JOHNSON IS KILLED AND WOMAN IS HURT

Car is Smashed Against Tree to Avoid Collision with a Motorcycle.

Tacoma, Wash., May 18.—Sunday automobile and motorcycle accidents in Tacoma and vicinity resulted in the death of Frank E. Johnson, aged 47 years, and the injury of the following:

E. J. Roper, Mrs. E. J. Roper, Mrs. James Jackson, Frank Johnson, Jr., and Irene Dunn.

Both Mr. and Mrs. Roper are seriously injured, and because of their advanced ages recovery is doubtful.

The accident in which Johnson lost his life was the result of a collision of the motorcycle with an automobile driven by J. C. Heitman.

Mr. and Mrs. Roper were driving in a buggy near Parkland. An automobile said to have been traveling at a reckless speed, collided head-on with the buggy, throwing the couple to the ground.

While they lay unconscious the occupants of the machine deserted their car and fled. The police are searching for the party, which is said to have included women.

Mrs. Jackson was injured when the automobile driven by her husband smashed into a tree to avoid a collision with a motorcycle.

While playing in the street, Irene Dunn, 10 years old, was knocked down and painfully injured by an automobile.

SAILORS DUMBLY AWAIT DEATH IN OPEN BOAT

After Six Days and Nights Their Water and Hardtack Gave Out and Suffering Began.

FOUR MEN SURVIVE OUT OF FIFTEEN

Story of Terrible Experiences Told When Men Recover from Their Exhaustion and Exposure.

Halifax, N. S., May 18.—The United States revenue cutter Seneca arrived here today with four survivors of the freight steamer Columbia, which burned at sea 14 days ago. They were picked up yesterday after they had been tossed about for 13 days in an open boat. The men rescued were:

Officer Robert Tier; Sailors Oscar Kendall and Peter Belanger and Fireman Mitchell Ludwigen.

On May 3, when the Columbia burned, three boats were launched, but separated. Two were given up for lost. Eleven other men in the third boat succumbed to injuries and privations and were thrown overboard. The death roll of the lost freighter now stands at fifteen.

The Seneca saw the boat yesterday and rushed to the scene at full speed. The four survivors were exhausted and unable to speak. Two were unconscious. The four men had given up all hope of rescue and dumbly awaited death. Each was given several spoonfuls of brandy and water and later Officer Tier was able to talk briefly of their terrible experience.

"When the boat was 48 hours three steamers passed us by but they did not see us. For six days and nights the biscuits and hardtack gave out and our water was exhausted. May 10 Officer George Hill died. He was stripped of his clothing and his body dropped into the sea.

"We spread tarpanlins to catch the rain and this prolonged our lives. The men died one at a time, and their bodies were dropped into the sea. The last death was that of Peter Elyet. He succumbed just before the Seneca appeared.

When the cutter appeared on the horizon, Tier was the first to see the rescue vessel. He called the attention of his companions to the revenue cutter and the lapsid into unconsciousness.

ACQUITTAL FORESHADOWED

Porter Charlton, Charged With Killing His Wife, to Be Tried for 'Unpremeditated Homicide.'

Como, Italy, May 18.—Announcement that Porter Charlton, the American charged with killing his wife and sinking her body in Lake Como several years ago, would be tried only for "unpremeditated homicide," was said here to be a significant initial victory for the defense. It was admitted that in the event of a conviction even on this charge this prisoner's term of imprisonment might be a very long one. The general view was, however, that if the authorities had not regarded the case leniently, premeditation would have been foreshadowed, not merely comparatively meretricious treatment, but an acquittal.

MELLEN WILL RESUME HIS TESTIMONY TOMORROW

Washington, May 18.—Charles R. Mellen, former president of the New York, New Haven and Hartford railroad, who will resume his testimony tomorrow before the interstate commission regarding the affairs of that road, was expected to return to Washington this afternoon. He was excused last week to go to New England for documentary evidence.

WOMAN INJURED IN AEROPLANE MAY RECOVER

Los Angeles, Cal., May 18.—Miss Rose Arnold is suffering today from injuries she received in an aeroplane accident at Venice yesterday. She was ascending with Aviator Frank Stites to make a parachute descent when the engine stalled and the machine came to earth. It was said today at the hospital to which she was taken that she sustained internal injuries but probably will recover.

PRUNE CROP DAMAGED

Monmouth, Or., May 18.—Late reports of the fruit outlook in the hilly districts, west and south of here indicate that the prune yield will be much below the average this season. Some growers say they will have about one-half a normal yield others claiming a little more. There are a few orchards that are well protected, however, where the damage is slight. Growers are optimistic concerning the outlook for prices.

ROSENTHAL'S WIDOW IS PRINCIPAL WITNESS AT SESSION

New York, May 18.—Herman Rosenthal's widow was the principal witness at today's session of the Becker murder trial. She detailed her husband's association with the former police lieutenant and described Becker's raids on Rosenthal's gambling houses. Mrs. Rosenthal said when she protested that Becker said to her: "You must not talk like that. It was either Herman or me."

BYRON DOESN'T WANT OFFICE OF LABOR COMMISSIONER NOW

"Now look out here; now's no time for fun and laughter," said Fred S. Byron, secretary of the Commercial Union, also defeated candidate for the office of labor commissioner, this morning as he was skipping down to his office. Mr. Byron was accosted by a sympathetic friend who wore a solemn and grieved look on his face. The said look suddenly turned into what could be termed a broad grin when the friends grasped the lost candidate's hand and Byron flew off to the sidewalk. "Can't you have a little heart for once?" asked Byron. "Just see that Alex Lafollett going down the street in an auto. He was nominated. I wasn't. I have to walk. Then make fun of a fellow for trying to uplift humanity like I did by getting out a day or so and advising the public what it needed most. That's all right. Go ahead and have your laugh. You didn't know, did you, that I am talked of by some people as being good timber for the office on the independent ticket? Well, just let that sink in and come out on the other side. Byron don't want the office now."

DETAILS OF FLOOD CONDITION ON THE YUKON ARE MEAGER

Fairbanks, Alaska, May 18.—Efforts were being made here today to learn more details of the flood conditions north of Fort Yukon. Communication was temporarily cut off, however, presumably by the wrecking of the wireless station at Circle City, which was threatened when the last message from there was picked up at Fort Gibbon. It was known that Circle City and Eagle City were inundated Thursday night, as were many mining and lumbering camps on the upper river, and it was said that much river front damage was done at Dawson.

MEXICAN ENVOYS EMBRACE AND KISS EXCITEDLY

Latin Style of Greeting Makes a Fine Scene at Hotel Astor Today.

New York, May 18.—The Mexican envoys to the "A. B. C." mediation conference were here today. Several Spanish and Mexican residents of the city met them at the Hotel Astor, visitors and greeted embracing and kissing excitedly in Latin style.

The envoys will leave for Niagara Falls tomorrow. "Just imagine," said Senor Rabasa, of the trio, when asked for an interview, "that I know nothing of anything."

SKIRMISHES AT SALTILLO ARE SMALL BUT GETTING FIERCE

Rio, Coahuila, Mexico, May 8.—General Villa had established his temporary quarters here today. He was expected to direct the final assault on Saltillo from the waterworks east of the city. British skirmishes have occurred frequently since last night. The first of these clashes followed an attack by the federals on the rebels' main body as it neared Saltillo from Hipolito. After the shot fight, the rebels retreated. Otherwise the engagements thus far have been comparatively small affairs between outposts. They were occurring more and more often, however, and on a steadily larger and larger scale, and promised to merge finally into the main battle.

Eye Glasses Should Go

Says New York Physician.

Here is His Free Prescription. "Many who wear glasses could dispense with them. Only ordinary care is necessary. The eyes of old and young should be properly bathed night and morning. This is more important than cleansing teeth," says he and then he goes on to say: "The following treatment is worthy of fullest confidence. It is scientific, immediately effective and positively harmless to the weakest of eyes. Go to any drug store, get a tube of Optona tablets, dissolve one in a two-ounce bottle of pure water and bathe the eyes two to four times daily. What is generally known as eye strain will soon be banished and the muscles and nerves are permitted to perform their normal functions. It helps diseased eyes and it keeps good eyes healthy; it is absolutely harmless in every way; does not smart or burn, has a wonderful effect on granulated lids and is especially recommended for dull, bleary or glassy eyes. It helps all eyes and should be in every home for use in an emergency."

The following extracts are from letters received from users of this prescription: "I used Optona one week for a cold in my eyes; it did me a great deal of good."

"My eyes have been failing for years. I am sure Optona is doing them good and shall continue its use."

"Have only been using Optona a short time. My eyes are improving wonderfully."

"I find Optona very satisfactory and recommend it wherever I find an opportunity. I find it very soothing."

"I've been benefited by Optona and intend to follow the treatment."

"Have been using Optona for about three months and it has greatly improved my sight."

"My eyes have been sore for several years; were red and inflamed. Used everything recommended and gained no relief. I had my eyes examined and wore glasses for six months. I read of Optona and thought I would give it a trial. Am glad to be able to state I got satisfactory relief, and have not worn glasses since. I feel my eyes do not require them."

"Many others have made similar reports. If your eyes bother you, have the above prescription filled; it may do wonders for you. Do not become a victim of neglect. You perhaps value your eyes more than any other organ, therefore it's your duty to protect them. This free prescription has given relief to thousands."

As regards woman's social works, the congress will take up the questions of moral and legal aid to minors; protection of emigrant women, pauperism; woman as regards hygiene and sanitary aid and the question of how society helps the subdued in the struggle for life.

The work program of the congress has been interspersed with a pleasure program which includes visits to all of the famous antiquities of Rome, and receptions at the Vatican and Quirinal.

CONGRESS OF WOMEN GET TO WORK TODAY Rome, May 18.—The readjustment of woman's sphere of action in the home, in the field of labor, and in social work, to meet the changed conditions of today were the problems with which the International Congress of Women had cut out for itself to solve when it reconvened here this morning. The opening session of the congress, which has been organized by the National Council of Italian Women, was attended by nearly 4,000 women. Of these nearly one half were delegates to the Quinquennial meeting of the International Council of Women, which closed its sessions in Rome Friday, but who remained over to participate in the congress. It was in fact owing largely to the holding in Rome of the international congress at this time, and as a result the opening session this morning had amongst its audience such distinguished women as Lady Aberdeen, president of the council; Princess Laetitia, Duchess of Aosta, Mrs. Ogilvie-Gordon, Countess Spalletti-Rasponi, Frau Hainisch of Vienna, Mrs. Mary Sewall, Madame Avril de Ste Croix, Countess Danelli-Camozzi, Rev. Anna Shaw, and in fact practically all of the best known leaders of the feminist movement from all of the leading countries of the world. The opening session, declared to be the most representative gathering of women of the world that has ever
