It is wonderful to what extent some folks will go in order to catch a mess of trout. At least this is what John Savage, the bookkeeper at the Salem brewery believes. Mr. Savage, in company with others, went fishing up past Scotts Mills last Sunday. Today the bookkeeper is as lame as a work horse after pulling a lead all day in a cold rain. Mr. Savage states that he caught some nice fish, however.

According to the residents on Court street near Wilson avenue, there are a good many young motorcycleists in Salem who have an utter disregard for both the efforts of the members of the Salem military band and those who enjoy the concerts given by the organization. It is said that the band music cannot be heard through the din and roar of a dozen or so machines which speed by with open mufflers during the concerts. A popping, snapping, jangling motorcycle can make more noise than a fire truck and a boiler maker put together, declare those who complain about the racket, and they believe the council should take some decisive action to put a stop to what they claim is a public nuisance of the worst character.

The city recently purchased a patching outfit for repairing paving, and it was given its first try-out Wednesday. This morning it was moved onto South Commercial near Mission and put at work filling some of the big holes in the concrete. The patching is done with an asphalt mixture, the work being done quickly once the old concrete is dug up. Only the worst of the cracks in that "permanent" piece of paving will be repaired at present, but by the time some other needed patching is done the smaller cracks will have grown.

Had it not been for the fact that the people of Salem failed to take more than casual interest in the sportsman who held a tournament here last Sunday, Monday and Tuesday, the Capital City could have easily been named as the next meeting place of the Oregon State Sportsman's association, according to Henry Vetch, the field manager of the recent shoot, and the father of the Capital City Rod & Gun club. Mr. Vetch said today that Salem could have easily been honored again with the presence of the 50 or so members of the association next year had the people of Salem shown the proper spirit by coming out and attending the shooting contests.

## CHOIR CONCERT WAS UNQUALIFIED SUCCESS

The concert given at the First Methodist church last evening by the choir, assisted by the ladies' musical club and the gloe club of Willamette university, was one that will not soon be forgotten by Salem music lovers.

The entire program, which included solos, trios, quartets and numbers by the choir and the two university clubs, showed plainly the careful supervision of Dean Mendenhall of the Willamette university College of Music, under whose direction the concert was presented.

The singing of the choir, which is one of the largest and most carefully trained in the city, was very exceptional. The ensemble work was of an extremely high order and the manner in which the different sections handed their parts left little to be desired.

The ladies' musical club, which appeared in two numbers, received continued applause and completely captivated the audience with their number "Looks and Eyes."

It remained, however, for the University Glee club to call forth applause that bid fair to interfere with the continuation of the concert had not the boys returned for a second and then a third encore at their first appearance. Their second number, "The Garden of Dreams," by Mr. Schramm and the club, was the crowning effort of the evening. The rich tenor of Mr. Schramm and the ease with which it retained its volume and at the same time the high notes, displayed extraordinary musical ability.

His rendering of the solo part, backed by the perfect harmony of the club, made the number one that could have been repeated several times without a loss of interest and enthusiasm.

While the numbers presented by the choir were of a very pleasing nature, the selection "The Alps," five settings of Alpine poems by Engelberg, is deserving of special notice. The number, "Cajun Airman," from "Statist Matter," by the quartet and choir was also especially well received.

The solos by the Miss McMahon and Mr. Jones and the work of the ladies' trio were all of a very high type and were pleasingly rendered.

Too much praise cannot be given to Dean Mendenhall for his work with the choir, the clubs and the soloists. It is a rare artist indeed that could duplicate the offerings of last evening.

## UNDERWORLD WOMEN HELP RAISE FUNDS

San Francisco, May 21.—Women of San Francisco's underworld were contributing liberally today to a fund to be used in an effort to secure a new trial for Hazel Lux of Oakland, recently sentenced to life imprisonment at San Quentin, for the murder of William Garland. Up to date \$385 had been contributed.

The Lux woman killed Garland when he failed to keep an alleged promise to make her his wife. She formerly conducted an Oakland resort.

## OREGON BERRIES ARE CROWDING CALIFORNIA

Shipping Season Is Launched at Salem Fruit Union—Cherries and Loganberries Are Next.

The strawberry shipping season is now fairly launched at the Salem Fruit Union and from 100 to 150 crates are being shipped daily. By the last of next week the union will be shipping by railroad lots. The first strawberries were shipped this year on May 15, which is about 10 days ahead of the average season. Last year the first berries were shipped on May 28 and the earliest that berries were ever shipped before was in 1910, when the first shipment was made on May 20.

On account of the early season this year, Oregon strawberries have interfered with the market for California berries, which have had a monopoly of the early market heretofore. The berries grown in Marion county find a ready sale, and the local consumption of strawberries is inadequate to reduce the shipments to other markets.

Loganberries and cherries will be the next crop handled, and the Fruit Union will commence the shipment of these fruits about the middle of June, which is also about 10 days earlier than previous years.

## DR. JORDAN TAKES ISSUE WITH ROOSEVELT REGARDING PEACE

San Francisco, May 21.—Writing from Aden, Arabia, Dr. David Starr Jordan, chancellor of Stanford University, has taken issue with Colonel Theodore Roosevelt's recent criticism of distinguished peace advocates. Dr. Jordan is studying the effects of the recent Balkan war in southern Europe. Dr. Jordan said:

"The surest guarantee of peace is to want peace, to cultivate international understanding, to use every means to 'take off the fighting edge' wherever the interests of one nation infringe on those of another. As to 'peace-at-any-price,' again we say let us see your price lists first. Let us find out what we want and count the cost. The peace that Europe enjoys today, the peace of 'proper armaments,' is not for us. It costs too much—a waste of human effort and of human life that civilization cannot long endure."

## FIRE CAUSES \$15,000 LOSS AT MILL CITY

Albany, Ore., May 21.—Fire of unknown origin completely destroyed the south side of Mill City, a hamlet town of four hundred inhabitants 38 miles northeast of here, last night, doing damage estimated at \$15,000, according to news reaching here today. There were no casualties. Bucket brigades were powerless. The fire burned itself out when it reached the Santiam river, which divides the town.

## DUAL TRACK AND FIELD MEET TO BE HELD

The meet will be held during the summer vacation months, and will be held during this time if it is impossible to secure the field before the school closes.

## Event Is To Keep Up Interest in Athletics and Provide Healthful Exercise.

It was decided at a recent conference of the representatives of the Chemawa Indian training school and the Salem Y. M. C. A. to hold a dual track meet between these two institutions either just before the Salem to Portland relay race or just after this event. The meet will be staged on Willamette field which will be under control of the local Y. M. C. A. during the summer vacation months, and will be held during this time if it is impossible to secure the field before the school closes.

The meet will include the full program of track and field events and each team will be allowed to enter three men in each event. While the Y. M. C. A. does not expect to appear particularly strong in the sprints and field events they have a number of good distance men and expect to make a showing in these events.

As the Y. M. C. A. has no athletic field at its disposal now it is impossible to train for the hurdles, the weight events, jumps, and pole vault but the distance men are working for the relay race and will be in good shape.

It is not expected that the meet will add materially to the coffers of either institution but it is to be staged simply to keep up an interest in athletics and healthful outdoor exercise during the summer months as well as during the winter time. It is not expected that the athletes will train as consistently as if they were in some local institution but it is to be staged simply to keep up an interest in athletics and healthful outdoor exercise during the summer months as well as during the winter time.
