### JOE JEANETTE WINS DECISION OVER CARPENTIER

[UNITED PRESS LEASED WIRE.]

Paris, March 22.—In a 15-round bout here last night, Joe Jeanette, the American heavyweight pugilist, won the decision over George Carpentier, the French champion, on points.

Jeanette carried the fight to his opponent throughout and piled up a good lead in the rounds which were marked by almost continuous infighting. Carpentier met the negro's rushes cleverly and put up a splendid fight. He had a shade the better of several rounds, but could not overcome the lead of the American, whose heavy punches in the fierce rallies at close quarters staggered the French champion more than once.

Jeanette outwitted the Frenchman slightly, and was the more aggressive. An unusually large crowd cheered the efforts of Carpentier, who is the idol of the French sporting public, and much disappointment is felt over his defeat.

## LINN CANDIDATE FOR STATE SENATOR

Salem Man Announces He Will Probably Seek Democratic Nomination at Primaries in May.

### SUCCESSFUL HOPMAN AND WELL KNOWN IN THE COUNTY

Excellent Record as Member of Parole Board and Friends Believe He Will Be Good Lawmaker.

There is every possibility now that the Democratic party of Marion county will have an opportunity to vote for a party candidate for state senator. James R. Linn, the hopman, who is known throughout all Oregon as being an ardent member of the Democratic fraternity, and a man in whom has been trusted some of the most important work of furthering matters pertaining to the development of Oregon by Governor West, announced this morning that he is seriously thinking of becoming a candidate for the senate on the Democratic ticket.

The wide circle of friends of Mr. Linn will receive this notice with delight, as "Jim" is not only popular in Salem and Marion county, but is upon speaking acquaintance with about every business man, farmer and capitalist in the whole state. He has been in the hop business here for the past 18 years or more; has been successful in the business, and has always taken an active interest in politics whenever the Democratic party of the state called upon him.

As a member of the prison parole board Mr. Linn was considered a leader. His efforts to do good for the prisoners at the penitentiary have been honestly and fairly carried out. He is a man of an excellent family, and has the interests of Salem, Marion county and the state of Oregon at heart, and, if elected to the senate, it is believed by his friends he will not only make a splendid representative of the people, but will further many important matters which are being planned for the state's good at present.

There has never been a Democratic senator elected from this county in the history of this district, and Mr. Linn states that it is high time that the upper house should be represented by his party.

## SENSATIONAL CASE HAS ONE CHAPTER IN SALEM

McClain Cooper, Who Will Have Extraordinary Hearing Before West, Acquitted of Murder Charge.

### JURY-BRIBING INVOLVED AND ONE MAN HAS CONFESSED

Tracy R. Bangs, Leading Lawyer of North Dakota, Accused in Connection With Alleged Crime.

The extradition hearing of McClain Cooper, of Hood River, wanted in Grand Forks, N. D., for complicity in the bribery of jurors in a case in which Cooper was accused of murder, will not be held today before Governor West, the agent from North Dakota not having arrived here. When he arrives here Cooper and Attorney Logan, of Portland, who represents the defendant, will be notified and the hour of the hearing arranged. Governor West has already received much evidence relating to the case but he is not prepared to say what action will be taken. He is in Portland today and so the hearing will not be possible until his return, even if the North Dakota agent should arrive.

The bribery case is one of the most sensational in the history of North Dakota. J. L. Stevens, one of the jurors who acquitted Cooper, has made a full confession and has involved Tracy R. Bangs, a leading attorney of North Dakota, who defended Cooper. Stevens, who is a farmer, is held in the Grand Forks jail, bail being fixed at \$5,000. He is 60 years old. His confession came after he learned that the state had secured positive evidence of his guilt. Other men on the jury are said to be involved and several other arrests are expected.

Bangs contends that he is not guilty. He is one of the most picturesque figures of the Dakotas. His practice is said to be the largest of any attorney in North Dakota and his clients include several large corporations. He has a gift of oratory to the extent that it has been said in some circles that he exercises hypnotic powers and he has been very successful in criminal trials.

### Self-Defense Claimed.

Cooper was accused of killing the foreman on his father's big ranch. He claimed that the man had made threats and that he was forced to shoot him down, and the evidence of the state was that there had been some words and that the young man hurried to the house, secured a rifle and shot the foreman down in cold blood. Eastern North Dakota was deeply stirred over the affair and at Grand Forks there was talk of lynching after the murder and also following the verdict of the jury.

It was common talk that the elder Cooper's wealth had been used in securing freedom for the young man. The acquitted slayer lost no time in leaving the state.

The slain man's father brought suit for \$50,000 damages against him for the loss of his son but has been unable to get service on the defendant. In case Governor West honors the requisition issued by Governor Hanna and Cooper is returned to North Dakota for trial, it will be possible for the officers there to get service in the damage suit.

## ADDRESS IS APPRECIATED

### JUDGE CLIFFORD SMITH SPEAKS ON CHRISTIAN SCIENCE IN THE GRAND OPERA HOUSE.

Judge Clifford P. Smith, C. S. B., of Boston, spoke to a crowded house at the Grand Opera House Sunday afternoon, and endeavored to correct what he termed misconception, false opinions and erroneous ideas concerning the Christian Science church. Judge Smith is a very convincing speaker and he held the attention of the audience throughout his address.

An interesting feature of his address was the tracing of the beginning and growth of creeds. It was his contention that the church first started with the teaching that there was but one divine person. Later on the people were taught that there were three divine persons. The Christian Science theory is that God is a force and this force can be secured in certain ways. Discussing miracles of Jesus Christ, the speaker stated that what may have seemed miraculous to the people of the times were probably due to the force that now comes through following the teachings of the Christian Science church.

Judge Smith discussed at some length the erroneous opinions held by many people in regard to the Christian Science faith.

## HOW YOU MAY THROW AWAY YOUR GLASSES

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunates, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Optoma, fill a two-ounce bottle with water and drop in one Optoma tablet. With this harmless liquid solution bathe the eyes two to four times daily and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eye-strain, cataract, sore eye-lids, weak eyes, conjunctives and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eye-glasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear, healthy, strong magnetic eyes through the prescription here given.

## DENTON IS CANDIDATE FOR STATE LEGISLATURE

Walter A. Denton.

Walter A. Denton, who has filed his petition for representative, is known to almost every man and woman in Salem, as well as to a large number throughout Marion county. For almost 14 years he has worked with H. W. & M. L. Meyers to establish the largest department store in the valley, outside of Portland. Mr. Denton has not only won the confidence and respect of his employers, but by his pleasant and affable manner has gained for himself a great many friends.

He has always been ready to assist any enterprise that furthered the interests of Salem and Marion county, and it is but natural that he should be selected by some of Marion county's representative business and professional men and urged to become a candidate for the legislature. Here is a case of the office seeking the man, as is the intent of the "initiative," for it was only after urgent pressure that Mr. Denton was induced to become a candidate.

He says in his platform: "If elected I will do all in my power to prevent and vitiate, freakish or needless legislation. I will thoroughly investigate all measures, especially those carrying appropriations, endeavor, to the best of my ability, to ascertain which are needed for the immediate welfare of the state, and take a decided stand against any expenses not absolutely necessary."

## PICNIC PARTIES PUT OFF

### DROP IN TEMPERATURE SUNDAY CHANGES PLANS OF NUMEROUS SALEM PEOPLE.

Since the Eastern part of the United States has been thrilling us all winter with stories of intense cold weather and snow and ice why not let the world know what has happened to Salem and vicinity in the past 48 hours.

Old man weather has surely been very vexed about something. For the past three weeks there hasn't been a drop of rain and perfect spring weather has prevailed with the temperature wavering between sixty and eighty-two. Saturday opened bright and clear but before night there was a distinct change. From 76 at 3 o'clock Saturday afternoon the thermometer dropped steadily until it hit the 44 mark at 5 o'clock Sunday morning. Then it took a rise until it stood at 61 at 1:30 Sunday afternoon. Then a brisk wind sprang up and forced the mercury back down the scale until it reached the low mark of 43 at 3 o'clock Monday morning. On account of the wind and cold, many picnic parties that left for the country Sunday morning, had to give

up their outing and return to the bedside. Many members of the unemployed, who had discarded their blankets suffered from the cold, until they hit upon the idea of using the Sunday edition of the Oregon papers for covers. They are hot enough to keep any one warm.

### TO MARCH NORTHWARD.

[UNITED PRESS LEASED WIRE.]  
Los Angeles, Cal., March 20.—Unemployed men in Los Angeles will hold a mass meeting late tomorrow to organize prior to marching northward to join the unemployed who have established headquarters at Sacramento. A statement to this effect was made today by "General" Morris Rose, after 25 of his recruits had been arrested at their camp in the bed of the Los Angeles river and charged with violating a city ordinance, which prohibits camping on city property.

"We intend to organize here for our march," Rose said, "and the police must treat us right. We will make no trouble but we demand that we be permitted to assemble in the river bed, where we don't harm anyone. If the police won't permit this I will organize an unemployed army of 20,000 men and make Los Angeles feed us."

The first recruits of Rose's "army" about 200 men, gathered in the river bed last night but dispersed at police order.  
Some candidates, who don't know it, are jokes.  
It must be a very old man who isn't in love now.
