

ATHLETIC NEWS

CHEMAWA INDIANS BEAT UNIVERSITY 5 TO 4

Indians Bunch Hits in First Inning and Have Four Runs to Credit When Bombardment Ceases.

MCDONALD PITCHES WINNING CONTEST FOR INDIAN BOYS

Oregon Ties in Fifth, But Indians Get First on Error, Steal Second and Score on Safety in Ninth.

[UNITED PRESS LEASED WIRE.] University of Oregon, Eugene, March 21.—Chemawa Indian baseball players nosed out a victory yesterday in their first of a two-game series here with the University of Oregon nine. The final count was Chemawa 5, Oregon 4.

The Indians bunched three safeties in the first frame, which, coupled with a walk and an error, netted four runs. In Oregon's half C. Bigbee walked, stole second, advanced to third on an infield out and scored on Bigbee's long fly to Saunders. Nelson whiffed the breeze, retiring the side. Score: Chemawa 4, Oregon 1.

Hungary's two-base hit in the second was the only feature of that session. Oregon men were disposed of in one, two three order.

Oregon registered again in the fourth when Lyle Bigbee reached first on Hungary's boot, advanced to second by M. Bigbee's sacrifice and scored on Nelson's safe poke through short.

Bryant and C. Bigbee evaded matters in the fifth, when a walk and hit put them on the bags. With the bases full McDonald walked. L. Bigbee, forcing Bryant, M. Bigbee hit to short, registering C. Bigbee. Score 4 all.

This ended the scoring until the first of the ninth. Lane reached first on Cornell's boot, stole second and scored on Walker's safety over second.

The lineup: Oregon—Motschenbacher c, Bryant p, Nelson 1b, Cornell 2b, C. Bigbee ss, Annunzio 3b, M. Bigbee lf, Penton cf, L. I. Bigbee rf.

Chemawa—Lane c, McDonald p, Walker 1b, Adams 2b, Downie ss, Hungary 3b, Jim If, Saunders cf, Crawford rf.

R. H. E. Oregon 4 4 6 Chemawa 5 7 2

GALLANT AND WATSON FIGHT TO DRAW IN TWENTY ROUNDS

[UNITED PRESS LEASED WIRE.] San Francisco, March 21.—Gilbert Gallant of Boston and "Red" Watson of this city fought twenty rounds to a draw here last night.

Gallant began an onslaught of rights and lefts in the first round and kept up a fast pace for six rounds, but his punches lacked the necessary force for a knockout blow.

In the seventh, Watson opened up and for several rounds had the easterner on the defensive. In the tenth, Gallant appeared to be tiring but he came back strongly and the succeeding rounds were about evenly divided. Both men made the required weight, 135 pounds.

DEFEATED BY PETERS.

[UNITED PRESS LEASED WIRE.] Detroit, Mich., March 21.—Allo Moore of Charlevoix, Mich., professional champion roller skater, was defeated by Rodney Peters of St. Louis in the semi-final mile heat at the world's championship meet last night. The time was 5:07.

LEACH CROSS DEFEATED.

[UNITED PRESS LEASED WIRE.] New York, March 21.—Young Shing-rue of Jersey City outpointed Leahy Cross in a ten round bout here tonight. They are lightweights.

MINISTER TO SUPERVISE PRIEZFIIGHTERS IN TOLEDO

[UNITED PRESS LEASED WIRE.] Toledo, Ohio, March 21.—There'll be no fleeing of the public through

crooked prize fights by crooked fight promoters in Toledo henceforth; and the Rev. Aaron E. Jones, curator of St. Mark's Episcopal church is the man who will be personally responsible for straight fighting and clean prize-ring sport here.

Dr. Jones has just been appointed head of the municipal boxing commission by Mayor Keller, for two reasons. The first is that Dr. Jones is an enthusiastic fight fan as there is in the city, and as such knows the game from first to last. The second reason is that Dr. Jones is mentally, temperamentally the man for the place. He believes thoroughly in boxing if it is properly supervised—and he declared he will see that the game is properly supervised while he heads the local commission.

"I believe every man and boy should be taught how to defend himself," said Dr. Jones today. "We shall give special attention to boys between the ages of fifteen and twenty. We shall see to it that no man or boy engages in a fight in this city until he has undergone a rigid physical examination and has been pronounced fit. Our aim is to build up men in physical strength and to make the sport here the acme of what is sportsmanlike. Brutality in matches will not be tolerated." Co-workers on the commission with the Rev. Jones include a tailor and others who have been interested only as laymen in the fight game.

JABS AND JOLTS

Weston was a walking wonder

In the happy days of yore, Scores of records torn asunder Strewed his path from shore to shore. From Chicago to the ocean, From Atlantic to the sea, He could walk without emotion And his step was light and free.

If he were a bold pinch hitter Called upon to make a clout, And the hurler heaved a spitter And the batter struck him out, He would walk with drooping shoulders And his teeth would madly clench And his feet would feel like boulders Walkin to the player's bench.

Francis Moran announces that he is going into burlesque, possibly as a training stunt for his burlesque with J. Arthur Johnson.

Julius Caesar was not a liar, according to Professor Otis. All of which is important if true. It shows that there has been at least one press agent on speaking terms with the truth.

There will be no passes issued for the opening game of the Baltimore Feds. This is the first definite result of the campaign against the intentional pass.

Consider now the fighting gents, But in their heated arguments The heat is merely heated air.

The correspondent who claims that George Carpenter has earned \$86,244 in the ring, evidently overlooks the fact that several of George's matches have been with Bombardier Wells.

On second thought, we have a hunch that the aforementioned correspondent is a German. He says that M. Carpenter will soon be required to enter the French army, after which he will be unfit to fight.

If Messrs. Gilmore, Woegman, etc., do not have a care they may be indicted for conspiring to raise the price of ivory.

Advice to the Feds. This time to cause another throb, To stir the bosom of the mob. So call up Tyrus Raymond Cobb And offer him another job.

"Money is not everything in baseball," quoth Napoleon Lajoie, who probably jumped to the American league for his health.

It is hard to believe the report that Ad Wolgast has a bruised nerve in his hand. You couldn't bruise the average fighter's nerve with a pickax.

Stanislaus Zbyski offers to bet \$10,000 that he can throw Gutch. If Tom Jones were not so busy just now as would cover the bet with the same kind of money.

WORK IS PLENTIFUL IN SALEM JUST NOW

Those Who Desire Labor Have No Difficulty in Finding It as Busy Season Is Now On.

RECONSTRUCTION WORK BEING PUSHED RAPIDLY

Improvement Work Continues and Downtown Section Is Being Changed in Pleasing Manner.

With building permits issued during the past six days for structures to cost \$10,500, local trade at the lumber yards is beginning to pick up rapidly and about every carpenter in the city is in great demand at present, building in the Capital City will be on in full blast by another week at least.

Work on the new garage planned by Vick Brothers is now under way and the auto people hope to have it completed within the shortest time possible. This building is to be two stories high and cost in the neighborhood of \$4,700.

Harley Pugh has the lumber on the ground for the construction of a new \$2,000 residence at 565 Belmont street and O. L. Fisher has taken out a building permit to construct a \$2,000 one story and a half frame residence on South Commercial street. A one story modern residence will also be built this spring by J. W. Edmondson at 245 Meyers street. The cost of this building will be in the neighborhood of \$2,000.

Work in Plenty.

Despite the fact that generally at this time of the season work is plentiful, contractors state that they are using about all the labor that comes their way. The amount of building in the city at present far exceeds anything ever before in the history of Salem and employment can be had by anyone who desires it.

At present their eight contractors are busily engaged right in the business district of the city and each has a large crew of men employed. Together with the work being done out in the suburbs on buildings the era of activities in the improvement line is large indeed.

Teamsters of the city are busy every day now and expressmen are more than satisfied with the condition of business in general. The work is not confined to one class either. It takes in building, gardening, repair work and spring cleaning up of yards and business.

Buildings Completed.

The reconstruction of the Adolph Waters building has nearly been finished and the new structure adds greatly to the appearance of the intersection of State and Commercial streets. The new structure is built of the same material as that used for the construction of the United States National Bank building and is not only slightly but substantially an ideal location for any business. Messrs. Adolph and Waters have had many inquiries already concerning space in their building.

Now that the Capital Journal's new press has arrived, the work of remodeling the first floor of the paper's new home will be rushed to completion by the latter part of next week. Work has been delayed considerably on account of the press having to be installed first and the building will probably be occupied in a week.

R. R. Ryan is rushing the work on his building on South Commercial street. The steel for the structure has arrived and the masons are now busy setting up the brick walls. Mr. Ryan states that his new place will be ready for occupancy before spring really opens up.

The new front in the Gray-Belle building on State street has been completed and the interior of the place has been remodeled and placed in first class condition to receive the new confectionery firm. The Gray-Belle company will move into its home within a short time now and the modern fixtures, soda fountain and other equipment is already on hand to be installed as soon as possible. The Gray-Belle Confectionery company will have one of the most modern plants in the state when everything is in order.

Other Work Progressing.

The room formerly occupied by the Gilson barber shop on State street is receiving a touching-up by the carpenters and placed in shape to receive the Mosher tailor shop. A nice new front is nearly completed and Mr. Mosher intends to equip his place in the most modern fashion.

The Scotch Woolen Mill store is having the old Court saloon on State street remodeled and will remove to that place soon. The present quarters of the woolen mill store have become too small for the business and the owners will be in a more comfortable location shortly.

Building work on the new cannery site on North Front street is now under way in full swing. The big timbers are on the ground and carpenters are framing the preparatory portion of the cannery. Contractor Anderson states that he is working as fast as possible

Feeling "Just Right" this Spring is largely a matter of keeping the digestion perfect the blood pure, the liver and bowels active. For this kind of work

HOSTETTER'S Stomach Bitters is well adapted. Try it today.

JUDGE GALLOWAY FILES FOR SUPREME COURT

Judge Galloway today filed his declaration as a candidate for the democratic nomination for supreme court judge.

Judge Galloway is a pioneer of Oregon, having crossed the plains in 1852. He was reared on a farm and has always taken great interest in agriculture and stock raising, having been connected with the state agricultural society for more than twenty years. He served in the legislature for six years as a member from Yamhill county, and was chairman of the ways and means committee during the erection of the state capitol and other state buildings; was county judge of Yamhill county for 4 years, retiring with the county out of debt. He was appointed by Governor Lord as one of the trustees of the soldiers' home at Roseburg, resigning only to accept the appointment as receiver of public money at the U. S. Land office at Oregon City, where he served during parts of Cleveland's and Roosevelt's administrations and during all of McKinley's two administrations, accounting for nearly \$1,000,000 without the loss of one cent to the government or its patrons.

Judge Galloway was elected to the circuit bench in 1904, and during his term he has rendered many important decisions involving constitutional questions, such as the Crater lake wagon road case, the tide and overflowed land case of Lincoln county, wherein a million dollars may be saved to the state, and other decisions of like importance.

Highland Friends Church. Corner Highland and Elm streets, Josephine Hoekett, pastor; residence 2255 North Elm, phone 1465. Sabbath School at 10 a. m., Earl Pruit, superintendent. Preaching at 11 a. m. and 7:30 p. m. Y. P. S. C. E. at 6:15 p. m. Prayer meeting Thursday evening at 7:30. The pastor's subject for Sabbath evening is "Women in the Spiritual Realm". You are invited to all these services.

MOTHER! IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Bilious, Stomach Sour, Give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour. Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." Don't be fooled!

to get the building completed as the owners are anxious to install the machinery at the earliest date possible. The new railroad and wagon bridge on North Front street is being completed now that the litigation which has held the work up so long has been settled. The concrete arches are already in place and it now remains for the Oregon Electric company to make the necessary fills at each approach. P. O. Harold has the work in hand and hopes to have the fills in place shortly. A big crew of men was at work yesterday and teamsters are preparing the grades for the material.

CHURCH SERVICES.

Ministerial Union. Because of special important business the Ministerial Union is to meet a half hour early next Monday at 2 o'clock at the Y. M. C. A. At 3 o'clock Mr. Schroek presents the paper on "Property Rights and Equitable Distribution. Thos. J. Woolcock, Sec'y.

Prayer meetings Wednesday, Thursday and Friday evenings at 7:30 during the Lenten season.

DIVORCES OHINK HUSBAND. San Francisco, March 21.—An interdictory decree of divorce, \$100 a month alimony and permission to resume her maiden name was granted here today by Superior Judge Griffin to Mrs. Elvira C. Cheng, wife of a Chinese physician of Boston. Her maiden name was Miss Elvira C. Nielsen. She charged the Chinese with cruelty and also alleged that when she married him she did not know he was a Chinese. She said she thought he was a Hawaiian.

IT IS PECULIAR DAM

STATE ENGINEER GIVES PERMISSION TO ENLARGE STRUCTURE WITH STEEL AND CONCRETE.

State Engineer Lewis today gave permission for the enlarging of the most peculiar dam ever erected in Oregon for storing water for irrigation purposes. The permit was granted to the Malheur Livestock & Land company, which will increase the height of its present dam from 55 feet to 90 feet to provide 2540 acre-feet of water. The dam is only 5.2 feet thick at the base and three feet at the top. Its unusual strength is due to its being built of concrete and steel, and the engineers declare there will be no danger of a break even when its height is almost doubled.

It is crescent shape, with the curve toward the water. The promoters say their reason for making the strange type of dam is that cement has to be hauled 80 miles in wagons, and it has been found cheaper to use steel in connection with it.

"I am satisfied the dam will hold," said Mr. Lewis, "but the type is an unusual one. Even should the semi-circular structure give way there would be no lives lost, for the water would descend into a desert. However, there is no danger of anything like that. The enlarging of the dam will cost \$30,000.
