miles from a town, the car was stalled by getting all four of its wheels into a rut, thus leaving the body of the machine high and dry on the dirt in the center of the road. Mr. Farrar went to a house near, borrowed a pick and dug the car out.

Later Die

When he took the pick back the farmer asked them to lunch. It consisted of bread, preserves and pointoes. Wishing to donate something for the family, who seemed to be very poor, McCumber took out the only dollar bill he had-the rest of his money being in twenty dollar notes-and gave it to a lad of five.

"No, sir," exclaimed the father; "we ain't going to 'low you to pay nothing for a bite to eat. But if you is anxious to help in the community you might contribute to the church we are building.

And, as there was nothing else to do, the senator had to part with a nice, crisp twenty.

When Carter Glass ran for the Virginia senate and was beaten by what is known as the "machine" in the state his boy was a college student of great achievement on the athletic field. One day the lad went to Baltimore to attend a track meet and came home with a medal.

When he entered the dining room in which his paternal ancestor sat discussing some old ham and waffles the boy threw his trophy on the table in front of his father, saying:

"Well, dad, you see there is some one in the family who can run if you can't!"

Glass has worn that medal on his watch chain ever since.

R 18 Senator Overman was just finishing his education while working for Governor Vance in the office. Governor Vance had been fostering ambitions for

the United States senate and had just about come to the conclusion that they were not groundless. But Mr. Merrimon of North Carolina loomed up as a candidate.

Vance was elected, but refused a seat through his alleged lack of qualifications. Meantime he was reelected governor and returned home to take up the reins of state again, while Merrimon was sent on to the sennte.

In the meantime the present Senator Overman had been between two fires. He was devoted to Miss Merrimon, daughter of the newly elected senator and for of his governor-employer, and the governor-employer began again his fight for the seat in the senate for the next term.

Young Mr. Overman then went to Mr. Vance and said: "Well, governor, I've about finished my education now. You've been very kind to me, sir, but you know I'm engaged to the daughter of your enemy in politics, the two houses are bitter against each other, and so Iwell, since I'm going to be married I reckon, sir, I'll

"Any other job?" "No, sir."

Laurent and Van Horn, pirate kings, sacked the town for 10 days about 1712. Comparative peace was enjoyed by the Vera Cruz people until well along in the nineteenth century.

At the outbreak of the war between this country and Mexico the first movement against Mexico City began at Vera Cruz. It was then, as today, regarded as "easy." Besides it was used to it. On March 7, 1847, a fleet bore General Scott and his army to Vera Cruz. Our troops were landed under a bombardment and succeeded in capturing the city after 13 days' fighting. Scott then pro-ceeded on his triumphant march to the capital.

After the United States found troubles at home sufficient to engross its exclusive attention Mexico became arrogant and President Buchanan in 1859 advocated intervention, but the senate rejected the idea. Miramon, a constitutionalist, was president of Mexico at that time. The United States in 1859 by presidential treaty recog-
