Stockton

The Markets

LOCAL MARKETS.

At Echo Friday 100 tons of wool were sold at private sale and prices were not made public. It is known that they are considerably above those of last year. The eastern wool trade takes a favorable view of the situation in spite of the scarcity of business in spring clips. The foreign situation is also favorable to the maintenance of present prices. One of the events of the week is the formation of the Merchant's Produce exchange. It is composed of 26 of the leading merchants of Willamette valley towns and will handle poultry dressed meats, eggs, and all kinds of country produce. This invasion of the Portland field has aroused the enmity of many of the commission men there, and there will probably be a merry war between them.

Some bluestem is changing hands, but other varieties of wheat are held firmly by growers. No new business is reported in hop contracts, but a lot of 96 bales, the Reuter crop, was bought by Klaber, Wolf & Netter at Forest Grove Friday. The price was 15 cents. Eggs are 19 cents, held there by cold storage demand, though the incubators are stopping the flow into the cities to a certain degree. It is probable the price will not be lower this year.

LOCAL WHOLESALE MARKET.

Hay, Timothy \$15.00
Clover, per ton \$10.11
Oats and vetch \$10

"Ballies" are rather tame affairs compared to what they were 30 or 40 years ago.

PIONEER SEA CAPTAIN DIES AT AGE OF 93 YEARS

Tacoma, Wash., May 2.—Captain Edward Bright, aged 93 years, master of the first sailing vessel that came around the horn to Puget Sound from New York and one of the pioneers of Yukon territory, is dead here today, four days after celebrating his birthday.

Captain Bright arrived last month from Stockton, Cal., where he was well known. He became ill while on the train and was removed to the home of friends here, where he failed to rally from his ailment.

RECORD SALE OF SAW TIMBER IS ADVERTISED

Lewiston, Idaho, May 2.—The government is today advertising for the sale of 600,000,000 feet of saw timber and about 350,000 cedar poles worth approximately \$1,000,000,000, to be cut within 20 years from a tract of 36,000 acres in the Clearwater national forest. This is one of the largest bodies of timber ever offered for sale in one lot by the government.

TEN MILLION FEET OF DOUGLAS FIR ORDERED

Portland, Or., May 2.—Ten million feet of Douglas fir or Washington fir will be purchased within the next few weeks from Puget Sound lumber manufacturers by the Great Northern railroad, to be used in the construction of 1,000 refrigerator cars, it was announced today. The cars will be built at Michigan City, Ind.

It is a good time for I. W. W.'s to keep rather quiet.

BRIDES

Appreciate the selection of a well known article of quality—no matter what price, how large or small—much more than an article of a make or brand not well known. It also removes the thought, "Will she like it." A complete line to select from, such as Community silver, Libbey cut glass, Haviland & Co. China, Minton China.

MAY DAY CELEBRATED

PUPILS OF GRANT SCHOOL STAGE PROGRAM OF UNUSUAL INTEREST TO VISITORS.

Exercises at Grant school May day afternoon attracted more than the usual number of patrons and friends who in an exceptionally happy frame of mind enjoyed the program which was rendered by the pupils, almost every one of whom took a part.

In the shade of a large maple tree near the center of the grounds the older girls had set up a throne and ornamented it with flowers and ferns. The queen, Miss Mildred Atherton, was escorted thither by her loyal followers and duly crowned with a wreath of white blossoms.

Her maids of honor wore wreaths of laburnum and were well fitted for their service to the queen. They were: Misses Marika Tracy, Minnie Mellwain, Annie Tade, Tressa Haskins, Lavina Anderson and Frances Spurtin. The trumpeters were Louis Kays and Laverne Simon.

The flower girls were: Freda Krueger, Merle Swindell, Elizabeth Welch, Ruth Eddings and Irene Fleming.

The complete program follows: Grand march, led by the queen and her escort Entire School Grasshopper dance Third Grade Boys "I See You" (Swedish singing game) First and Second grade girls Indian dance Fourth grade boys Song, "When May Is Here" Fifth and Sixth grade girls "Washing the Clothes" (Swedish singing game) Third grade girls Scene from "Robin Hood" Fifth and Sixth grade boys Shoemaker's dance (Danish) First and Second grade boys Strassak (Bohemian folk dance) Fourth grade girls Scene from "Uncle Tom's Cabin" Fifth grade girls May Pole dance (Bluff King Hall) English Seventh and Eighth Grade Girls

Following the program, over which the queen presided, were the boys' contests, to-wit:

Relay race—Boys from Miss Powell's room, won by James Putnam, Clair Tucker, Virgil Keyt and Fred Jones.

Relay race—Boys from Mr. Fletcher's room, won by Wm. O'Neill, Glen Purvine, Clifford Nadon, and Harold Secor.

Relay race—Boys from Mr. Miller's room, won by Orrie Atchison, Robert O'Neill, Halley Hunt, Hiram Cooper.

Forty-yard dash, boys 60 to 80 pounds—First, Irving Roberts; second, Gertha Green; third, Wm. Frazier.

Sixty-yard dash, boys 80 to 100 pounds—First, Clifford Nadon; second, Marvin Tucker; third, Seire Buell.

One hundred yard dash, boys over 100 pounds—First, Halley Hunt; second, Orrie Atchison; third, Glean Gregg.

Rabbit race—First, Kenneth Coffey; second, Alberton Atherton; third, Walter Lamkin.

Hopping race—First, John Carrie; second, Lester Savage; third, Troy Lamb.

Crow race—First, Percy Witte; second, Charles Anderson.

Three-legged race—First, Willie Jefferson and Virgil Keyt; second, James Putnam and Peter Stansel.

OREGON SCHOOL GIRLS ARE INTERESTED IN HOUSEWORK

That many of the school girls of Oregon are interested in housework is indicated by the large number that are preparing exhibits in sewing and cooking for their fairs that will be held next fall. A report of the Industrial Club work has just been filed with J. A. Churchill, state superintendent of public instruction, by Prof. F. L. Griffin of the Oregon Agricultural College. The report shows that 2733 Oregon pupils are working to become proficient in sewing, and 1496 in cooking, with the hope of winning prizes at their county exhibits, or at the State Fair. There are already 9262 boys and girls working in the different industrial projects, as follows: Canning 480; cooking 1406; corn 712; gardening 1824; dairying 77; manual arts 688; potatoes 581; pigs 281; poultry 980; sewing 2283.

New clubs are being organized daily and Superintendent Churchill is confident that over 12,000 children will be engaged in this industrial work before he schools close.

MOTHER AND DAUGHTER BRIDES IN DOUBLE WEDDING

An interesting double wedding ceremony was performed yesterday afternoon by Rev. P. S. Knight, when Mrs. Grace V. Smith and her daughter, Miss Lucretia S. Smith, were united in marriage to James E. Yeoman and Alson C. Vernon, respectively. The ceremony was performed at Rev. Mr. Knight's residence on North Liberty street, the mother and daughter witnessing each other's marriage. Mr. and Mrs. Yeoman will make their home near Stacyon, and Mr. and Mrs. Vernon will be at home to their friends near Seio, Linn county.

Is anybody going to keep count of the number of times the campaign opens?

SUMMER TUTORING.

You are a young college student, working your way through the university, and you are wondering, as May heralds commencement time and the end of the term, how you can make some money during the Summer to help you through next year.

Did you ever think of the Journal Want Ad Columns?

A few little Want Ads run now will bring you all the pupils you can handle during the Summer in your special branch, and the Journal Want Ads cost but a little.

Probably one will be sufficient—try it and see.

GERMANY BEGINS ACTIVE

WAR FOR WORLDS TRADE

Organization of Every Branch of Trade Is Being Formed with a Purpose.

HAS SET HERSELF TASK OF DOUBLING PRESENT VOLUME

Will Invade Hitherto Unexploited Lands with Language and Commerce.

Berlin, May 2.—Germany is launching the most tremendous war for trade conquest of modern times. Organization upon organization in every branch of trade and industry is being formed with a definite, specific plan and purpose of capturing a new market, extending trade already in existence or crowding out the trade of some other country. The Captains of Germany's industry are planning a movement that in effect is a leaf from the famous aggressive tactics of the German army applied to the peaceful conquests of the world's markets. At home efforts are being concentrated on ousting foreign made goods and replacing them with domestic manufacture whenever possible, while abroad Germany's commercial gins, backed by the vast resources of the Empire, governmental and private, are to be trained on every market, gigantic crusade against America, English and France.

Field Is the World. Within the last few weeks there has been organized the "Institute for Sea Traffic and World Trade"; "The League of German Foreign Trade Associations"; "The German-American Economic Union"; "The German 'Wah Institute' and now as a sort of "general staff" to scientifically direct all the other organizations, there is being formed the "German Association of World Commerce". This latter is headed by Arthur Ballin, director-general of the Hamburg-American Line, whose motto is "Mein Feld is die Welt" ("My Field is the World").

The markets of the world are being plotted out for those different organizations like a gigantic battle map. The German-Chinese Institute composed of the industries have trade in China or see the possibilities of trade, for their respective branch of commerce or manufacture, will command and direct the "divisional commercial army" which is to develop and capture China's trade for Germany. It will include among other colonial trade organizations, the powerful German-Asiatic Company, the Hamburg-East-Asiatic Concern and the German Colonial Company, with millions of dollars back of them.

Among the outlined plans of the campaign for invading China, are the establishing and financial support of a chain of German-Chinese elementary grammar and high schools, manual and industrial training schools and medical institutes, teachers for all of which are to be sent from Germany. German newspapers are to be founded in several of the principal cities in China. Wherever possible, German language institutes are to be opened to give the Chinese an opportunity to learn German at small cost. The sending of Chinese students to Germany is to be encouraged and supported. In fact, every possible effort is to be made to win the sympathy of the Chinese for Germany, Germany and German goods.

South American Trade.

There is a German-Argentine Association, a German-Chilean Association, a German-Brazilian organization, each of which is to further relations, interests and trade with these South American countries. For the purpose of concentrating and unifying the efforts of these organizations for a more aggressive and scientifically directed campaign in South America, there has been formed the "League of German Foreign Trade Associations." This organization of Captains of Industry, will be another "divisional general staff." Its principal battlefield will be Mexico and South America. It also will organize propaganda in every country not already covered. The German-American Economic Union organized since February has for its purpose the fostering of better trade relations with the United States and Germany of course, the furthering of German exports to America. Each of the organizations named will have much to say about the reciprocal trade agreements with the different countries in the trade of which they are specialists. They will examine all new proposed trade treaties and make suggestions to the government.

The "Association of World Commerce" will be the general headquarters and central directive agency of all the other organizations. One of its principal missions will be to hunt down and counteract the alleged "sanders" on German trade by French, English and American rivals. A sort of "Intelligence Department" will be one of the sub-divisions in the World Association. Through the Association it will keep every German manufacturer minutely posted on trade conditions in all parts of the world, so that quick and prompt advantage can be taken of opportunities offered to counteract any moving by foreign rivals.

369 STATE STREET

JIM WILLSON

At last I have what I have been looking for—some fine five-acre tracts, one-fourth mile west of Kaiser school in Kaiser bottom, four miles north of Salem. The land in that locality is selling for \$250 per acre, but I have this at the extremely low price of \$175 per acre, and if necessary can sell for \$100 per tract cash, then \$10 a month. This is a black sandy loam soil, and will grow anything that will grow in the Willamette Valley. This is a sure money maker and will not last long at the price asked.

JIM WILLSON

The Bargain Man
141 N. High Street

POPULARITY OF AUTO SHOWN BY BIG INCREASE

The fees collected by the automobile department of the secretary of state's office are getting to be quite an important source of revenue. In 1913 there were 6428 motor vehicles registered and the fees therefor amounted to \$27,316. In 1912 the number was 10,165, and the fees \$42,994. In 1911 there were 13,957 vehicles registered and the fees were \$56,873. From January 1, 1914, to April 30, this year, there were 12,296 vehicles registered and the fees were \$57,868. The number of autos registered in 1913 was more than twice as large as that of 1911. This is eloquent evidence of the popularity of the auto.

Sunday "blue laws" are not likely to be enacted by the people.
