HAS PLENTY OF CLASS

WHILE THE HEARTS OF NEW YORK FANS ARE WITH MURPHY THEIR POCKETBOOKS ARE WITH RITCHIE.

New York, April 17.—Little old New York town is all smoked up over the scheduled 20 round fust in San Francisco tonight between Willie Ritchie, lightweight champion, and Harlem Tommy Murphy. Naturally New Yorkers would like to see Tommy bring home the bacon but when it comes to betting on him doing it, they are stringing with Ritchie. Murphy is given full credit for gameness, aggressiveness and experience, but the majority of the fans do not think he has even an outside chance of relieving the champion of the title.

"Willie Ritchie is smothered in class," said Billy Gibson. "He is there with the wallop, stamina, cleverness and youth. He can take a punch, and don't let anyone tell you that he cannot give one in return. When that right cross of his lands flush on the jaw, something is going to drop and stay down for quite a spell. I don't think Ritchie's title is in jeopardy."

Al McCoy, conqueror of George Chip, has signed up for ten weeks of theatrical work at \$1,900 a week. This means that the return match he promised to give Chip here April 28 is off. Before leaving for Pittsburgh to open his engagement, McCoy said:

"I cannot afford to pass up the road engagement when I can draw down ten thousand iron men for ten weeks of work. I'll give Chip another chance when my road tour is ended.

"I am not going to handle the bank roll this time. I like to shoot craps too well. I'm going to make either my wife or mother the banker. It won't make much difference so long as I have a quater or so to juggle in my pockets."

Writing to a friend here, Ad Volgaert said: "I'm ready to fight Willie Ritchie again winner takeall."

Commenting on this, Bob Edgren said: "Champions don't battle that way. Ad, as you should know. They'll take all or at least all they can get, without fussing over such a slight detail as seeing that the winner is properly rewarded."

Daddy's Bedtime Story

The Lizards Celebrate Spring By Playing Cars.

JACK and Evelyn were spending all the nice warm spring afternoons in the woods. They would come home with all sorts of pretty little spring flowers and fix them in little vases around the house. They loved the spring. But then they really loved all the seasons of the year. There was always plenty to do in the winter when the ground was covered with snow. In the spring there were so many things to find in the way of little insects they had almost forgotten about, lovely songs to hear by the birds who had left their winter homes and, of course, all the flowers. And summer was nice, too, with the swimming and boating and ball and many other outdoor games.

"Children," said daddy, "the little red lizards and newts are having the best times these days. They adore the soft, marshy earth in the woods. They almost feel as if everything had been arranged all for them, and they love the green moss."

"Up on the mountain the red lizard and newts had settled themselves. They were feeling so energetic and wide awake that they thought they'd do something exceptionally nice. So they told a great many of their friends about this mountain of theirs and had invited them to join them and spend the summer there."

"Of course they wanted to make the other lizard families, who had consented to join their home, think as they did—that it was the very nicest place in the world."

"When the visitors arrived they said, 'Well, how do you like your new home?'"

"Oh, we've never been so satisfied in our lives with any home! No other could possibly be so wonderful. It is absolutely perfect, and we are all so delighted. To celebrate your arrival, then, let's play cars. That is such fun, and we want to do something in honor of you."

"Naturally the newcomers were very much pleased that something was being done in their honor, and they all readily did feel full of life and energy. That is rather unusual, too, for the lizards, as a rule, don't like to burry too much. They prefer to play things."

"But they did enjoy playing cars. Different bits of moss were the stations, and they'd all go along together and say: 'Puff, puff, puff, puff, choo, choo!'"

"Of course they didn't run any terrific express trains. They had plenty of stations and liked to stop often. Well, they played for a long, long time. When they were really tired out they decided they'd play cars every day, for the exercise made them feel splendid and they so enjoyed stopping and seeing at the beautiful mossy stations."
