### OUTLAWS DO DAMAGE TO ORGANIZED BASEBALL

Federal League Has Caused Raise of Salaries to Be Given to Stars of Other Organizations.

### CONTRACTS ARE BINDING NOW TO BOTH PARTIES

Baltimore Fans Have Signed a Petition to Have Sunday Baseball Legalized.—St. Louis Browns Are Stronger.

By Hal Sheridan.

New York, May 21.—That the Federal league already has done all the damage it can to organized baseball is the belief of Sam B. Johnson, president of the American league. Johnson admits that the new organization has affected organized baseball.

"But," he added, "it has affected organized baseball only in one way. It has forced us to give most of the star players big raises. Every player that really amounts to anything is either in the American or National leagues. Of course there are a few has-beens like Mordecai Brown, Joe Tinker and Otto Knebe who have joined the outlaws but their days in the big brush were numbered anyway."

"The two big leagues have cut out the objectionable optional ten-day clause and now the contracts are absolutely binding on both parties. The only way the Federals could get on even terms with us would be to develop green material, and that would take years and years—longer than any of the mooned men behind the league would care to stand."

### ATHLETES LEAVE FOR MEET

Willamette U. Track's Team Goes to Forest Grove Friday Morning—Are in Fine Form.

The Willamette university track team leaves Friday morning for Forest Grove, where they will meet the track team of Pacific university in the afternoon.

The Willamette team is in the best of condition and should make a good showing in the meet. While they are very weak in some events, yet their superiority in others is expected to make up for the deficiencies.

Small, the 100-yard and 220 man, is in good shape and will make a strong bid for first place in these two events. It is quite possible that he will also enter the quarter mile.

Mills, captain of the team and famous as a hurdler, is working in nice form and should get away with the stick topping events.

Axley, the broad jumper who has been doing a good work leap all season, now has an able second in Jory who broke all his previous records in the recent inter-class meet, and will attempt to repeat the feat in the contest tomorrow.

Other men who will make the trip are: Shuler, hurdler and sprinter; Hoan, hurdler and broad jumper; Pfaff, discus and javelin; Deane, pole vault and weights; Chapler, mile and half-mile; Steeves, high jump and distance; Russell, quarter and half-mile; Hoque, pole vault and weights.

### TENNIS COURTS ASSURED

Surveying of Grounds Made This Afternoon—Labor and Materials to Be Donated.

With the surveying of the ground on Willamette university campus for the bituminous tennis courts this afternoon and the establishing of the grade the plan to provide a suitable place for the playing of tennis in the city of Salem will be under way. The courts are to be located just north of the sheds of the Oregon Nursery company on the Willamette campus, and will require in all about 1000 square yards of bituminous surface. The regulation court is 36x78 feet in size, but each of these courts is to have 15 feet of extra width on each end to provide room for a playing surface.

The courts are to be used by the students of the university during the school year but during the summer months will be open to the public except on holidays and after four o'clock on week days when they will be at the disposal of the tennis club members.

The tennis committee consists of Chairman Bishop, L. B. Howell, D. B. Wallace, and O. J. Gungrich. Mr. Bishop who has charge of the raising of the funds reports that the tennis enthusiasts and businessmen have promised their support and it is not anticipated that any trouble will be experienced in raising the necessary funds, as part is already subscribed. The Willamette University subscribed \$100 to the enterprise and the W. U. Tennis association has subscribed \$100 more. The courts will be worth \$800 when finished but a large amount of this sum will be donated in labor and materials.

J. C. Compton, of the Montague-O'Riley paving company, has promised to supervise and lay the bituminous top dressing at actual cost of labor and materials and the crushed rock for the base will be secured at cost also. Prescott Simonton has offered to haul the materials in his auto truck at actual cost and a number have promised to donate labor on the courts. It was at first thought that a 4 1/2 inch concrete base would be practical but Paul Wallace who has charge of construction, is of the opinion that a crushed rock base will be as good and much cheaper as it is impossible to secure any reduction in the price of cement.

It is proposed to finish the courts as soon as possible but a large amount of the work will have to be done at the convenience of the donors of the labor. Mr. Howell will survey the courts this afternoon.
