BUSINESS AND BOXING DON'T MIX SAYS WRITER

Fighter Cannot Watch the Box Office and Mind Actions in Ring at the Same Time.

RITCHIE'S GREED RESPONSIBLE FOR DEFEAT BY WHITE

Boxers Who 'Hog' All Money in Sight Usually Disappoint the People Says Expert.

By Hal Sheridan.

New York, June 4.—That Willie Ritchie's greed was largely responsible for the trimming he received in Milwaukee at the hands of Charlie White is the belief of Bob Fitzgibbon, the New York sport writer.

"How can a man fight," asks Edgren, "when his head is full of figures and he's watching the box office instead of thinking about what he's to do in the ring?" Willie Ritchie certainly showed the effect of mixing business with boxing when he met White.

"Under ordinary circumstances Ritchie should have at least outpointed White without much difficulty. White has an excellent record, with many O. K. wins, but young Shugrue beat him twice in New York, and only a few months ago Jack Britton stopped him in 18 rounds in New Orleans. Ritchie should do at least as well as either of these.

"Boxers who try to 'hog' all the money in sight every time they fight seldom make good. They usually disappoint the people who pay big prices to see them fight. They are too cautious. This is in Ritchie's weakness, of course. He isn't cautious when at last induced to enter the ring.

"Gibbons and McGorty fought one of the poorest fights ever seen on a big card in New York. McGorty was willing enough but Gibbons ran his life. He was taking no chances. Mike had visions of other big purses and knew that a knockout would put him back where he started.

"When boxers demand practically prohibitive sums for their services, the public pays the bill. The price of seats goes up. So the public is the sufferer.

"It would be the best thing in the world for the sport if followers of boxing refused to pay excessive rates to see boxers perform. The clubs would then let the fighters know that they could fight on percentage or not at all.

"If the state boxing commission has no authority to make a rule governing purses, it would be a good thing for all boxing clubs formally to agree that they will never give any boxer a guarantee, but will pay only a percentage of the gate receipts. The example would be followed in all other cities. The fighter is worth a percentage of what he draws, nothing more."

WHITE WANTS \$10,000.

Chicago, June 4.—Charlie White wants \$10,000 to meet Champion Willie Ritchie in San Francisco in a 20-round bout there in July.

This, at least, was the figure he named in answer to a telegram from Eddie Graney, the San Francisco fight promoter, asking what his terms for such a match would be.

"I think," said White today, "that I am as much of a drawing card now as the champion. Willie will get twice as much as I do for such a bout and I figure that my end should be at least \$10,000."

COULAN WORKS OUT FAST.

Los Angeles, Cal., June 4.—Poivis as a bear with a sore jaw, Johnny Coulon, in his training camp work, is beginning today to reassure the friends who are backing him to retain his title when he meets Kid Williams of Baltimore at Vernon next Tuesday night.

Johnny worked several fast rounds just to disprove charges that his wind was bad. He finished in fine shape. His usual good nature was lacking, however, and his sparring mates had a bad time of it throughout the afternoon. He continued his boxing today, and tomorrow expects to increase the distance to about 20 real rounds.

Saturday will be a rest day, and on Sunday he will don the mitts for the last time before the battle.

Williams plowed stolidly through his usual work, spending an hour on the road. The kid seems to be in perfect shape. He is hitting hard in his camp bouts and is boxing in better form daily.

Betting is brisker today, with Williams' money making his appearance. The kid is regarded here as about an even money chance.

TWO ARE KILLED IN FRIGHTFUL MOTORCYCLE ACCIDENT

Pittsburg, Pa., June 4.—Two were dead here today, two were frightfully injured and eight were less seriously hurt as a result of an accident last night at the Pittsburg motorhome, where a motorcycle, ridden by Arthur Armstrong, became unmanageable, leaped from the track and plunged through the crowd of spectators.

The dead are: Charles Marzoff and Benjamin Kernohan, aged, respectively, 47 and 26.

Armstrong, the motorcyclist, suffered a broken back, right leg and left arm. His recovery was deemed impossible. Robert Rowley, a spectator, had a crushed leg.

The minor injuries consisted of severe cuts and bruises.

SOPHS WIN GAME.

The annual freshman-sophomore baseball game between the two lower classes of Willamette university was played on the varsity diamond yesterday afternoon, the Sophs winning by the score of 4 to 3.

The game was more warmly contested than any that has been played this year. Grover Gates, third-sacker, on the first team, pitched for the fresh, and Brantier Small, the famous short-stop, twirled for the Sophs. The lineup:

Freshman—Peffer, c; Gates, p; Newton, 1b; Adams, 2b; Grallap, 3b; Fiegel, 4b; Chapler, lf; Bartlett, cf; Barner, rf. Sophomores—Hain, c; Small, p; Ohling, 1b; Gerhart, 2b; Gary, 3b; Shialer, ss; Hogue, lf; Jewett, cf; Hanke, rf.

RITCHIE SORRY BOUT OFF

Champion May Box Charlie White in July if Inducements Are Sufficient—Other Propositions.

San Francisco, June 4.—The proposed Willie Ritchie-Freddie Welsh match in London is off for good.

This much was made certain in a telegram today from Champion Willie Ritchie in which he declared he stood ready to take on either Welsh or Charlie White in a 20-round bout in San Francisco. One of Ritchie's telegrams read:

"Thery has just returned from New York. From what he says the London proposition was just a scheme to trim us good. Vernon insisted that John Considine be stakeholder and that I post \$2,500 immediately as a forfeit. Also that some person named Kelly must referee. I figure had I posted the money I wouldn't have had a chance. I do not know Considine and understand that he and Pollock are very close. Looks as if Pollock made Vernon the goat. Am sorry the match fell through, as I was anxious to make this trip."

Louis Parente, matchmaker for the Humboldt club, yesterday wired Ritchie asking if he would accept a match here on July 4. Ritchie answered as follows:

"Will box for you in July if inducements are sufficient. Charlie White preferred."

Parente, acting for Eddie Graney, immediately wired Ritchie an offer of \$17,000 to box either White or Welsh here July 4. An answer was expected before night.

Indications today were that the George Chip-Billy Murray match will fall through. In such an event, Promoter James W. Coffroth also will start bidding for a Ritchie-White match.

Through his manager, Murray has wired Coffroth that he will not make any weight concessions for a bout with Chip, adding:

"As Murray is recognized by the New York sporting scribers as the mid-dleweight champion, the weight, 158 pounds ringside, must go through."

Chip insists that the weight be 158 pounds four hours before the fight and says that he will not meet Murray at any other poundage.

WAGNER TO TRY TO BRING SAFE HITS UP TO 3000

Pittsburg, June 4.—Unless rain interferes with the scheduled game here this afternoon between the Pirates and the St. Louis Cardinals, Hans Wagner, shortstop for the Pittsburg National league club, hoped to bring his total of 2,998 safe hits made since he entered the major league up to an even 3,000. The betting was even that the big German would succeed.

OREGON SUPREME IN CONFERENCE BASEBALL

Eugene, Ore., June 4.—With the score tied in the third inning, two men on bases, Atanusa, Oregon's third baseman, drove out a long hit to center field, seating the two men, and in addition clinched the Northwest intercollegiate champion for Oregon. The final score was: Oregon 4, Washington State college 1.

Oregon played real baseball yesterday. There was none of the "bone-head" plays that were in evidence in Monday's game. The whole team was working together, and at no time during the nine innings did Oregon "blow up" or show any sign of weakening.

Tuerck for Oregon was on the mound. He allowed but four hits and struck out 10 men. But not satisfied with this record, he started the batting rally in the third by driving out a three-bagger to left field. He was later caught at home plate when he tried to come in on "Skeet" Bigbee's infield hit.

In the first inning Tuerck was a little wild, walking Tully, W. S. C.'s first man up. Lester sacrificed and Captain Cased scored Tully on a hit to the left garden. This was the only score W. S. C. was able to get across, although Coach "Johnny" Bender was instilling lots of ginger into his men. Bender did succeed in having all the boys fighting hard, and they lost with good sportsmanship.

HEIRS LOCATED AFTER SEARCH.

Pendleton, Ore., June 4.—Located after a search of 18 months, John C. Guirado, a laborer of this city, and Mrs. Talita Guirado, of Adams, near here, are advised today that they are heirs to the estate of the late Raipa C. Guirado, a wealthy citizen of Los Angeles. Each is expected to receive \$75,000.

Late Yesterday

At New York.—Ex-Governor Sulzer announced he was again a candidate, this time independently, for governor of New York.

Tonsina, Alaska.—Prospectors from Crooked, Willow and Poorman creeks and Noon Gulch reported a rich strike of pay dirt.

At Washington.—Secretary of the Treasurer McAdoo and his bride, President Wilson's daughter, returned from their honeymoon.

At San Francisco.—Playing, Francis Wood, 16, grasped a chain dangling from an electric street lamp and was shocked to death instantly.

At Philadelphia.—Thomas A. Edison, addressing the National Electric Light association, said only 25 per cent of the problems of electricity have been solved.

At Havre.—The French liner La France arrived with the news that the ship barely missed a collision with an unknown vessel in a fog Sunday evening.

At San Francisco.—Robert Fawtz, 13, bicycling, was run over and killed by an auto truck, the driver of which, Carl Olsen, was arrested, charged with manslaughter.

At San Francisco.—John Frank, an unsuccessful as a retail butcher, shot and killed his wife, then swallowed poison and blew out his own brains.

At Washington.—Congressman Hayes introduced a bill for a monument costing not above \$10,000 on Fremont's peak, commemorating the unfurling of the flag there at the outbreak of the Mexican war.

At Redwood City, Cal.—Local authorities telegraphed for the arrest in Chicago of Robert Lindsay, a well known automobile man, accused of giving a worthless draft to a San Mateo Southern Pacific railroad agent for railroad transportation.

At Long Beach, Cal.—Mrs. Laura Rice, a widow, drank carbolic acid and was not expected to live.

At San Bernardino, Cal.—William Cartwright, wealthy hog rancher, disappeared.

At Los Angeles, Cal.—John Ellsworth Scott was found guilty of first degree murder for killing M. A. Varney, and life imprisonment was recommended by the jury.

At Los Angeles, Cal.—Clarence P. Powers, a stock raiser, was found guilty of using the mails to defraud. His father, George P. Bowers, jointly accused, was acquitted.

SALE OF INDIAN LANDS AT ROSEBURG

Roseburg, Or., June 4.—In a sale of government lands here yesterday under the direction of the local Indian agency, in which several hundred pieces of former Indian lands were at the disposal of the highest bidders, H. G. Wilson, the agent, reports that little interest seems to have been taken. He believes that this result is due to the scarcity of money in this section, which is felt more directly in the investments in land. The amount of money returned from the sale yesterday was estimated this morning at about \$30,000. Most of the land bought was in the vicinity of Burns and in Harney County, where several large bids were given on desert land that may be brought under irrigation. In thirty days more another sale will be held at which the lands already advertised but unsold will be offered. New lands will be put on sale after 60 days. These lands were formerly owned by Indians, but on account of the death of the owners and in the absence of heirs, have reverted to the government.

Children Who Are Sickly.

Mothers who value their own comfort and the welfare of their children should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They Break up Colds, Relieve Feverishness, Constipation, Teething Disorders, Headache, and Stomach Troubles. Used by Mothers for 24 years. THESE POWDERS NEVER FAIL. Sold by all Drug Stores, 25c. Don't accept any substitute. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

PORTLAND AMENDS CODE.

Portland, Ore., June 4.—An amendment to the city building code today makes it possible to erect a skyscraper 200 feet, or 16 stories in height. The limit heretofore was 160 feet.

AMERICAN TEACHERS STUDY GERMAN SCHOOLS

By Karl H. von Wiegand.

(Berlin correspondent of the United Press.)

Berlin, June 4.—Thirty-two American teachers representing the leading American trade schools and headed by L. L. Summer, have arrived at Munich and will spend the summer studying the famous vocational schools of that city. The results of their study and investigation will be embodied in a report for American educational authorities together with a practical application in their home schools of the new features learned in Munich.

The Munich vocational schools have attracted world-wide attention, although but comparatively recently established. They provide a "practical education," in sharp contrast to the "book-cramming" schools of Germany.

Instead of starting with books and theories and cramming the mind for years, the Munich vocational schools start boys in practical technical and manual training in the trade or vocation they choose and combine with it a course in general education. Thus the hands and mind are trained simultaneously for the trade or vocation to be followed.

Brains Are 'Over-Educated.'

Dr. George N. Kerchensteiner, known as "father" of the vocational schools of Munich, declared in an interview with the United Press that nowadays brains were being "over-educated" to a point rendering thousands of young men useless for practical work. The German youth, he said, lacks practical education. German young men seek "small but safe harbors" and prefer small subordinate positions in the employ of the state, when they could do much better for themselves had been practically educated and not "educated above and beyond" such work.

"From a standpoint of practical education and fitting boys for business or to make their own livelihood, the American schools are better than German systems with the exception of the Munich vocational schools," said Dr. Kerchensteiner.

"The American schools are equipped so as to direct the inclination of the scholars into practical channels. A love for practical work is fostered in the boys.

"German schools, generally speaking, drive away from practical activity instead of steering in that direction. How can anyone who for six years or longer in the higher schools have been fed on nothing but books and work find courage to enter a workshop and work with his hands.

"What sums of intelligence are thus lost to independent economic life. We Germans have a right to praise ourselves for having given to the world public schools, but we no longer should clothe ourselves in the toga of the Preceptor mundi. No people in the world make such sacrifices for their schools as do the Americans."

Discussing the lack of religious and moral instruction in American public schools, Dr. Kerchensteiner said he believed that it deprived children of an educational element truly valuable when given by rightly imbued teachers.

Separation Gives Peace.

On the other hand, he said that the separation of the church and state had given the American school system an "unfettered peace under which progress in education has been made in the same period of time no other civilization has to show.

The famous German educator some time ago made a tour of America for the purposes of studying its public schools. He said that the better public schools of the larger cities were equal to any of the German schools.

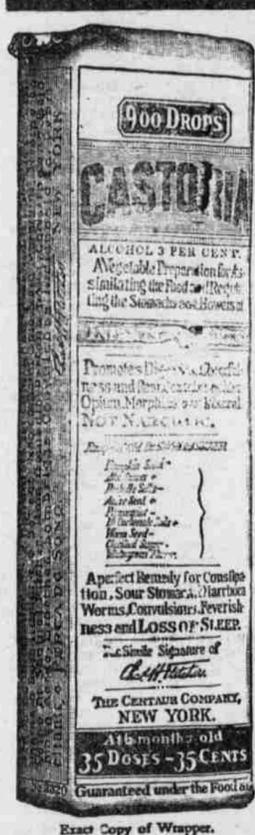

"The American educational system in the main rests on a German basis," said he, "but contains characteristic tendencies developed in a valuable manner of which we apostles of pedagogy know nothing."

Speaking of the visit to the American teachers, Dr. Kerchensteiner said: "I am much pleased that the American teachers have come to Munich. I think they will find something in practical education even new to America."

"They will see how successfully a practical education combined with general knowledge works out. I think there are many features in these vocational schools which will appeal to them, and that they are adaptable to American as well as German conditions."

CITY OFFICIALS DISCUSS CITY PLANNING

Auburn, N. Y., June 4.—Municipal taxation and city planning were two of the most important subjects planned for discussion at the annual sessions of the New York state conference of Mayors and other city officials which opened here today. Few towns and cities of the state are not represented either by their own mayors or by other delegates. The city manager plan of government, like that in vogue at Stanton, Va.; Dayton, Ohio, and other cities, will be thoroughly gone into. Informal sentiment expressed today by a half-dozen mayors was strongly against the city manager plan. Administrative efficiency, fire prevention, the development of parks and playgrounds, the repression of commercialized vice and efficiency in public health work are other subjects which are to be discussed. A special report, the results of a year's investigations, will be presented by Lawson Purdy, president of the conference, on taxation and the assessment survey of cities. Sessions will continue tomorrow and Friday.

SON OF TOBACCO MAGNATE DIES IN AUTO WRECK

Los Angeles, Cal., June 4.—Messages received here today told of the death under his own automobile near Park City, Utah, of Woodward W. Duke, son of Brodie L. Duke, the tobacco magnate.

With four companions, Duke left Pasadena a week ago to tour in New York. He was seeking a record. The brief message telling of his death said that the car overturned and rolled into a creek, pinning Duke beneath it. He was drowned in spite of the efforts of his companions to raise the car.

No others of the party were injured.

STAR COLLEGE ATHLETE.

Mr. and Mrs. H. F. Penton, of Dallas, are in Eugene to witness three championship baseball games at the University of Oregon. They are the parents of Carl Penton, who this week finishes his college athletic career, in which he has won more honors than any other athlete. Penton has won his letter in basketball, football and baseball each year of his four years in college.—Eugene Register.

WIDOW SWALLOWS ACID.

Long Beach, Cal., June 4.—Mrs. Laura Wilson, a widow, aged about 50 years, swallowed carbolic acid late this afternoon. She was rushed to Seaside

hospital, but it is believed she cannot recover. Mrs. Wilson is a widow with two grown sons, a boy and a daughter of seven. She is said to have been in strained circumstances and this is believed to be responsible for her act.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, Ohio.
