AGAINST CRUELTY TO ENGLISH.

A society of scholars is in process of formation in England for the encouragement of the use of pure English, both written and spoken.

It is an Oxford movement, and (originally at all events) it will not seek to widen membership. Dr. Bridges, the poet laureate, is at the head of it; and it will have the support of such masters in English as Mr. Thomas Hardy, Dr. Henry Bradley, and Dr. Craigie, professor of English literature at Oxford, and Professor Mackall, sometime professor of poetry at Oxford.

While the objects of the society have not been defined, they will probably include: The publication of literature, the delivery of lectures, and an attempt ultimately, to influence all the teachers of English in the world; the restoration of the purity of the written and spoken language; a resistance to the unnecessary incorporation of foreign words, and encouragement of the adoption in polite speech of crisp, terse, vigorous words from the dialects. The English that Johnson wrote is an object aimed at by many experts. For instance, Johnson would say "rot," but he would write "putrefy."

Dr. Bridges' views on pronunciation were expressed in a tract prepared for the English association. We say "nayer" for nature. "Tune" is well on its way to be pronounced "chune." A professor of English has been heard to say "audjins" for audience. It may be added that one of our most popular platform orators (Oxford himself) says "cweshyun" for question and is sadly addicted to the word. The younger generation say "pawing" for pouring. Fortunately the educated South is learning again that there is an "h" in "wheel" and "when." Ireland and Scotland never forgot it.

The new movement is far from being an attack on provincial speech. "A Londoner will say," wrote the poet laureate in his tract, "that a Scotchman talks strangely and ill; the truth is that he himself is in the typical attitude of vulgar ignorance in these matters. He is disposed to look down on all that he is unaccustomed to, and, not knowing the true distinctions, he esteems his own degraded customs as correct."

Many trees are being set out in the parkings this year, and if the best results are to be obtained strict attention to the "color scheme," so to speak, should be observed. In other words, there should be some tree agreed upon and the parkings along that street all set to that one kind. It will produce a fine effect, and one that can be secured in no other way. Liberty street has a goodly start with walnut, and if this is used on the entire street it will be one of the most showy in the city in a few years. Mission also has a good start with walnut and will prove one of the show streets when they get a few years growth.

Sylvia Pankhurst has been arrested again in London, and it is presumed will start another hunger strike. The government is up against it, or her, and it seems the only course left open for it is to furnish the obstreperous woman plenty of food and if she chooses to starve herself to death let her go to it. They have the government at a disadvantage, as they object to being fed just as strenuously as they do to being starved. The only way is to pass the matter up to the women and let them decide whether or not they will eat or starve. It is cruelty to animals to feed that bunch forcibly.

Huerta's latest declaration is that he is "called by Heaven" and that he "was intended by God and destiny for the position which he holds." On the doctrine that "what is to be will be, because what has been was to be or it wouldn't have been," Huerta is right. At the same time, if he was called by Heaven, it was on a bluff, for there were no cards to justify the call.

The glad news comes from Washington that congress will adjourn by July. The house has arranged for holding night sessions for the purpose of rushing through a second anti-trust measure. From present indications, the American vessels will have to pay tolls for the use of the Panama canal.

Uncle Joe Cannon has made up his mind to take the race for congress once more. He is one Cannon that was supposed to have been fired for the last time, but he evidently thinks he is loaded again.

A correspondent writes the Journal complaining of the noise made by children in the park when the band is playing. Being unsigned, it is, under the invariable rule of the office, not printed.

THE ROUND UP.

- Five divorces were granted in Portland Saturday, no appearance being made in any of them by the defendants. Arrangements are being perfected for the tearing down of the Gipsy Smith tabernacle in Portland. John Day, 40 years old, was crushed to death between logs he was helping unload at the Stoddard mill, at Baker City, Saturday. Some conscienceless thief stole the suit case containing the tressou of Miss Valene Eastman at Portland Saturday, delaying her wedding. Mrs. Abbie M. Cardwell, aged 82, a pioneer of 1852, died at her home in Portland Friday. Central Oregon reports the prospects good for the greatest crop in its history. This report is verified from practically all parts of the east of the mountains section. The baby parade at the Roseburg strawberry show was its finest feature, and naturally so since that is old Oregon's best and finest crop. Would-be Senator Booth was given a rousing reception at Athens Saturday. One little dimple has caused many a fall.

Vera Cruz Subject to Such Law as Occupying Power May Enact

By FREDERIC R. COUDERT, International Law Expert

DURING the occupation of Vera Cruz the inhabitants of such territory become subject to such law as the occupying power may choose to enact. As a matter of fact, the military officers of the United States in occupying territory are bound by the military code and the instructions for armies in the field, which instructions are based upon Professor Lieber's instructions contained in general orders No. 100 and which were in force during the civil war.

THE PROPERTY OF THE INHABITANTS AS FAR AS CONSISTENT WITH MILITARY NECESSITY AND THEIR PERSONAL LIBERTY IS TO BE RESPECTED. THE ORDINARY MUNICIPAL LAW RULES AND REGULATIONS ARE CONTINUED IN FORCE AS FAR AS THEY CAN BE CONSISTENTLY WITH EFFECTIVE MILITARY CONTROL. THE LOCAL AUTHORITIES ARE USUALLY CONTINUED IN THE EXERCISE OF THEIR ORDINARY FUNCTIONS, BUT THIS MUST BE DONE WITH THE PERMISSION OF THE OFFICER IN COMMAND. SUCH TERRITORY IS DIRECTLY SUBJECT TO THE ORDERS OF THE PRESIDENT OF THE UNITED STATES AS CHIEF EXECUTIVE.

The government in Cuba for years was a military government of the United States directed from Washington, and such was the government carried on in the Philippines until congress enacted there a local government independent of the military government.

USE NEWBRO'S HERPICIDE IN TIME AND YOU WON'T NEED ANY FALSE HAIR

Wearing artificial hair is a harmless deceit of which many ladies are guilty. These women are all objects of sympathy rather than criticism. Early neglect in the care of the scalp has caused the loss of so much hair that their personal appearance is sadly marred. To correct this defect they resort to artificial hair. Most ladies would resent any imputation of personal carelessness and neglect. And yet many women permit their natural hair to become so dull, brittle and lusterless that it looks no better than the artificial. All this is as unfortunate as it is unnecessary. Hair that is slightly or this may usually be attributed to the malevolent activity of the dandruff germ. This vicious germ burrows down into the hair follicle, shortly destroying its life. The hair becomes dead, loose and finally drops out. There is a remedy sold by all druggists, the intelligent use of which will remove all traces of dandruff. It also cleanses the scalp of all accumulations and makes the hair shine with the luster of life and beauty. That remedy is Newbro's Herpicide, "the Original Dandruff Germ Destroyer." Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied, your money will be refunded. Applications may be obtained at the best barber shops and hair dressing parlors. The Herpicide Co., Dept. B, Detroit, Mich., will send a nice sample and booklet to any address upon receipt of 10c in postage or silver.

Fletcherism

I read a screed by Brother Fletcher, on how we ought to chew our grub; I said, "It's sensible, you betcher!" I'll emulate that thoughtful dub. No more like some old anaconda I'll swallow all my victuals whole; I'll eat the sort of things I'm fond of, but chew them up with heart and soul." And now I'm always at the table, I have no time to do my chores; the horse is starving in the stable, the weeds are growing out o' doors. My wife says, "Say, you should be doing some work around this ship-shod place." I answer her, "I'm busy chewing—can't see the motions of my face!" I have no time to see the latters, I have no time to mow the lawn; though chewing like ten alligators, I'm still behind, so help me, John! I chew the water I am drinking, I chew the biscuit and the bun; I'll have to hire a boy, I'm thinking, to help me get my chewing done. Some day they'll bear me on a stretcher out to the bonnyard, where they plant, and send my teeth to Brother Fletcher, to make a necklace for his aunt.

AGED, WRINKLED FACES EASILY REJUVENATED

An aged face is often only a mask to a comparatively youthful person. Beneath is a countenance young and fair to look upon. It's a simple matter to remove the mask. Ordinary mercuric iodine wax, to be had at any drug store, gradually absorbs the worn-out surface skin; in a week or two the user has the loveliest pinky white complexion imaginable. An ounce of the wax usually is sufficient to complete the transformation. It is put on at night like cold cream and taken off in the morning with warm water. This remarkable treatment is invariably effective, no matter how muddy, sallow or discolored the complexion. Freckles, moth patches, liver spots, pimples, blackheads and other untamable blemishes naturally vanish with the discarded skin. To remove wrinkles, here is a recipe that cannot be too highly recommended: Powdered axolotl, 1 oz., dissolved in 1/2 pint witch hazel. Use as a wash lotion. It acts instantaneously and is wonderfully effective.

O.O. GRADUATING CLASS WILL NUMBER NEARLY 130

Finals Begin June 6 and Commencement Day for Those Who Pass Will Be June 17.

University of Oregon, Eugene, May 26.—A senior class of 130 comes up for graduation tests in the final examinations beginning June 6. Commencement exercises for those who are successful will begin June 14 and will be concluded the night of June 17. Commencement week program will be as follows:

- June 14—Baccalaureate sermon by Rev. P. L. Loveland, Portland. June 15—Field day in the afternoon; school of music recital in the evening. June 16—Meeting of state association of alumnae and business meeting of alumni in the forenoon; president's reception in the afternoon; Falling-Beechman oratorical contest in the evening. June 17—Commencement exercises at 10 a. m.; alumni banquet, 1 p. m.; alumni ball, 9 p. m. The commencement address will be given by Dr. Melvin A. Brannon, the new president of the University of Idaho. Ground is to be broken by Governor West for the new classroom and administration building.

Dyspeptics Warned By German Physician

Prof. Biegel, World-famous Authority on Stomach Diseases, Points Out Lurking Danger.

Franz Biegel, professor of Clinical Medicine in the University of Giesen, pronounced the world's greatest authority on diseases of the stomach, makes the positive statement that peptic acid must not be used in treating acidity of the stomach. Millions of people are taking all sorts of dyspepsia tablets because they contain pepsin which affords slight temporary relief. But every dose contributes to serious harm in time. What is needed is something to neutralize the excess acid. The best thing for that purpose is ordinary bicarbonate of soda. You can get it at any drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. You will get immediate and complete relief with no danger or bad after effects. Authorities agree that acidity is the cause of nearly every form of stomach disorder, and if not checked it is likely to lead to stomach ulcers and cancer.

MATHEMATICS FOR SUMMER.

Correspondence courses in mathematics at the state university, in which 150 students enrolled this year and which are free to all residents of the state, are not to be suspended during the summer vacation, a demand existing for all-year work. The courses correspond closely to those given at the university itself, with the addition of the high school subjects of elementary algebra and geometry. Plenty of salt is vitally essential to the thriftiness of the young stock.

PRESIDENT CAMPBELL IS HOME.

University of Oregon, Eugene, May 26.—P. L. Campbell, president of the University, returned this week from a trip to the University of Pittsburgh, Harvard and other big eastern colleges, where he has been looking over professional material for the University of Oregon, to the faculty of which several notable additions are expected for next fall's work.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 15c. Take Hall's Family Pills for constipation.
