Mr. Holt says that McMinville is in the midst of a building rush and that the lumber yard at that place is doing a good business. He says also this city is paying a number of its principal streets. Men and boys had a bang-up time swimming in the cool waters of the Willamette last night. Several young fellows were heard splashing about in the river as late as 10 o'clock, and the banks on the Polk county side of the stream are lined with the berry-brown bodies of the youngsters who naturally take to the old pond like a duck to water. There has been no accidents in the Willamette this season. Old time rivermen warn the youthful swimmers to use more than ordinary care, however, as the river at the point is just as dangerous as it ever was, and possibly a little more so.

A hike to Newport by a number of boys from the junior classes of the Y. M. C. A. is being planned to take place early next month under charge of either Physical Director Gingrich or Eddie Tallman, the boys secretary. The boys plan to spend two weeks at the seashore fishing for trout in the streams about Yaquina bay and in taking a general vacation in the open. They will carry small dog tents similar to those used by the state militia and will forage for provisions on the way. Any number from 10 to 100 may be taken, according to the statement of Mr. Gingrich this morning, but it is expected that about 15 will take the trip. They will make the journey of 65 miles to the coast by easy stages and will take about four days to go over.

By the season ticket plan it is possible to attend the 30 events of the chautauqua for only eight cents each. Luther J. Chapin, county agriculturist, returned today from a trip to Douglas county, where he examined the lime deposits of that section in company with F. W. Rader, county agriculturalist of Lane county. Mr. Chapin says that their report is not made up yet, but he brought back some of the samples of the lime rock which is pronounced to be of good grade. He says that there is an untold amount of the lime rock there and that plans are under way to mine it and turn it to commercial use. When asked as to the extent of the deposits he replied that the words of the resident of the section were nearly correct when he said that if 100 barrels a day were turned out, the cliffs would last for a million years.

Special sale on trunks and traveling bags. Buren & Hamilton.

A complaint has been filed with the railroad commission, coming from Echo. It is claimed that recently when two boys were drowned near that place it was desired to order coffins from Portland so they could be sent on the train leaving at 8 o'clock in the morning, but that the telegraph station was closed, and that after hunting up the operator he told them he was not permitted under any circumstances to use the wires before eight o'clock in the morning. The complainants place the blame on the Order of Railway Opera-

A mistake of 18 votes in Grant county reverses the lead in the McNary-Benson contest, and with five counties to hear from Benson has a lead of 11. Blanks have been sent the county clerks and an official count of all the counties in the state will be made as to the vote between McNary and Benson. This should be completed by Saturday, and until that time nothing definite can be learned as to the final results.

Some have been waiting to begin the study of Stenotypy, the "machine way in shorthand," until they could see some results from the system. If you are one of these, you may now see the results. The first class in Stenotypy in the Capital Business college was started the last of January, and every afternoon this week, at the college office, we intend to demonstrate what these pupils can do. A cordial invitation is given to any one interested to see these demonstrations, 1:30 to 5. Don't let this opportunity pass. Next

week we shall begin new classes in both Stenotypy and Shorthand. Why not improve the summer months in useful study? Think it over and act quickly. Talk with us and see what we can do for you.

PLYMOUTH STORE IS SOLD. Manager Brick Buys Out Firm of Enright & Enright, Dealers in Men's Furnishing Goods.

Enright & Enright, who succeeded the late Oscar Johnson in the control of the Plymouth clothing store, have sold the establishment to their manager, Mr. B. Brick. It is understood Mr. Brick paid considerable cash, and that he is to pay the balance in a short time. The Enrights have definitely decided to do this because of the personal attention they must give their real estate holdings. However, they will remain in control until the final payment is made. Mr. Brick is 35 years of age, and has been a traveling commercial man for several years. He has shown in the past 30 days since he has taken management of the store, that he has learned up-to-date business methods, which he lost no time in placing into operation.

It seems to be his greatest desire to send people out of the store delighted with their purchases and with the values and treatment received. A success full future is predicted for the young man, who apparently seems to want to please the trade and build up a reputation for honest values.

The safest get-rich-quick scheme is to have a wealthy relative die and leave you a fortune.
