al Bridwell, a Federal, jumped the entire vicinity immediately adjacent to second base is defenseless.

O'Day has nothing to worry about but the establishment of a second baseman and shortstop behind his pitchers. In addition the head of the club has been kicked out of organized ball and a new boss is in the saddle. The last hope of the old smooth-running machine has been kicked away. Several men who served under Chance and know what discipline, and playing real "inside ball" mean are still in the outfit, but they have witnessed the wrecking of the machine, are serving under their second manager since Chance was fired and being old dogs at the game may not be expected to start in learning many new tricks.

If O'Day is able to establish himself as the real boss of this outfit and makes a winner he will surprise hundreds who looked on while he was wrestling with the Cincinnati Reds.

Many Things Needed.
The Yale coaches have told the candidates for the blue crew that with "work and faith" they can beat Harvard.

Outside of getting back to a system of rowing that does not use up about 50 per cent of their power in lost motion, putting beef and brawn equal to that of Harvard in the boat, and being able to row just a little better than the Crimson, it might be that "work and faith" is all that is needed.

Sharkey Shovels Snow.
While Tom Sharkey has been doing his bit of 30 days for keeping a disorderly house and incidentally qualifying as an expert snow shoveller in the jail, the authorities have revoked Tom's license to run a cafe. This means that Sharkey will lose his famous Fourteenth street establishment, where he made a record for watching other people spend their money for wet goods without separating himself from so much as a nickel. If shoveling snow takes the kinks out of some of Tom's muscles we might as well get ready for a loud yelp from him when he gets out of jail, the burden of his remarks being that he can lick any white hope, past, present or future. As easy as the money has been around New York, Sharkey won't waste any

time in grabbing some if he really needs it.

Freak Fighter of Australia.
While in this country recently "Snowy" Baker, the Australian fight promoter, told of a freak fighter they have in the antipodes who has it on almost any "bug" fighter developed here. Jerry Jerome, the freak, is 45 years old, according to Baker; never trained a day in his life; goes into a fight laughing and smiling and if the fight ceases to amuse him will throw off his gloves and jump from the ring.

"Jerome doesn't stand up like an ordinary fighter," said Baker, "but crouches like an animal. If a fight gets dull he puts his right foot forward and starts swinging as wild as a kangaroo. If a fight gets dull he'll simply jump out of the ring and quit even if he has the fight won. He hasn't any idea of the value of money and one day when he asked me for a loan of three pounds and I told him I did not have that much he came back with, 'Oh, well then let me have six'."

The college of athletes at Rhines France, the first institution of its kind in the world, has started athletic classes for women. The purpose is to fit women for positions in colleges as "monitresses."

Santa Maria, Cal., March 5.—Big Boss McCredie today was tickled to death over the performance of his Beavers yesterday, which was the first workout he had witnessed. Delayed several days at San Francisco, the other Federal jumpers may be tide up in the courts after the first game. And so it goes on down the line, a hole here and a bruise there, and the National league suffering from what may not have been quite a civil war, but badly scarred nevertheless by the upheaval brought on by the Murphy-Evers affair.

Suspension of Packy Set Aside by Judge

[UNITED PRESS LEASED WIRE.]
Milwaukee, March 5.—The suspension of Packy McFarland for one year from engaging in boxing contests in Wisconsin, meted out by the Wisconsin boxing commission for "stalling" in his contest with his Jack Britton in Milwaukee on December 8, was set aside yesterday by Judge Eschweiler, of the circuit court, for the reason that the proceedings were irregular.

The suspension ruling of Monday last, however, still stands, as McFarland had an opportunity on the latter date to appear before the commission, but failed to respond.

It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIEL LAWSON, 128 Lippitt St., Providence, R. I.

Wheat prices remain unchanged but the market is very firm and indications are prices will go some higher. The hop-grower's pool which was to have been signed up Wednesday fell through. There are no sales reported, and the crop still in growers hands is getting very small. Eggs are quoted at 20 cents and there is a big demand, largely from Alaska. The butter market is wabbly and a cut of two cents is expected.

LITTLE COUNTRY THEATRE

IT IS SUCCESSFULLY USED IN NORTH DAKOTA IN EDUCATING FARMERS OF THAT REGION.

[UNITED PRESS LEASED WIRE.]
Fargo, N. D., March 5.—"The Little Country Theatre," an idea originated by the North Dakota agricultural college today started a movement in the northwest which is expected to sweep the entire country. The theatre, designed in the agricultural college is in every way a miniature of the regular theatre but is so constructed that it is readily adaptable to any size hall. The idea of the "little theatre" is to bring amateur theatricals into farm homes, country schools, village halls and such places. The simplicity of the stage settings are such that they can be easily and cheaply constructed from the plans made up at the local college. The plan is more readily adapted to one-act playlets. Prominent educators who have been shown the plans and heard an explanation of the aim of the little theatre declare it will add a new course in dramatic art to colleges and schools all over the country. The plan is intended to do much for the entertainment on farms and in social centers. It will have the effect, the originators believe, of making the consolidated school plan and the social centers more popular.

6,000 NURSES TO GATHER

SAN FRANCISCO WILL BE INUNDATED WITH WHITE-CAPPED TIDAL WAVE IN 1915.

[UNITED PRESS LEASED WIRE.]
San Francisco, March 5.—This city will be inundated in 1915 with a tidal wave, white-capped and far-reaching. Retreat to the hills, however, will not be necessary for the caps will crowd more than 6,000 nurses from hospitals and training schools in Europe, Asia the two Americas and the isles of the sea. Preliminary plans were completed today for conventions of four great international organizations of nurses which will be held here simultaneously. The sessions will be triennial meetings of the international organizations.

Money Saved by Making Your Cough Syrup at Home

Takes But a Few Moments, and Stops a Hard Cough in a Hurry.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 1/2 pint of warm water and stir about 2 minutes, you have as good syrup as money could buy.
If you will then put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you could lay ready made for \$2.50. Take a teaspoonful every one, two or three hours. It keeps perfectly. You will find it one of the best cough syrups you ever used—even in whooping cough. You can feel it take hold—usually conquers an ordinary cough in 24 hours. It is just laxative enough, has a good tonic effect, and the taste is pleasant.
It is a splendid remedy, too, for whooping cough, spasmodic croup, hoarseness and bronchial asthma.
Pinex is a most valuable concentrated compound of Norway white pine extract, rich in pinene and other healing elements. No other preparation will work in this formula.
This plan for making cough remedy with Pinex and Sugar Syrup is now used in more homes than any other cough remedy. The plan has often been imitated but never successfully.
A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.
